**PROD UP MEN WHO DELAYED BUYING BONDS.**

Friday evening Chairman Temple and Sebastian and a squad of the Home Guards continued their work of prodding up those who had not responded as liberally to bond buying as their finances justified. A committee waited on D. C. Congdon, but he declined to increase his subscription of \$250. Chairman Temple and Sebastian and a detachment of the Guards in the evening visited Mr. Congdon and conferred with him, but he was obdurate and he was conducted before Chairman Patterson of the Council of Defense. Mr. Patterson presented the situation in a kindly way, but Mr. Congdon remained unmoved. The deputy sheriff was then called, Mr. Congdon taken to jail, where he phoned to Attorney Halligan for legal advice. Mr. Halligan, who is secretary of the Council of Defense advised his client to buy bonds, and this he did in the sum of \$750, making his total subscription \$1,000, and he was then escorted home.

Later in the evening George McKain who lives southwest of town and whose home had been visited by the Guards Wednesday evening, only to find him in Grand Island, was picked up on the streets, following his return from the latter place. McKain had evidently heard of the visit of the Guards to his home, and when solicited to buy more bonds—having previously subscribed but \$100—he consented without interposing very strong objections.

Others who were dilatory in subscribing or who had not subscribed as much as they should, and were prodded up by the Guards were Fred Donelson, Henry Bickley and Henry Lehr. The action of the Guards also hastened the subscriptions of others and the work they performed had a wholesome effect all along the line, and will have its effect in the next bond campaign.

**Detention Hospital Soon Ready.**

The detention hospital on the second floor of the city fire building will be placed in service tomorrow or Thursday. The necessary furnishings have been supplied by the Red Cross, and that organization will see that nurses are provided. The need of the hospital was felt last week, when several cases of the influenza demanded such quarters.

City Physician Redfield says that the influenza is entirely different in its treatment from the stages of small pox we have had. With the latter disease the patient can largely take care of himself but with the influenza careful nursing is needed to keep the disease from running into pneumonia.

**Young Men to Training School.**

Eight young men, seven of whom are residents of the city, left Saturday for Lincoln to enter the United States vocational training school. Those who left were Harry Jones, Ward LaRue, Chas. Walters, Enor Calhoun and Earling Qualley of this city and Harold Anderson of Sutherland.

The boys will be given several months' training in trades that are most needed by the government in the conduct of the war.

**Annex is Completed.**

The annex to the Hotel McCabe was completed by the contractors Saturday and turned over to the owner, Dr. McCabe. This annex provides an addition of eighteen rooms to the hotel. The furniture was received and unpacked by Mr. Weingand the latter part of last week and the rooms will be placed in service this week.

Now is your time to buy your new fall suit at a big saving in price at the BIG suit sale now on at BLOCKS.

**THE BOYS WHO LEAVE FOR CALIFORNIA FRIDAY.**

Below is a list of the boys who will leave Friday night for Camp Kearney, Cal. The list has been somewhat changed since first published, as the Union Pacific claimed exemption for several of the men on the first list and they were stricken from the list. Two or three others are sick and could not be summoned.

The boys will leave North Platte on a special train, as will also the contingent that comes from the counties along the North River branch road. An army physician and an assistant will go with the train, and before entering the boys they will be "looked over" by the physician.

The Lincoln county men have been notified to report at three o'clock Friday afternoon.

**COW BRAND**

Some people have the idea that the Food Administration requirement that a barrel of 100 per cent flour must be made from four bushels and twenty-four pounds of wheat means that all flours are alike. No greater mistake could be made. The government requirement puts millers to the supreme test,—and the difference between good and poor flour is more marked than ever before. Just, for instance, compare Cow Brand with any of the flours that are shipped into North Platte from outside mills. That shows better than any argument that we could make just what COW BRAND milling really means. Every first class grocery has COW BRAND flour for you.

**Only One-Fourth of American Telephone Exchanges Are Bell Owned or Controlled**

Of the 21,700 telephone exchanges in the United States, only 5,400 or about 25 per cent, are owned by the Bell System.

The Bell System, composed of 37 associated companies, does not seek universal ownership of the telephone. It does, however, encourage the connection of all the telephone systems in the country with each other so that communication between any two telephones in the nation will be possible.

In addition to 9,129 independent telephone companies in the United States operating 16,300 exchanges, there are 22,000 mutual telephone associations of farmers with 1,400,000 rural telephones.

The United States today has over 11,700,000 telephones, or more than all the rest of the world combined, and the service is the best and cheapest given anywhere.

No single telephone organization can claim the credit for the magnificent showing made in this country. Every telephone company, large and small, Bell owned, independently owned or a mutual association, is entitled to its full share of the credit.

**NEW SUGAR RULE TO SAVE 200,000,000 LBS. YEARLY.**

Washington, D. C.—Approximately 200,000,000 pounds of sugar will be saved each year by a new ruling of the Food Administration which will prevent anyone from obtaining more than 2 pounds of sugar per month.

Many people, it is said, were unconsciously breaking the regulation regarding the distribution of sugar by purchasing their sugar on the basis of one-half pounds per capita a week.

On this basis of four weeks to the month there will be only forty-eight weeks to the year, of 336 days. This would leave twenty-nine days, or practically another month, during which sugar would be consumed on a basis of 2 pounds per capita. With a population of 100,000,000 people this would require about an additional 200,000,000 pounds of sugar.

The new regulation which became effective October 15th, requires the consumer to purchase his allotment of sugar every fifteen days, or semi-monthly, rather than every week.
