It is understood that some time in the early spring the government will float another Liberty Loan, the reported figures of which are ten billion dollars. Let's come; Lincoln county will be ready with her quota, which will be in the neighborhood of one hundred thousand.

A Lieutenant and a private arrived in town Wednesday for the purpose of accompanying the Lincoln county contingent to Camp Kearney, Calif., the suspension of the order to entrain not having been issued until they had left their camp. They are now awaiting orders to whether to stay here or return to their camp.

Seven Buffalo county slackers were taken before the council of defense of that county Wednesday and directed to subscribe in sums ranging from \$500 to \$1500 each. Others will be brought before the Council. We publish this to show that in countries other than Lincoln those who failed to subscribe according to their means have been compelled to increase their subscriptions.

Joe Schwager Monday received fifty dollars from his son Paul, who is on the firing line in France, requesting that it be invested in war savings stamps to help win the war. Here is a boy who is not only risking his life for his country, but is saving money from his meagre salary to help out Uncle Sam financially.

Should not this bring a blush of shame to the fellows who had to be begged to buy a Liberty Bond of a small denomination?

Sheriff Salsbury and Clyde Trotter went to Brady Tuesday where they were augmented by a squad of Home Guards who drove to the ranch of Jack McKenna north of that village and secured a \$1400 subscription to the Fourth Liberty loan. McKenna had up to that time invested but \$100 in war savings stamps and the visit of the Home Guards was for the purpose of inducing him to subscribe according to his means. He made no objection to subscribing his quota.

LOGAN COUNTY BOY IS GUILTY OF MANSLAUGHTER

In the county court at Gandy Tuesday Hamilton Spain was found guilty of shooting and killing Wm. McClure on October 13th and was bound over to the district court on the charge of manslaughter. Both parties lived about twenty-five miles north of Stapleton.

Young Spain, who is but 19 years old, rode to the McClure home and called McClure to the door. When he appeared, Spain shot at him with a double-barrel shot gun but missed. McClure turned into the house, picked up a rifle, and fired at Spain, the bullet hitting him in the arm. Spain fired the other barrel of his gun, hitting McClure in the pit of the stomach. McClure managed to get to the home of George Osborne, three miles away, where he died.

Keefe Will Enter the Service.

J. T. Keefe, who made application some time ago for admission to an artillery officers' training school, received word Wednesday to report at an eastern camp next week. He left Wednesday night for Sioux City to visit his parents for a day or two; and returning here Saturday will leave Tuesday for the camp. His entrance into the service does not mean that he relinquishes his candidacy for county attorney. He asks for the support of the voters and if elected will appoint a competent deputy who will look after the duties of the office during his absence, and upon his return from service will take up the work personally. Mr. Keefe enters the service in advance of his call, and in the last week of the political campaign, but his friends will no doubt use their full influence in securing his election at the polls November 5th.

The remains were taken to Beatrice Wednesday night for interment. Mrs. Todd was before marriage a Cobey, a member of one of the prominent families of Gage county.

Mr. Todd has also been suffering from the disease, and while considered out of danger was not able to accompany the remains of his wife to Beatrice.

Sheets Overstays Furlough.

Clyde Sheets, of this city, who came here on a furlough several weeks ago, was taken back to Camp Funston yesterday morning by a member of the military police force who had been detailed for that purpose. Politely speaking Sheets is charged with overstaying his furlough, but in army terms he is charged with desertion. Sheets' excuse for not returning to Funston within the period of his furlough is that he became afflicted with the influenza and was not able to leave.

Soldier Held in Jail.

A soldier who belongs to a camp at Waco, Texas, voluntarily gave himself up to Sheriff Salsbury Tuesday night, stating that he had secured a furlough to visit his wife in Denver and had overstayed his furlough. Sheriff Salsbury is holding the man in jail pending a reply to a wire sent to the commanding officer of the camp.

This soldier beat his way to this city from Denver on a train, but why he came here, he has not divulged.

Joint Endorsement by the Three Congressional Leaders

To the voters of the Sixth Congressional District of Nebraska:

We the undersigned members of the House of Representatives, familiar with the Congressional service of the Honorable M. P. Kindred, your representative, take pleasure in commending him for re-election.

We deem his return to the next Congress very desirable, since he has given staunch support to all measures intended to make the declaration of war effective, and his familiarity with the questions which are paramount in the winning of a victorious peace and other legislation needed for the best interests of your State and Nation. His large experience and the judgment are, in our estimation, of great value in this time of our National emergency.

To The Voters.

I hereby announce that I am a candidate, by petition, for the office of County Surveyor of Lincoln county at the coming election.

I was born at North Platte and educated in schools of that town and later completed the four year course for civil engineers and surveyors at the University of Nebraska. I spent one year with the U. S. Gov. Land Dept. on the survey of McPherson County, Nebraska and during the past eight years I have been with the Union Pacific R. R. Engr. Dept., except for the time spent in Lincoln County on land and irrigation surveys and as city engineer of North Platte.

I will appreciate your support at the coming election.

ALLIES WILL UNITE IN REPLY TO PEACE NOTE.

President Wilson's action on the latest German peace note will have the approval of the entente powers before it is made public. With the official text of the German peace appeal in his hands the president took steps to consult with the British, French and Italian premiers.

It may be stated that there is nothing in the communication to alter the decision of the president that he will not propose an armistice to the allies before the Germans evacuate all occupied territory.

Official intimations already had been given that the only questions for immediate consideration is whether there shall be a discussion of terms of evacuation while the allied and American armies continue their work of clearing Belgium and northern France.

Exchanges between Washington and the allied capitals have been in progress on the basis of the wireless version of the note received Monday and it is regarded as certain that any reply the president may make will be governed by the supreme war council in France. Only the president and a few of his advisers know how far these exchanges have progressed. No one else can say when an announcement of the president's attitude may be expected.

\$2.48 Wheat Not Satisfactory.

The National Wheat Growers Association have entered an appeal to President Wilson against the \$2.48 wheat price which was recommended by the Agricultural Advisory Board as a just price to be fixed for the current year. The wheat growers protest the price to be set, asserting that wheat will be justly worth over three dollars a bushel in comparison to prices fixed on other commodities.

Corn and cotton come in for the heaviest censure by the wheat growers who assert that the proportionate raise over pre-war prices is a great deal higher than the raise granted to the wheat growers of the nation who are planting heavier crops in order to meet the heavy demand for flour from our troops and allies.
