

Diamonds as Gifts.

A diamond is the first of all gift things. In it are combined beauty, value, fashion and desire. The universal demand and fixed financial status of the diamond make it reserve wealth. It can be converted into money any day, should the owner so wish.

The Clinton's is a splendid place at which to buy a diamond. The care with which our stones are selected prevent any but desirable quality getting into our stock. You have expert help and favorable conditions in making your selection. The prices represent attractive values. We show mounted and unset stones.

Dodge Brothers Light work car for commercial and farmer use has definitely made good everywhere. Large numbers in use in all the large cities and we have a dozen making records on the farms and ranches of this territory. This is the modern spring wagon, built with the same strength and economy which is typical of all Dodge cars. This car takes the place of your touring car and also takes care of a great deal of your farm haulage. It will prove a real economy to you and take the place of two cars. J. V. ROMIGH, Dealer.

NEWS ABOUT THE BOYS WHO ARE IN THE SERVICE

Lieut. M. E. Overman, who has been visiting the home folks for a week, will return to his training camp today.

Harry Lanni, a former employee of The Tribune now in service in France, writes that he is in fine health and likes his work.

In the casualty list published in Sunday's papers appeared the name of Chas. E. Falk, of Brady, who was listed as dangerously wounded.

Lieut. Walter Ellis writes The Tribune that he has received his commission and has been ordered to report for duty at Camp Jackson, South Carolina.

A letter received yesterday by Fred Barraclough from his son Ellis announced his safe arrival somewhere in France. He had not been over long enough to say much about the country.

Ray McCann, formerly of the O'Connor store, who is in the radio service at Great Lakes, is home on a visit. He expects to be sent to Harvard university in a short time for further instruction.

Coulter Elder, who enlisted in the tank service, left Sunday for the training camp at Raleigh, N. C. The young man had been anxious to enlist for a year, and when he was accepted he was a very happy boy.

Rev. J. H. Curry is in receipt of a letter from Frank C. Stuart, who has been in overseas service for nearly a year, and who before leaving was employed at the ice houses. Frank is in a base hospital recovering from a wound in the left leg which he received on the fourth day of the drive at Verdun. It was thought at first that he would lose the leg, but it is now believed that it will be saved.

Ray Miller, son of Mr. and Mrs. G. W. Miller of this city, who has been in service in France for a year as a member of the supply train, sent \$200 home to invest in Fourth Liberty loan bonds. The spirit shown by Ray is truly patriotic and American. Not only is he facing danger every day in transporting food and ammunition to the front line trenches, but he indicates his willingness to further help out his country by purchasing bonds to the limit of his ability. Such instances as this make lots of us ashamed of ourselves that we are not doing more for our country.

Hay movement is rather slow at present, the Omaha and Denver, as well as the other western markets seemingly being well supplied. BOB TURNER ARRESTED FOR VIOLATING POSTAL LAW

Bob Turner, who for several months conducting the billiard hall in the Goozes building on S 6th street, was arrested Friday on the charge of violating the postal laws, and is now in jail. The violation with which Turner is charged is that of receiving poison through the mail. He is a morphine fiend, and ever since he has been located in town he has received at intervals a package containing sulphate of morphine. Last week he received a package containing a half dozen two ounce bottles of the poison, which got into the hands of the local officials before it reached Turner. In ordering the drug he had it sent in a fictitious name, and ordered the keeper of the Commercial House, at which he roomed, to deliver to him the package which arrived addressed to that particular name. It was through this method of dealing that he was apprehended, the landlord of the house assisting in causing Turner's arrest. Turner's condition is such as to indicate that he is in a confirmed dope fiend, and he has used it so long that it requires a very heavy dose to produce the desired effect. The penalty for sending and receiving poison through the mail is from one to five years imprisonment.

CITY AND COUNTY NEWS.

ISSUES LETTER TO ALL RURAL SCHOOL DISTRICTS.

Chairman Weingand has issued the following letter which he is sending to all voters in the rural school districts:

Dear Friend and Fellow Citizen:

At the suggestion of President Wilson and the United States Army and Navy, the seven great agencies doing social, educational and welfare work for our soldiers and sailors at home and overseas, have been consolidated into one huge organization in order that the spirit of the country in this matter may be expressed without distinction of race or religious opinion in support of what is in reality a common service, and thus avoiding the time and expense of seven different campaigns.

You are hereby notified that there will be a meeting of all resident persons in your school district at your school house on Monday, November 11, at 2 p. m., for the purpose of receiving subscriptions to the United War Work Campaign. Your district committee will be present and will give you any information you may desire regarding this campaign.

This is a real test of your patriotism as there will be no "coupon" attached to this pledge. It is absolutely necessary and obligatory that everyone give to this fund, for it is just as essential in winning this war as any of the other agencies such as the Red Cross and the Liberty Loans, as our boys must be well taken care of, and you must give in accordance with your prosperity.

I sincerely hope that you will do your duty as a patriotic citizen, as well as to see that all others in your district do likewise, so it will not be necessary for the Committee to resort to drastic measures in this connection.

REMEMBER THE DATE: MONDAY, NOVEMBER 11.

THE MEETING PLACE: YOUR SCHOOLHOUSE.

Yours for the United War Work Campaign.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months North Platte readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

M. C. Rogers, Prop. of harness store, 514 Locust St., North Platte, says: "Once in a while my kidneys have become disordered and if I didn't attend to them right away I would get in bad shape. My back would become lame and there would be a steady ache in it. When I tried to straighten up after sitting down, a sharp pain would catch me. I knew my kidneys were the cause of it, for at such times they acted too often, especially at night. Doan's Kidney Pills have always relieved any signs of such trouble, putting my kidneys in a good condition. I know Doan's can be depended upon and I am glad to recommend them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Rogers had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

THE POTASH PLANT NOW BUILDING AT SUTHERLAND.

The Sutherland Courier has the following to say of the potash plant now being erected at that place:

Right now the Republic Chemical Works are excavating for one of the largest buildings in Western Nebraska. This building when completed will be 90x285 feet. The foundation of this building will require 1500 loads of gravel, which by the way is right on the property owned by this company and will not cost so much to handle.

The side tracks are in and freight is being unloaded from them. Before permission would be granted for these tracks it was necessary for Mr. Porter to prove to the powers that be in Washington that he had potash in paying quantities and that the government would benefit by having side tracks put in. The government sent a man here for the purpose and he pronounced it good.

Two surveying crews have been busy surveying the route for the pipe line which will carry the potash from the lakes north of us to the plant and it is expected that the laying of the pipe will commence in about two weeks.

For this work something over \$1,000,000 worth of tools is already on the ground. Also \$125,000 worth of material is on the way which will be used in putting up the building.

Mr. D. S. McCallman, formerly consulting engineer for the U. P., has charge of the construction work, and is one of the busiest men in these parts. He is a pleasant gentleman to meet and his record for work in the past is a guarantee that the Republic Chemical Works knew what it was doing when placing him in charge.

The executive office of the Republic Chemical Works is at 913-14 National Bank Building, Omaha, Nebraska.
