DAIRY FACTS

STRONG AND VIGOROUS CALF

Demand for Desirable Young Stock Justifies Expense in Rearing Dairy Youngsters.

(Prepared by the United States Department of Agriculture.)

The herd of the next few years is composed of the calves of today, and it is therefore very important that they be strong and vigorous. If the cows have been properly cared for before calving, the calves are generally strong when born. Afterward the vigor of the calves depends upon the care they receive.

The three essentials for successful calf raising are cleanliness, care and regularity. Failure to follow any one of these results in sick or unthrifty calves. If well cared for, each should gain at least a pound a day. In fact, weight is one of the best guides of proper care; no gain indicates that something is wrong.

Most calves at present are raised by hand; that is, they are allowed to nurse only a few times and are then fed from pails. The common plan is

Cleanliness, Care and Regularity Are the A, B and C of Profitable Calf Raising.

to allow the calves to nurse once and thus obtain the first, or colostrum milk, after which they are fed from pails. If the calves are weaned early they are more easily taught to drink and the cows forget them sooner.

Weaning is a critical time, but if the calves are handled properly at that time there will usually be no trouble. It is the time to pay particular attention to cleanliness, care and regularity. All pails must be scrupulously clean, and the pens kept clean and plenty of bedding supplied. Damp quarters or dirty pails will surely cause sickness. Once stunted by sickness the calves make slow growth and require more feed for the same gains in weight.

Young calves require fresh, clean and warm milk—not in large quantities but always a little less than the appetite demands. At first, four to five pounds of milk is sufficient for one feed when given twice daily. When fed in this way the feeds should be as nearly as possible 12 hours apart. If it can be arranged, the calves should be fed three times a day for the first week and the quantity at a feed thus correspondingly reduced.

Regularity must not be forgotten, for it is essential in calf raising. Regular feeding and a uniform quantity prevent much trouble. Never try to guess at the quantity of milk; weigh it! Don't estimate the temperature of the milk; use a thermometer! The finger is not sensitive enough to gauge the temperature of the milk when it is between 70 degrees and 90 degrees F. The first is too cold, the latter is right.

The quality of milk is increased gradually so that at two weeks of age the calves are getting daily 14 to 16 pounds apiece. At that age, if the calves are vigorous, skim milk may be substituted for whole milk. Make the change gradually, substituting a pound at a time. Usually the change takes a week or ten days, depending on the condition of the calves. At the same age, offer them a little clean dry grain, such as bran; bright, clean hay also should be placed conveniently. If skim milk is plentiful, feed up to 20 pounds a day to each calf and continue for several months. When it is scarce, calves may usually be weaned at about six weeks and put on dry feed.

The care during the first few weeks is very important if healthy calves are to be raised. Cleanliness, care and regularity in feeding return good profits in strong, vigorous calves.

INCREASE MILK PRODUCTION

Much Depends on Selection, Breeding and Management—Eliminate Unprofitable Cows.

(Prepared by the United States Department of Agriculture.)

How to obtain large production most economically is the great problem of every dairyman. Economical production depends primarily on selection, breeding and feeding, care and management. It requires that all unprofitable cows be eliminated, that the remainder be bred to first-class bulls, and that each cow in the herd be fed a properly balanced ration according to production. It also requires the intelligent feeding, care and management of calves and young stock.

DANDRUFF MAKES HAIR FALL OUT

A small bottle of "Danderine" keeps hair thick, strong, beautiful.

Girls! Try this! Doubles beauty of your hair in a few moments.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine for a few cents at any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.

Cause for Sadness.
The Thrift Stamp—Why so jealous?

LOOK AT CHILD'S TONGUE IF SICK, CROSS, FEVERISH

HURRY, MOTHER! REMOVE POISONS FROM LITTLE STOMACH, LIVER, BOWELS.

GIVE CALIFORNIA SYRUP OF FIGS AT ONCE IF BILIOUS OR CONSTIPATED.

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by the "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

"After-the-War" Dressing.

Discussion of the "after-the-war period" is becoming more general, some believing that it is too early to predict which effect victory will have on women and their mode of living. One couturier predicts that the most elaborate things will be made and women should wear them as an expression of victory. Banquets and receptions in honor of foreign visitors and our returning men will demand such clothes, and it is really up to the women to heal their heartaches as best they can and lift the spirit of the country. The English women have been doing this for some time; they have avoided mourning and are creating as gay a note as possible in London.—Women's Wear.

Tooth Brushes.

The generation of American mothers that have trained their boys to care for their teeth as the people of no other country do would glow with pride if they could trek up in the wake of our army in action and see the whole rear area dotted at sunrise with Yankee soldiers just out of battle, and every man brushing his teeth. Often most of his possessions have been jettisoned in the rush of the advance.

Old Clothes "Clinics" the Fashion.

To be up to date these days your community should have an old-clothes clinic, the department of agriculture suggests. Not the amount you spend on clothes but the amount you save is the criterion by which you are judged in this year of war. The home demonstration agents usually hold the rallies, and old garments are brought, ripped and made over by the women under their direction. This wool-conserving campaign in Iowa is particularly strong.

Sun Bean for Him.

Mother was having home Sunday school services. A song suitable for the kindergarten worshiper was selected. Spying Uncle Harry driving by, the other children at once "cut service" but Nancy Jane continued her wailing solo, "Sun bean, sun bean, Jesus wants me for a sun bean. I'll be a sun bean for him."

Unchecked.

"How did Teller get his cold?"
"All the drafts in the bank got through his cage."—Boston Evening Transcript.

SPANISH INFLUENZA Do Not Fear When Fighting a German or a Germ!

By DR. M. COOK.

The cool fighter always wins and as there is no need to become panic-stricken. Avoid fear and crowds. Exercise in the fresh air and practice the three C's: A Clean Mouth, a Clean Skin and Clean Bowels. To carry off the poisons that accumulate within the body and to ward off an attack of the influenza bacillus, take a good liver regulator to move the bowels. Such one is made up of May-apple, leaves of aloë, root of jalap, and is to be had at any drug store, and called "Pleasant Purgative Pellets."

If a bad cold develops, go to bed, wrap up well, drink freely of hot lemonade and take a hot mustard foot-bath. Have the bedroom warm but well ventilated. Obtain at the nearest drug store "Anuric Tablets" to flush the kidneys and control the pains and aches. Take an "Anuric" table every two hours, together with copious drinks of lemonade. If a true case of influenza, the food should be simple, such as broths, milk, buttermilk and ice-cream; but it is important that food be given regularly in order to keep up patient's strength and vitality. After the acute attack has passed, which is generally from three to seven days, the system should be built up by the use of a good iron tonic, such as "Ironite" tablets, to be obtained at some drug stores, or that well known blood-maker and herbal tonic made from roots and barks of forest trees—sold everywhere as Dr. Pierce's Golden Medical Discovery.

The Proof.

"Tush!" said Dubbs contemptuously. "A woman never knows what she wants!"
"That's true enough," said Mrs. Dubbs. "I wanted you once, but if I'd known you—"
The pause then ensued was so chilly that the mercury in the thermometer on the wall broke through the glass and fell to the oor with a dull, sickening splash.

WHAT EVERY WOMAN KNOWS.

Every woman takes great pride in having her home well kept, in having the family wash done early in the week. Good bluing is needed even more than good soap. Be sure to use Red Cross Ball Blue.—Adv.

The Reason.

"Jinks has so much poor health."
"That is because he eats so much rich food."

Of London's inhabitants, 350 in 1,000 are country born.

Hard Work Alone Never Kills

Hard work never killed anybody. But hard work, with irregular hours and neglect of rest does weaken the kidneys and cause one tired, miserable and half sick. If your back aches—if you have headaches, dizziness and urinary disorders—don't wait! Help the weakened kidneys before droopy, gravel or Bright's disease attacks you. Use Doan's Kidney Pills. They have helped thousands and are used the world over.

A Nebraska Case

Mrs. Wm. Bryant, "Every Picture Tells a Story" for South St., Buffalo, N. Y., says: "I had kidney and bladder trouble and it caused me a great deal of misery. My whole system seemed to be affected. My attention was called to Doan's Kidney Pills and I used them. They strengthened and toned up my kidneys, regulated their action and acted as a kidney tonic, making me feel better in every way."

Fame.
Little Dick came home with quite an air of importance the first evening of his existence in the new town to which his parents had moved.
"The boys in this town must have heard all about me before we came here," he boasted.
"But, Dick," said his mother, "there's no one in this town that know us."
"That don't make any difference," the boy persisted. "Cause when I came down the street this morning a whole bunch of boys yelled, 'Hello, Sorrel-top!' Just the way they used to do at home."—Harper's.

Pa's Predicament.
Jimmie—Say, pa, I thought you told me a person has only five senses.
Pa—So I did, son; what of it?
Jimmie—Why, teacher told us that some people have six.
Pa—Of course, but one of 'em is the war tax.

Lives 200 Years!

For more than 200 years, Haarlem Oil, the famous national remedy of Holland, has been recognized as an infallible relief from all forms of kidney and bladder disorders. Its very age is proof that it must have unusual merit.
If you are troubled with pains or aches in the back, feel tired in the morning, headaches, indigestion, insomnia, painful or too frequent passage of urine, irritation or stings in the bladder, you will almost certainly find relief in GOLD MEDAL Haarlem Oil Capsules. This is the good old remedy that has stood the test for hundreds of years, prepared in the proper quantity and convenient form to take. It is imported direct from Holland laboratories, and you can get it at any drug store. It is a standard, old-time home remedy and needs no introduction. Each capsule contains one dose of five drops and is pleasant and easy to take. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "brick dust," etc. Your money promptly refunded if they do not relieve you. But be sure to get the genuine GOLD MEDAL brand. In boxes, three sizes.—Adv.

Dark.
"Don't you know I 'ol' yo' not to go swimmin' wid no white trash chiflin, eh?" sternly asked Sambo Johnson.
"But he wa'n't white before he went in," replied Sambo's small son.—Boys' Life.

Catarrh Cannot Be Cured by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly induced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarrh. It is imported directly and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarrhal conditions. Druggists Sell. Testimonials free. F. J.
