Medical Men Patriotic.

The splendid health in which the Canadian corps has been maintained is due to the unceasing vigilance and tireless efforts of the Canadian army medical corps. It is estimated that 75 per cent of the medical profession in Canada was engaged in some professional capacity in connection with the armed forces of Canada, either at home or overseas.—Current History.

Windmill Drives Dynamo.

A dynamo-driving windmill lately described by H. C. Vogt has sails 100 feet in diameter, with an area of 3,030 square feet. A wind of 24 feet per second gives 200-horse power. Cog wheels with spokes in tension transmit the power and the speed is increased by the gearing from 12 1/2 revolutions per minute of the main shaft to 1,500 for the dynamo.

BRIEF INFORMATION.

The carelessness of smokers and the ignorance of children are to be blamed for most of the fires which occurred in New York during the last year. Consul A. T. Haebler reports from Pernambuco, Brazil, that the consulate would be interested in receiving catalogues of seeds or any articles pertaining to horticulture, as well as catalogues of thoroughbred cattle. An English army officer is the inventor of a flexible false bottom that can be attached to trucks for rapidly unloading them by turning two cranks. Alien language newspapers in Canada are rapidly adopting English. A cellulose factory at Krogstad, Norway, will double its capital stock with a view to enlarging its capacity and introducing a process for making alcohol from sulphuric waste.
