Making It Easy For Your Eyes

A defective eye works harder to see. Usually vision isn't as good as it would be if properly fitted glasses were worn. Eye strain exists, and unless it is removed permanent injury to sight will follow. Glasses help the overworked eye. They bring normal vision and protect sight.

There are very few perfect eyes. Often strain is present when it is not suspected. The sensible thing is to have Clinton's optometrist examine your eyes. Then you will know exactly what should be done.

Stone's Platform.

Elsewhere will be found an address issued to the voters by Candidate Stone who pays more attention to a consideration of business matters than he does to the moral proposition, which has been made the real issue in the campaign, though he promises to appoint a police force that will enforce the laws, holding the officers responsible to him as he will hold himself responsible to the people. This statement will be accepted as satisfactory by those who best know Mr. Stone, but it is hardly explicit enough to satisfy the people who are making the present vigorous demand for a cleaner North Platte. Of the four candidates, Mr. Stone has the best knowledge of municipal affairs, for he has been a member of the council for six years, and his record as such has been good—he has, as he says, been safe and sane. As a business man Mr. Stone has ability, as a citizen he is progressive, and if elected mayor and falls to keep his promise as to law enforcement, it will be the first time so far as we know that he has broken a promise.

The best dressed women in the city get their spring outfit at BLOCK'S Ladies' Outfitting Store because it is the only store in the city that specializes in handling America's best and most up to the minute women's apparel exclusively.

Parties from Omaha or Council Bluffs have commenced moving onto the Neville ranch which will be vacated by H. L. Schriver this spring. In these parties shipment is a mammoth tractor 8-foot drive wheels, with eight gang plows attached. It is quite a novelty in this part of the state. It must mean that the ranch is to be reduced to a state of cultivation. In that event many new homes would be erected on the 14,000 acre ranch.—Maxwell Teletop.
