WHY ALL THIS CAMOUFLAGE!

Why all this camouflage? Why all this beclouding of the issues? Why all these attempts to throw dust into the eyes of the unwary, and perhaps by diverting thoughts from the main issue secure few supporters for the other fellow? WHY? We maintain that the following are completely aside from the REAL ISSUE of the campaign.

We are about to elect a mayor of this municipality. His opinion on the necessity of a court house adequate to meet the demands of Lincoln county is a negligible quantity. The new court house will come only when this county votes bonds for it, and in that election the mayor, no matter who he is, will have but ONE VOTE. He cannot force the issue, neither can he block it. He is but one man with but one vote. Therefore, forget the court house issue! It is extraneous.

One of the candidates says he is in favor of "good roads into North Platte." Who that is ever compelled to travel them is not? But what has the mayor to say on that question? The roads are improved and maintained by county and state levies, not municipal. He can pay his taxes like any good citizen but he cannot force the hand of either county or state officials in the matter. Besides, the Chamber of Commerce is doing commendable work along that line. Good roads is another extraneous matter.

Attempts are being made to make the matter of paying an issue. When the property owners abutting any certain street demand paying the mayor cannot stay it if he would. If he initiates the movement and the majority of property owners object, it fails. The mayor, fortunately, does not possess the powers of a tyrant when it comes to paving. Extraneous issue number three.

Wednesday the Central Labor Union came out with an endorsement of one of the candidates, asserting that he has always been in sympathy with them and supported them. UNION LABOR is not an issue in this election. The organization of unions in this city is a matter of the past few months. It has never been an issue in this town and is not now. Why drag it in by the heels?

Everyone will admit that there are a few areas in our business district which are "eye-sores" to the public. One candidate says he will clean them up. HOW? If they are a public menace to safety the state fire warden can compel the removal of the dangerous buildings. If they are a menace to the public health, the local board of health can abate them. But, the mayor has no more power to compel the owners of said areas to remove buildings or build new than he has to force the owner of a vacant lot in the residence district to build a house on that lot. It is all "poppy-cock." Fortunately some of us know better. We know it is but a "vote catcher," an appeal to the unwary.

There is but one real issue to this campaign, and that is A CLEANER CITY MORALLY. There is one candidate whose record is unimpeachable, who has promised the citizens that if elected he will do his utmost "to suppress boot-legging, social vice, and gambling." He is the man who deserves your support. He means what he says. A vote for A. F. STREITZ is a vote for the safety of your boy and girl. (Adv. Inserted by the Cleaner North Platte Committee.)

BUSINESS MEN ARE ASKED TO AID RETURNED SOLDIERS

A Washington dispatch dated Wednesday says: "Commercial clubs over the country to the number of six thousand are being officially requested today to aid in finding employment for the thousands of soldiers who have returned from France and are now jobless. Colonel Arthur Wood, who is in charge of this branch of the service, states that the situation is becoming more serious daily, especially in the larger cities, and the number of the unemployed increases by the thousands. "All reports received from the larger commercial centers indicate that the unemployed situation is getting to be more serious hourly. Soldiers are congregating at these points, looking for work and idly parading the street. The commercial clubs are to be encouraged to induce these men to take to the farms and rural districts rather than crowd to the big centers. "A special appeal is to be made along the line of having all boys return to their home towns and there

secure employment, rather than change their localities and vocations at this time. It is believed that the situation can be greatly alleviated in this manner."
