**HOW TO SET A HEN PROPERLY**

Nest Should Be in Some Quiet Place Where She Won't Be Disturbed—Handle Carefully.

Prepared by the United States Department of Agriculture.

The first sign of a hen being broody (wanting to set) is that she stays longer on the nest when laying, and on being approached will quite likely remain and make a clucking noise, ruffle her feathers and peck at the intruder. When it is noted that a hen sets on a nest from two to three nights in succession and that the feathers are disappearing from her breast which should feel hot to the hand, she is ready to be transferred for setting to a nest which has pre-

Well-Selected Flock of Young Hens of Uniform Size.

viously been prepared. The normal temperature of a hen is from 106 to 107 degrees F., which varies slightly during incubation.

The nest should be in some quiet, out-of-the-way place, where the sitting hen will not be disturbed. Move her from the regular laying nest at night and handle her carefully in doing so. Put a china egg or two in the nest where she is to sit and place a board over the opening so that she cannot get off.

Toward the evening of the second day quietly go in where she is sitting, leave some feed and water, remove the board from the front or top of the nest, and let the hen come off when she is ready. Should she return to the nest after feeding remove the china egg or eggs and put under those that are to be incubated. If the nests are slightly darkened the hens are less likely to become restless.

At hatching time they should be confined and not be disturbed until the hatch is completed, unless they become restless, when it may be best to remove the chicks that are hatched first. In cool weather it is best not to put more than ten eggs under a hen, while later in the spring one can put twelve to fifteen, according to the size of the hen.

Dust the hen thoroughly with insect powder, and in applying the powder hold the hen by the feet, the head down, working the powder well into the feathers, giving special attention to regions around the vent and under the wings. The powder should also be sprinkled in the nest.

**POULTRY NOTES**

Guineas, like geese and pigeons, pair when the number of males and females is equal.

The turkey does not fully mature until two years old, and is at its best at three years.

Sometimes the old hens of the heavy breeds will not need fattening, as they have a tendency to take on fat with age.

The poultry house should have no draughts; it should be clean and kept clean and no damp floors should be tolerated.

A fowl consumes about three ounces of mash in the morning, two ounces of grain at noon, and four ounces of grain at the evening feed.

Proper equipment in the poultry-house often is the deciding factor in successful poultry keeping and should be given due consideration.

Hens lay best in damp weather, even during winter. It will be noticed that they are more prolific during showery spells than they are when it is dry. The theory is that moisture produces expansion and growth, whereas dry, cold or dry warmth contracts.

**GIRLS! LOTS OF BEAUTIFUL HAIR**

A small bottle of "Danderine" makes hair thick, glossy and wavy.

Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now—it costs but a few cents—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp, and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this. Adv.

**Lives 200 Years!**

For more than 200 years, Haarlem Oil, the famous national remedy of Holland, has been recognized as an infallible relief from all forms of kidney and bladder disorders. Its very age is proof that it must have unusual merit.

If you are troubled with pains or aches in the back, feel tired in the morning, headaches, indigestion, insomnia, painful or too frequent passage of urine, irritation or stone in the bladder, you will almost certainly find relief in GOLD MEDAL Haarlem Oil Capsules. This is the good old remedy that has stood the test for hundreds of years, prepared in the proper quantity and convenient form to take. It is imported direct from Holland laboratories, and you can get it at any drug store. It is a standard, old-time home remedy and needs no introduction. Each capsule contains one dose of five drops and is pleasant and easy to take. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "brick dust," etc. Your money promptly refunded if they do not relieve you. But be sure to get the genuine GOLD MEDAL brand. In boxes, three sizes.—Adv.

**SPRAINS! RUB PAINS AND SWELLING AWAY**

Don't suffer! Go about your duties—Relief comes the moment you Apply "St. Jacobs Liniment."

Don't stay crippled! Rub this soothing, penetrating liniment right into the sprain, ache or strain, and out comes pain, soreness, stiffness and swelling.

Nothing else penetrates, heals and strengthens the injured muscles, nerves, tendons and ligaments so promptly. It doesn't burn or discolor the skin and can not cause injury. Don't suffer! Get a small trial bottle from any drug store now—limber up! Rub the misery right out. A moment after "St. Jacobs Liniment" is applied you can not feel the slightest pain or soreness, and you can go about your regular duties.

"St. Jacobs Liniment" conquers pain. It has been used effectively for sprains, strains, soreness and stiffness for 60 years—six gold medal awards.—Adv.

**DRUGGISTS! VICK'S VAPORUB SHORTAGE OVERCOME AT LAST**

The Deal Scheduled for Last November, Which Was Postponed on Account of the Influenza Epidemic, Is Now Re-instated—Good During the Month of March.

OVER ONE MILLION JARS OF VAPORUB PRODUCED EACH WEEK

It is with pride that we announce to the drug trade that the shortage of Vick's Vaporub, which has lasted since last October, is now overcome. Since January 1st, we have been running our laboratory twenty-three and a half hours out of every twenty-four. Last week we shipped the last of our back orders, and retail druggists, therefore, are no longer requested to order in small quantities only.

**NOVEMBER DEAL RE-INSTATED**  
This deal, which we had expected to put on last November and which had to be postponed on account of the shortage of Vaporub, is re-instated for the month of March. This allows a discount of 10% on shipments from jobbers' stock of quantities of from 1 to 4 gross. 5% of this discount is allowed by the jobber and 5% by us.

We advise the retail druggists to place their orders immediately, so that the jobbers will be able to get prompt shipments to them.

**THANKS OF THE PUBLIC DUE THE DRUG TRADE DURING THE INFLUENZA EPIDEMIC.**

The thanks of the American public are certainly due the entire drug trade—retail, wholesale and manufacturing—for what they accomplished during the recent influenza epidemic. The war caused a shortage of physicians—nurses were almost impossible to obtain—the demand on the drug trade was unexpected and overwhelming, and to this demand they responded nobly. Retail druggists kept open day and night and slept where they dropped behind the prescription counter. Wholesale druggists called their salesmen off the road to help fill orders—hundreds wired us to ship Vick's Vaporub by the quickest route, regardless of expense.

**A TREMENDOUS JOB TO INCREASE OUR PRODUCTION**

In this emergency we tried to do our part. We scoured the country for raw materials—our Traffic Manager spent his days riding freight cars in—we shipped raw materials in carload lots by express and pleaded with manufacturers to increase their deliveries to us. But it was a slow process. Some of our raw materials are produced only in Japan—supplies in this country were low and shipments required three months to come from the Far East. Then we had to recruit and train skilled labor. We brought our salesmen into the factory and trained them as foremen. We invented new machinery, and managed to install it on Christmas Day, so as not to interfere with our daily production.

**143 JARS OF VAPORUB EVERY MINUTE DAY AND NIGHT**

By January 1st we had everything ready to put on our night shift, and since then our laboratory has been running day and night. To feed our automatic machines, which drop out one hundred and forty-three jars of Vaporub a minute or one million and eighty thousand weekly, has required a force of 500 people. Our Cafe Department, created for the benefit of these workers, served 7,000 meals during the month of January alone.

**13 MILLION JARS OF VAPORUB DISTRIBUTED SINCE OCTOBER.**

An idea of the work we have accomplished this fall may be given by our production figures—13,028,976 jars of Vaporub manufactured and distributed since last October—one jar for every two families in the entire United States.

During the influenza epidemic Vick's Vaporub was used as an external application in connection with the physician's treatment, and thousands of people, unable to obtain a doctor, relied on Vick's almost exclusively.

Literally millions of families all over the country, from California to Maine, and from the Great Lakes to the Gulf, have found Vick's Vaporub the ideal home remedy for croup and cold troubles.
