Seven out of Ten Need Glasses

An eye that is the merest fraction of an inch too long, or too short, or uneven on the surface, has to work extra hard to focus light rays—often cannot secure a focus, in which case sight is not as good as it should be. This extra work causes strain, which is hard on the eyes and on health. Properly fitted glasses end the strain. Investigation shows seven out of ten people would be benefited in sight and health by wearing glasses. You can have your eyes tested in the most scientific manner at Clinton's. It is a good thing to have done.

The North Platte girls' team played the girls' team at Ogalalla the same evening and won by a score of twenty-three to eleven.

U. P. Officials Re-enter Service.

Supt. Woodruff and Master Mechanic Higginson, of the Wyoming division, who had been in service overseas, arrived home a few days ago, and today re-enter the service of the Union Pacific on the Wyoming division. Supt. McDuffy, who has had charge of the Wyoming division during the absence of Supt. Woodruff, will go back to the Western district with headquarters at Rawlins.

Men Quit Union Pacific

Today nine men who had been members of the car repair gang during the winter, quit the service of the Union Pacific and will return to farm work. About a dozen Jap and Mexican laborers have also given up their positions with the company to go to work in the best fields and at other farm labor. District Foreman McGraw says he experienced no trouble in filling the places of the men who quit, as he had on file more applications than necessary to fill the places vacated. There generally is a waiting list of common laborers, but the number of mechanics applying for work is exceptionally light.

Run Down by Car.

A three year old child of Ike Curtis, of Hershey, was run down by a car driven by Mrs. D. M. Leypoldt Saturday afternoon at the corner of Sixth and Dewey, but fortunately the little one was but slightly injured. No blame is attached to Mrs. Leypoldt, as she was driving very slowly and had her car under control. The child was at the edge of the sidewalk with its mother and ran directly in front of the car when it was so close to her that Mrs. Leypoldt did not have time even to swerve the car. The child was knocked down and a front wheel passed over both legs. Mrs. Leypoldt picked the child up and conveyed it to the General Hospital where an examination disclosed no broken bones and only very slight bruises.

Power.

It has just come to my notice, that never having made any wonderful claims, but being satisfied with the facts of performance and endurance of Chandler Motor Cars, after having thoroughly tested them myself, that some of the secret of the power of this car is due to a comparison of its horsepower to weight. The Chandler motor develops 72 h. p. and the dispatch-passenger model weighs 2840 pounds. More than 1 h. p. for every 40 pounds of weight. Compare this with some of the widely vaunted claims as advertised, or with the power to weight of any stock car produced, regardless of price. And the touring 7 passenger model weighs but 2855. Seventy-two horse power ought to give this light staunch car lots of action and really it does. Try one out some time, with no obligation to buy, but merely to know. At your service.

No Apology to Make.

Whether the candidate endorsed by The Tribune is first or fourth in the race, no apologies will be offered. Mr. Pizer's platform covered the phases of the city's needs, and this, backed by the belief that he would make good the promises therein contained, support was given him.

In advance of the result of today's contest, The Tribune promises that it will align itself with and give its most hearty support to, the successful candidate in his efforts to make a cleaner and better, a bigger and more progressive North Platte. The future welfare of North Platte is of greater importance to The Tribune than the political ambitions of any candidate.

In order to avoid a collision with another car on north Locust street Saturday night, Charley Macomber ran his car into the silent policeman. The force of the impact overturned the car with Charley underneath, but he escaped with slight bruises. The car was somewhat damaged and the post knocked from its foundation.
