With lumber experts claiming that lumber will advance rather than decrease in price, and with but little prospects of labor becoming cheaper, the man who is deferring building a home until it costs less to build, is simply denying himself the comforts of a house he feels he needs. **COME HEAR
THE NEW EDISON**

"The Phonograph With A Soul."

Our store will be the mecca for music lovers of North Platte and neighboring communities at all times. Money or efforts will not be spared to introduce the favorite invention of the master of inventors, Thomas A. Edison.

NOT A TALKING MACHINE

The New Edison is not a "talking machine." In order clearly to distinguish the life-like Re-Creations of the New Edison from the lifeless mechanical reproductions of ordinary "talking machines," the music critics have coined a new expression, Music's Re-Creation, a new art, the secrets of which are known only to Mr. Edison and his most trusted associates.

We could tell you that more than one million music lovers and the music critics of over one thousand papers have publicly acknowledged their inability to distinguish between the voices of living artists and the New Edison's Re-Creation of them when heard side by side. Thirty Edison artists (great singers and instrumentalists) have participated in tests which have convinced these music critics that the New Edison is truly the "Phonograph with a Soul."

HEAR AND BE CONVINCED

We could write entire pages about Music's Re-Creation in an effort to convince you that no other sound-reproducing invention can possibly compare with the New Edison, but one sweet note of the voice of Anna Case singing "Depuis le jour" or one ripple of melody from the bow of Albert Spalding playing "The Meditation from Thais" would convince you as no printed words ever could.

A NEW ART — MUSIC'S RE-CREATION

We could tell you that The New Edison has a GENUINE DIAMOND stylus reproducer (no needles to change). We could tell you that Edison and Edison Re-Creations are almost unwearable and unbreakable. We could tell you many other remarkable things about the New Edison and Edison Re-Creations but the New Edison itself can tell you far better in its music-language just what we are trying to impress upon you here—that it is an instrument by means of which Thomas A. Edison has given to the world a new art—Music's Re-Creation.

You owe it to your love of music to visit our store and acquaint yourself with Music's Re-Creation.

McADOO MAKES A TALK TO NORTH PLATTE PEOPLE

Wm. G. McAdoo, ex-secretary of the treasury and ex-director general of railroads, passed east in a special car attached to the first section of train No. 6 which reached this terminal at 10:35 yesterday morning. The coming of Mr. McAdoo and that he would make a short address had been previously announced, and the depot platform was packed with the people. Introduced by District Chairman Mooney, of the Liberty Loan organization, Mr. McAdoo spoke for about ten minutes in the interest of the coming loan. He paid special stress on the fact that 70,000 American boys had made the supreme sacrifice and sleep beneath the sod in France, while 200,000 more were maimed by loss of a leg, an arm, or an eye, while still others had their health impaired for life. These were the real sacrifices that the American boys made; should we who stand at home falter when asked to buy bonds? We had shown our patriotism in past loan drives, we should be equally patriotic in the coming drive; the boys over there had helped lick the Kaiser, and made the world safe from other possible wars, should we not consider it a privilege, rather than a burden, to buy bonds? Mr. McAdoo endorsed the plan for a league of nations, through which possible wars may be averted, and strongly advised his hearers not to let politics bias their minds as to the needs of such a league.

Mr. McAdoo is a read talker, wastes no words in presenting his thoughts and it is regretted that he did not have a longer period in which to speak.

There will be special music for the Easter mass at St. Patrick's church. The choir which is under the direction of Mr. Doucet, will be assisted by a four piece orchestra.

Guarantee Repair Work.

The Buskirk Bros., who had been in the army service, and during their absence had given a lease for the Overland garage, have again assumed the ownership and management. In taking over the plant, they retain the services of Ira LeMasters as shop foreman, who is assisted by competent mechanics. Mr. LeMasters has the reputation of being an expert auto mechanic and his work in the past has fully sustained the claim that few mechanics more thoroughly understand the mechanism of all makes and models of cars. With Mr. LeMasters as foreman the Messrs. Buskirk will pay special attention to repair work on all makes of cars, and having a well equipped shop and competent mechanics, they feel confident that they can please and satisfy all who leave with them cars for repair work—in fact they are so confident of their ability that they have no hesitancy in guaranteeing all work done at their shop.

They will continue to handle the Overland cars and have now on their floor a complete line of the different models.

Mr. and Mrs. Alex Fenwick returned Wednesday from California where they have spent the last two years visiting their children.

DESCENDANTS OF PIRATES, LIVING IN SWAMPS, TRY TO CAPTURE A YOUNG GIRL

Donald Graham Saves Her From Them in New World Picture, "The Grouch," Starring Mantagu Love

Fleurette was a beautiful girl of the swamps. She was coveted by the chief of the band of desperadoes with whom she had lived and when she ran away from him and was aided in her escape by Donald Graham, more excitement came into her life than she had ever experienced before.

Fleurette and Donald Graham are the principal characters in "The Grouch," the new World Picture starring Mantagu Love, which on Saturday will be shown at the Sun theatre. Mr. Love, of course, is seen in the role of Graham. Miss Dorothy Green plays the part of Fleurette.

It is evident that the brief outline given above of the part of a story of "The Grouch," that it offers wonderful opportunities for scenic effects. All of these opportunities have been made the most of. The entire company went to North Carolina where first three reels of the story were filmed amid surroundings of wonderful natural beauty. These scenes are among the most beautiful ever thrown on a screen.

The story was written by Forest Halsey, the famous author of many novels and short stories, and it is one of the most engrossing sort of tales.

Supporting Mr. Love is an excellent cast including a large number of screen favorites.
