

## Let Your Graduation Gift Teach Thrift

Thrift is the opposite of wastefulness or extravagance. It is not stinginess, miserliness, hoarding. It is economical practice; good management. The graduation gift of gold jewelry from Clinton's teaches thrift. It is a present which will endure for years. It is a continuous reminder of good buying judgment. It is a concrete lesson in thrift.

### LOCAL RAILROAD MEN TELL A SMOOTH BOOZE STORY.

Local railroad men tell the following booze story which they vouch for as having happened a short time ago.

A car was billed from Kansas City to Cheyenne, the bill of lading reading "empty whisky barrels." When the train reached a blind siding southeast of Hastings this particular car was set out on account of a hot box. A day or two later the car was picked up, taken into Hastings, new brasses put in and the car sent on its way to Cheyenne. Upon arrival there the consignee was notified who went to the freight depot paid the freight but upon opening the car found it empty, though the seal did not seem to have been disturbed. He sought the freight agent and suggested that there must be some mistake in the car number. The bill of lading was looked up and everything found correct. This seemed to satisfy the consignee and he left without further protest. The kernel of the story is that when the car left Kansas City it contained barrels filled with whiskey; that an ex-railroad man rode the train and saw that this particular car "run hot" by methanol known to railroad men at a particular point on its journey; that while the car was lying on the blind siding the whiskey was unloaded, and the billing of the car through to Cheyenne was merely a "frame up." It was certainly a smooth piece of work on the part of the booze peddlers.

### Olson Weds in Omaha.

Elizabeth Wims, who has prepared the excellent meals at the bachelors' bungalow for a couple of years, disappeared for the last part of last week. The bungalow bunch were alarmed; could it be possible that this treasure of theirs had been abducted and carried away? It was not until Tuesday that the mystery cleared. Elizabeth had been carried away by one P. W. Olson, a prosperous farmer living six miles east of town; at least the two journeyed to Omaha, and the daily papers announced that Peter and Elizabeth had been made one by legal process and through the ministrations of a clergyman.

The bungalow bunch declare that Peter has secured a jewel, and The Tribune congratulates Elizabeth that she has secured so good a man as Peter.

### Woman Detective.

It developed this week that the Union Pacific has a woman in its employ as a detective, and it is said that she is very clever in her work. For some time past she has been devoting special attention to bootleggers boarding the trains at Cheyenne for points in Nebraska. This woman detective spent Tuesday in town and was present at the railroad hearing given Brakeman Clarence Vroman, who was arrested Saturday night for having liquor in his possession. At this hearing four company' detectives were present and they named six different dates on which Vroman had carried liquor from Cheyenne to North Platte.
