The engine power of the Chandler car, its riding ease, and its ability to stand up in service, have placed it in a preferred class through the country. The sale of this good car has been limited only by the ability to get the cars, and every large dealer in the country reports he is short of Chandler cars. The fact that the price is from \$300 to \$700 less than any of its old price mates, has made it an especially desirable buy. Better spend a day with one of these cars, and decide if you would not care to make this your next car. You are welcome to drive one of our cars and make your own tests at any time. J. V. Clerk Johnson received a letter from the officers in Omaha this morning saying the best proposition they could make to the town was to receive a guarantee of \$2,400 per year and additional charge of 5c per k. w. h. for all current used. Believe Germany Will Sign. Germany will make her decision with regard to accepting or rejecting the terms of the peace treaty well within the time limit of 15 days, allied representatives believe. Already reduced to military and naval impotence, the German nation realizes that it will face economic annihilation in case of its refusal to accept the peace.

The blockade division of the supreme economic council, acting under the direction of the "big three" is making plans for a drastic blockade which can be clamped on instantly if the German refuse to sign the treaty. The new blockade will be much more far reaching in its effect than any which has been in force previously.

Premier Clemenceau made clear yesterday that the allies will be ready to sign the pact at any time that it is brought in by the Germans, within the fifteen day limit. It is considered likely that the treaty will be signed before May 20.

## High Operating Expenses Increase Telephone Rates Telephone Revenue Must Cover Operating Expenses

Your business will fail unless you take in enough money to pay your expenses.

So will any other business.

The necessity for enough revenue in any business to pay operating expenses needs no explanation.

For several years the cost of providing telephone service has been advancing with the increasing cost of material to the telephone company and the higher living expenses of employees.

Everyone realizes the necessity of paying more for rent, for food, for clothing, for wages and for transportation.

The telephone industry has been affected by the same conditions which have produced higher prices in all of the necessities of life.

If this Company is to continue to furnish dependable telephone service to the public it must obtain such rates as will produce a revenue sufficient to cover the cost of providing the service

## DRS. STATES CHIROPRACTORS

It is easy to associate lumbago with the spine. People appreciate without argument or explanation, that the seat of the pain is in the spine.

Like other bodily ailments which are not so readily associated with pinched spinal nerves, the cause is due to nerve pressure brought about

by lack of correct alignment of the joints of the backbone. When by spinal adjustments this condition is corrected, Nature restores health. The lumbago disappears.

There is no method more simple and certain than adjustments, the thousands who have quickly found health will testify.

### TEN YEARS OF LUMBAGO CORRECTED

For ten years I had pains in my back which the doctors called lumbago. I was treated by several. They all helped me, but when I quit taking medicine, the trouble always came back.

I concluded to try a Chiropractor. After a few adjustments my trouble left, and now after twelve months of health and no return of the trouble, I think I am cured.
