**Get Thorough Cultivation  
Without Hard Work**

Do you still find that making a cultivator do the right kind of work is a tiresome, tedious job? Wouldn't you be interested in a cultivator that puts thoroughness in cultivation and takes the hard work out? That is just what the use of our John Deere KC Cultivator assures. The "K.C.'s" rigs, in shifting stay parallel. Its shovels always face squarely to their work. They never track or trail on crooked rows. No uncultivated spots nor no deep trenches are left. Over all of the field, on crooked rows, as well as on straight rows, the "KC" gives thorough cultivation—the kind that most effectively destroys weeds and conserves moisture. The rigs shift quickly in response to slight pressure on the foot levers. Guiding the rigs is as natural as walking. You can maintain thorough cultivation without delaying work to make adjustments. No wrench work is necessary. You don't have to leave the seat. Simply use the handy levers. These levers enable you to meet quickly and accurately every field condition. We want you to get into the seat of this cultivator and see for yourself how handy and reliable it is. We've never seen its equal in single-row cultivation for time-saving, labor-saving, weed-destroying work in the field. Don't fail to come in early and get acquainted with this cultivator.

You can get a "KC" furnished with the famous John Deere Method equipment—slip-point hoof shovels and sweeps.

**THOSE "NEW" LITTLE C'RLS**  
Their Grownup Ways Started Old-Fashioned Woman on a Pessimistic Train of Thought.

The Woman Who Sees had just bought a new veil and had hurried into the dressing room of the shop to adjust it, says the New York Sun. Crowds of women were edging their way to the mirrors to preen themselves. She managed to squirm into a space just vacated by a gorgeous creature in purple velvet. As she glanced into the mirror she noticed two youngsters standing beside her. They were both sweet-looking little things. "Not a day over fourteen," she murmured to herself, and then stared with wonder. The elder of the two pulled out a tiny vanity case and proceeded to powder the tip of her pert little nose. She next arranged a curl over her shoulder to its very best advantage, while her companion stood back admiringly. Then she preened her eyebrow with the tips of her fingers and smiled complacently. She was pretty and she knew it. "Are you going to the frat meeting Monday evening, Dot?" queried her companion. Dot raised an eyebrow and drawled nonchalantly, "Perhaps, dearie; it depends entirely on the mood I'm in." That was the straw that broke the camel's back. The woman gave a convulsive gasp and literally bolted. Moods! She was amused and yet it was pitiful. She is not an advocate of corporal punishment, but she would have enjoyed spanking those youngsters. What kind of women will they make? The woman is puzzled.
