

Joe Kubat and the blackboard

A pupil in an open air school wrote to the "Open Air Smiler":
"Joe Kubat got some glasses. When he put on his new glasses he saw the blackboard so plain that he thought teacher must have got a new blackboard or changed the old one somehow."

Many children are being called dull because they cannot see the blackboard plainly.

Properly fitted glasses will enable such children to keep up with their classes easily.

You can get the properly fitted glasses at Clinton's at a very reasonable price.

"The Lesson", the Constance Talmadge picture showing at the Crystal tonight and tomorrow, is no wild-eyed sensation, no sex story, nor a blood curdling melodrama; it is a real comedy of real folks. A story that could be of your sister or mine.

They thought they could beat "Little old New York" at her own game, and that's just the sort New York is always looking for. She likes to take them in hand and break them. Gaining in Weight

Health Talk No. 7 by

DRS. STATES THE CHIROPRACTORS

A young man weighing 170 pounds was injured playing foot ball.

He died nine months later weighing ninety pounds. In the meantime his body gradually assumed the twisted form of a man with curvature. Examination after death

revealed joints of the backbone so badly out of alignment as a result of his injury as practically to cause paralysis of the lung nerves.

He tried everything from life in a tent on a diet of milk and eggs to Christian Science and a Colorado sanitarium. But he died. Nothing could have restored nerve power to his lungs except adjustments to correct the alignment of spinal joints and remove the paralyzing nerve pressure.

FREE—You can find out what adjustments will do for your case without any obligation whatever. Consultations free.

Restored After Being Given Up

I suffered with throat and lung trouble for years. I took two courses of Tuberculin serum and another recommended by a Colorado specialist, but rapidly grew worse. Hope of recovery was gone. Hearing of chiropractic, I gave it a trial. Relief was soon noticeable. After eighteen months I was entirely cured. I have had no medical aid since.
