COUNCIL RECOMMENDS RETURN TO THE OLD TIME

The city council passed a resolution Tuesday evening recommending that the daylight saving time be annulled and that North Platte return to the regular or normal time. This action followed the presentation of a petition signed by about three hundred farmers who live in the trade section tributary to North Platte, and when this petition was read the council did not falter in passing the resolution.

Farmers have been a unit in expressing their disapproval of the daylight saving time, as it greatly interfered with their work, and caused them much inconvenience by the early closing of the banks and business houses in this city.

This resolution becomes effective next Monday and will be observed by the banks and business houses.

Airplane Bulletins

Arrangements will be made to bulletin the coming of the government airplane on its transcontinental trip. It is proposed to stretch a wire across or along Dewey street from which will be suspended pennants bearing the names of the prominent cities between Long Island and North Platte. Placed on this wire will be the small but perfect airplane made by L. C. McGraw, and as the big machine reaches a city the toy model on the wire will be moved along. By this method by looking up or down the street the hourly location of the big plane on its flight can be ascertained.

Howard and Warren Diener, sons of George Diener, of Jack Morrow flats, arrived home Wednesday evening from overseas service. The two brothers were with the 355th Regiment and while overseas were in the same battalion though in different companies. They were with the 89th Division in the St. Mihiel and Argonne drives.

Mrs. T. V. Austin entertained about twenty-five ladies Tuesday at her home complimentary to her sister, Mrs. Chas. Dill of Chicago, who has been visiting in the city.

John Eves returned home Wednesday evening after a year's service overseas as a mechanic in the 89th Division.

Wm. Hendy went to Omaha yesterday where he will spend several days looking after business interests.

NO ACCIDENT WEEK

The Union Pacific, along with other roads of the Central-Western region, will conduct a no accident week June 22d to 28th inclusive. As the term implies, it is hoped to pass through the week designated without a railroad accident on any road in the Central-Western region.

The Union Pacific railroad would like to impress upon all the traveling public and the people tributary to its railroad the importance of this "No-Accident Week" and request their hearty co-operation in their endeavor to make this week one of no accidents whatever.

It is very essential that the people who travel upon the trains and those who live along the lines and cross back and forth over the tracks at grade crossings should do everything in their power to assist in making this a NO-ACCIDENT WEEK and giving the Union Pacific credit for 100% in this campaign.

Judge Woodhurst was presented with a handsome leather upholstered easy chair by the Moose lodge Wednesday evening for his faithful and efficient services as secretary for six years. At the same time the rank of Past Dictatorship was conferred upon the Judge by the grand lodge.

Vets to Throttle Unions

Winnipeg, June 5.—More than 4,000 Winnipeg veterans of the great war, including scores of officers and hundreds of union men, after standing at attention in the auditorium this afternoon and singing "God Save the King," pledged themselves and their resources to maintain law and order in Winnipeg and to stamp out Bolshevism and anarchy from the forces of Winnipeg labor.

MAYOR SMITH OF OMAHA GUEST OF BUSINESS MEN

The monthly get-together banquet of the Chamber of Commerce was held last evening at the Union Pacific dining room with about seventy present. Following a splendid dinner, President Carroll briefly touched on some of the phases of the work being done, and future work planned, by the organization, and then introduced J. J. Halligan, who complimented the Chamber of Commerce for its activities and presented Mayor Ed. P. Smith, of Omaha, who had been invited to address the organization. Mayor Smith, who is a very ready and very forceful speaker, spoke on "Democratization," applying democracy to business, to the church, and to the social life. The reorganization of business and social life following the war means a closer fellowship between employer and employee, between the church and the people, the breaking down of the barrier between aristocracy and the masses; the dethronement of the Kaiserism of wealth. If this did not ensue bolshevism would flourish and the foundation of our government be undermined. Mayor Smith is not an extremist nor a socialist, but he warned his hearers of the dangers of the Kaiserism of wealth, which might prove as disastrous as did the Kaiserism of power in Europe. The facts presented by the speaker furnished food for thought for each of his auditors.

Major M. C. Harrington, of Denver, lately returned from service overseas, who is a visitor in town, was introduced, and gave a very interesting talk on the war and particularly the work of the quartermaster's department, with which he was associated. He took his hearers on the trip across the Atlantic, the landing on the English coast, the arrival at the English training camp and later the transfer to the French camps, giving many interesting sidelights on the operation of the war. He told of the accumulation of food stuffs and munitions, the billions of rations in store and issued, the rapidly with which railroads and telegraph and telephone lines were constructed, and the hundreds of miles built. He had visited the battlefields on which the major engagements were fought, among these Ypres where 350,000 soldiers lost their lives in an area eight by eighteen miles, and where, if the shells fired, were laid on top of each other would cover that entire area six feet high. Major Harrington's talk was intensely interesting, giving as he did, many facts unknown to his hearers.

Clamoring for Walk Out.

Washington, June 5.—"If the Atlanta, Ga., trouble is not settled very quickly, it is going to involve the entire United States and Canada," declared S. J. Konenkamp, international president of the Commercial Telegraphers' Union of America Thursday. "Every section of the country is clamoring now for immediate sanction of a strike and it will be impossible to keep them all at work much longer," he added.

Arranging for Airplane Flight.

Lieut. Conklin, who came here Monday to select a landing place for the government airplane in its transcontinental flight sent in his report Tuesday, recommending either the Country Club grounds or the site east of the river. The club grounds are smaller than the requirements called for, and it is probable the site east of the river will be engaged. Lieut. Conklin went to Omaha Tuesday but will be back soon and remain until the plane arrives. Quite a few details must be looked after and these Lieut. Conklin will personally look after. Guy Granger has been selected as one of two or three motor mechanics whose services may be needed while the plane remains here for seven hours. It is probable that a big crowd of people will come to town to greet the arrival of the plane. If weather conditions are good the start from Long Island may be made some time next week.

Joe Kubat and the blackboard

A pupil in an open air school wrote to the "Open Air Smile:"

"Joe Kubat got some glasses. When he put on his new glasses he saw the blackboard so plain that he thought teacher must have got a new blackboard or changed the old one somehow."

Many children are being called dull because they cannot see the blackboard plainly.

Properly fitted glasses will enable such children to keep up with their classes easily.

You can get the properly fitted glasses at Clinton's at a very reasonable price.

RAIN AND GRAIN MAKES ONE THINK OF TRUCKS

Now is the time to make arrangements to get your crops off this year. I would suggest that you come in and look over Dodge Brothers Two-ton Truck, with combination body, also hand dump attachment, if desired.

For those who want indefinite service in a heavy duty truck, would suggest the famous White Truck, which can now be delivered in the one ton, two ton, three and one-half and five ton sizes. For every day in the year service, at a minimum of expense, buy a White.
