Ford
THE UNIVERSAL CAR

There are more than 3,000,000 Ford cars in daily use in the country. This is a little better than half of all the motor cars in use in the country. There is a very potent and profitable reason in this why you should buy Ford cars for your business and for your personal use. It is a demonstrated fact that Ford cars have in every line of human desire so far as motor cars are concerned, best satisfied their owners with the service given. They must be safe; they must be comfortable; they must be always reliable; they must be convenient and they must be economical, or they wouldn't be so tremendously popular with all classes of people. The big Ford Factory has not reached normal production, but the war is over, and it is getting back as fast as possible. We are getting a few cars in right along, and we will do the best possible to give you early delivery.

Runabout, \$500; Touring Car, \$525; Coupe, \$650; Sedan, \$775; Truck Chassis, \$550. These prices are f. o. b. Detroit.

Leave your order with us, and be assured of two things: First, the earliest possible delivery; Second, an after service that has the strongest commendation and endorsement of the Ford Motor Company as being a reliable, satisfactory and economical service.

The villain said the hero was a crook. Remember how it was in the play? Everybody does, for everybody has seen 'Arizona' on the stage. What suspense! What excitement when Lieutenant Denton started to square things with the heavy. That was on a small stage in front of painted scenery. And even then it was a tremendous scene. But imagine what happens when Douglas Fairbanks is the hero and he has all the state of Arizona for the stage upon which to give the villain what's coming to him. Does the villain get his? Come to the Keith theatre Wednesday and Thursday, June 11 and 12 and see.

He was a member of the 313th Sanitary train attached to the 349th Field Hospital and was awarded the Croix de Guerre for his valor. One night when troops were being transported along a certain road which had been shelled three times before when troops were being moved over it, he observed a light which he immediately reported to the colonel. Investigation led to the discovery and capture of a German woman who had been signalling to the Huns of the allied troops movements. While making his report to the colonel the Germans again threw over a barrage and Clarence went back through this for French artillery re-inforcements.
