## MISS KELLY WILL TAKE UP WELFARE WORK

Miss Sarah Kelly has returned from Omaha where she spent six weeks taking a course of instruction in the home service section of the Red Cross, preparatory to assuming the position of secretary of that phase of Red Cross work. Miss Kelly in a few days will open an office in the federal building and devote all her time to the work, which will relate to the welfare of soldiers, sailors and marines and families of the men who have been, or are yet, in service, rendering such assistance as conditions demand. Her work will cover a wide scope, for to her will be assigned the duty of "keeping tabs" on every Lincoln county man who has been in the service. If the man is wounded efforts will be made to secure for him a position which he can fill; if he has trouble with his government insurance such will be looked after if help is needed; if the family of a man still in service needs assistance such will be given; men who are unemployed will be helped to positions; in fact the secretary's business is to do anything and everything in the line of welfare work, and Miss Kelly will be glad to have returned service men consult with her in regards to their needs. It is the intention to appoint at several points in the county assistants who will report to the secretary any needs that may arise in their communities. Later the welfare work will be extended so as to include veterans of the civil war and Spanish-American war, and eventually it will be applied to civic conditions. For this work Miss Kelly is splendidly equipped; she is a bright young woman of good judgment, is an energetic and willing worker; she was closely associated with war work as carried on by the Sammy Girls and the Red Cross, and her experience in this line has been supplemented by her course of training in welfare work in Omaha.

## Make Interest Earn Interest

Liberty bond interest which will be paid by the government on June 15 will amount to \$6,685,376.63. The government makes the suggestion that if this interest is invested in War Savings Stamps it will again earn interest. In order to make it easy to do this, post office officials all over the country have been instructed to exchange War Savings Stamps for Liberty bond coupons. The post office here reports a marked falling off in the purchase of War Savings Stamps since the signing of the armistice, indicating that, although the government still needs money, people are less willing to lend it now that the excitement of actual warfare is past. Aside from patriotic motives, war savings stamps are a good investment, taken from a financial standpoint only.
