

Glasses overcome near sight

Near sight is most troublesome in summertime, when one is out of doors a great deal. Properly fitted glasses are a great benefit. They improve the vision and enable you to get a great deal more enjoyment from being out of doors, and end the strain that is injurious to vision. Our optometrist is expert in fitting glasses to correct near sight. The work is done with the greatest skill and care and your satisfaction is guaranteed.

Rev. T. A. Lindenmeyer spent the week end here with his family while enroute back to New York. Rev. Lindenmeyer is in service as a V. M. C. A. worker and just at present is accompanying troops from New York to the camps where they receive their discharge.

The figures for the school census have just been turned in by Fred Elliott, the attendance officer for the board of education. The total number of boys and girls between the ages of 5 and 21 on June 1 was 2184. There were 1148 boys and 1036 girls. The total is 201 more than the total one year ago, and is the biggest gain made for years.

With the temperature above ninety each day this week, it can truthfully be said that we are having real summer weather. If about 200 of the 1500 fellows who owe us a dollar or two each would liquidate we might be in position to escape about two weeks of hot weather by fleeing to the pine clad hills of southern Wyoming and try our luck at trout fishing.

If every nerve in the body was delivering 100 per cent of its power the health would be 100 per cent vigorous. Only foolish excesses could make it otherwise. Get your backbone in order, free the nerves of pressure caused by misaligned spinal joints, and you will find nature keeps you healthy. Call on Dr. States today for a consultation. No charge.

Miss Dorothy Hubbard has been elected to teach the first room of the Jefferson school for the coming year. She is a graduate of the local high school and the advanced course of the Kearney State Normal. During the past two years she has been teaching the primary room of the Alma school and was re-elected for the coming year but did not accept as she preferred to take the place offered her here.

Vernon Askins, of Lincoln, a brother of Mrs. E. S. Carlton, of this city, and Miss Maude B. Toile, of Bridgeport, were married Tuesday morning at the Carlton home. Rev. Mackintosh officiating. The couple left the same day for Bayard, where they will make their home. The bride has been teaching school in Morrill county and the groom lately returned from service overseas.

B. OF L. F. AND E. VOTE FOR NEW LABOR PARTY

Denver, Colo., July 9.—A resolution to co-operate with the three other railroad brotherhoods for the creation of a national labor party was adopted at Wednesday's session of the annual convention of the Brotherhood of Locomotive Firemen and Engineers.

The resolution was included in the report of the protective committee, which was adopted. Action was taken in executive session and the announcement given out simply said the resolution was adopted after "some discussion."

A rider to the resolution for the establishment of a "daily press" to aid the new party also was adopted. Leaders said this might include the establishment of four or five newspapers in the larger cities to act as publicity organs for the new party.

Return from Auto Trip—Wm. E. Shuman and daughter Dorothy have just returned from a 750-mile trip by auto, all within the state. They drove to Kearney, Hastings, Lincoln and Omaha and returned over the Lincoln Highway. Mrs. Louise Furke accompanied them as far as Omaha and then went east to visit friends at Ft. Wayne, Ind. While in Lincoln Mr. Shuman argued a case before the federal court. Mr. Shuman says the people of the east part of the state are very enthusiastic over the question of good roads and street paving is being laid in many towns and cities, including such small towns as Shelton and Crete; also that different paved highways are being built adjoining cities of the east part of the state, including a paved highway extending from Lincoln to Beatrice.

Now Prepared for Them.—The frequency of house breakings during the past week has resulted in house occupants arming themselves and just at this time fifty per cent or more of our householders have within reach a shotgun or revolver. One hardware dealer said Tuesday that he had sold every cartridge he had in the house to citizens who announced that they proposed to be ready for early morning callers. If the burglar or burglars keep up their work there is pretty certain to be a killing, for the average man will shoot to hit and not to scare.

Divine Services at Episcopal Church—Holy communion 7:30 a. m. Morning prayer and sermon 11 a. m. Sunday school 9:45 a. m. Sunday school north side 3 p. m.

Robinson Circus Coming.—Al Butler, advance man for the Yankee Robinson circus, was in town Tuesday making arrangements for that show to exhibit in North Platte Tuesday, July 29th. This circus showed in North Platte last year and was pronounced very good.

Base Ball Sunday.—The Ogalalla ball team, which has been winning all games this season, will play the North Platte team at the city park next Sunday afternoon at 3:30. The local team has been somewhat strengthened and attired in their new uniforms promise to perform better than in the last game.

Notice to Property Owners and Tenants.—All outside closets in sewer districts must be connected with the sewer on or before September 1st. All householders in the city must maintain garbage cans which will be emptied at stated times by the city garbage collector.

Failure to comply with this notice subjects the owner or tenant to arrest and fine. D. N. VALERIUS, 52-2 Sanitary Inspector.

Teachers' Special Examination.—There will be a special teachers' examination for renewing the certificates under the old law Friday, July 18th at North Platte. Only the five essentials and life subjects will be given. AILEEN GANTT COCHRAN, County Supt.

WANTED.—To hire by the Community Welfare organization, a competent director who can give his entire time directing the swimming and overseeing the grounds at the swimming pool. Make your application in person to F. R. ELLIOTT, At The Hub

Scientific Eye Testing.—Our modern equipment and skillful examinations in every detail, assures our patrons glasses especially adapted to their individual vision. H. DIXON & SON. We Grind our Own Lenses.

Notice to Suburban Water Users.—All water users on the Suburban Irrigation Ditch must keep their laterals clean if they expect to get good results from the water. The president of the board will not stand for any waste of water. 52-4

NOTICE TO THE PUBLIC.—We, the undersigned dentists of North Platte, will close our offices every Thursday afternoon until October 1st, 1919. Signed:

H. C. BROCK, A. L. LANE, D. E. MORRILL, L. J. KRAUSE, H. E. MITCHELL, O. H. CRESSLER, W. F. CROOK.

T. F. Healey, state hall adjuster for Lincoln county, has more calls for loss adjustments than he can look after and has asked that an additional adjuster be provided. In adjusting these losses, which are scattered all over the county, he travels such long distances that much time is consumed in making the trips. He started out yesterday with a list of thirty losses, all of which occurred in the hall storm of July 5th.

The New Hotel Palace and Cafe

Is now Open for the Accommodation of the Public.

While a few of our fixtures are still lacking we are able to take care of the public both as to rooms and dining room and lunch counter service. All rooms are equipped with running hot and cold water and a number of the rooms have private baths attached. All rooms are neatly and attractively furnished, thus giving to our patrons the maximum of comfort. In our dining room and at the lunch counter the best the market affords is served, and throughout our service is second to none.

Upon the arrival and installation of the delayed fixtures we will have a public opening and will be pleased to show the public one of the best appointed hotels and cafes in the state.

GRATEFUL FOR ONE THING

Soldier Might Have Seen Good in Other Changes, but Not in That Last Greeting.

The man who had volunteered his life for his country came back from the western front. His experience had completely changed him. He carried within the sense of an entirely new world.

He went to Washington. He heard the speech of a senator. He saw the lobbyists consorting together. He wanted something, and he waited for it in vain.

"It is the same old crowd," he said. He met the girl he loved—with another fellow. She told him that she still loved him and that the only reason she was with the other fellow was because she was longsome for him.

"It's the same old girl," he said. He traveled on a railroad. The guard was surly. The train was late. The food was poor. The rate was nearly double.

"It's the same old transportation—only worse," he said.

He reached his home town. He was met by a delegation and a band. Within two weeks four of his neighbors had gotten the best of him, another borrowed half his pay, and at the end of a month when he walked down Main street no one knew him because he was broke.

He went back home. There was a woman waiting for him on the doorstep.

"My baby hero!" she said. And putting his arms around her, he replied:

"Same old mother—thank God!"—Thomas L. Masson in New York Evening Post.

GOT THE WRONG IMPRESSION

Grandfather Was Convinced His Pet Had Joined the Church, and Rejoiced Accordingly.

She is a newspaper woman and her grandfather formerly was a local preacher of circuit fame. He is very much interested in her religious state and worries because she does not attend church every Sunday night.

The other evening she went to a church to write a story about the new organ, the purchase of which had been made possible by her stories in the paper. So she took grandfather with her, knowing that while he could not hear much of the services, still he would enjoy being in the church.

At the close of the sermon came a surprise for the newspaper woman. The minister announced: "Miss S., who wrote the stories which brought the money for our organ, is with us tonight and I would like for her to come in front so that all of us may see her and shake her hand."

Grandfather saw his grandchild advance to the front of the church and also saw the people begin shaking her hand. He had not heard a word the minister had said, but still he had the memory of camp meeting days to inform him of what was happening. They convinced him that his granddaughter had joined the church and with handshaking the people were welcoming her into the fold. So he did his part. He rose to his feet and began shouting at the top of his voice.

—Indianapolis News.

Power From Ocean Tides.

So far such little power as has been abstracted from ocean tides has been insignificant. The rise and fall of the tides is not very great, even though it does amount to 70 feet in some places, and hence if any considerable power is to be obtained basins of large area must be used.

By damming the bay at Mont St. Michel in France, where the tide rises about 45 feet, it is estimated that enough power may be obtained to operate a half of the industries of France. A French engineer with vast powers of imagination has conceived the idea of building dikes across the channel and across the Thames estuary to form two large tidal basins which may be used alternately to furnish a continuous supply of power.
