Visitors Play Pool Ball.

North Platte people, from reports received, were led to believe that Grand Island had a fast ball team, but these reports were greatly exaggerated, as proven by the game that team played in this city Sunday afternoon. Their playing compared with the weakest teams of Lincoln county villages, and the game afforded but little interest to the spectators. North Platte won by a score of fourteen to three, and the locals might have doubled the score with a little more exertion. The game was certainly disappointing to all the assembled fans.

Extends Thanks.

The party of North Platte people who returned from Estes Park Sunday report a very enjoyable time. One party of fourteen rented a big cottage which housed them all, and though the rent per week was rather expensive it was not so when divided among the fourteen; in fact these fourteen spent two weeks at the park at an outlay of less than \$300, including the cost on the road.

ADMIRATION NOT CALLED FOR

Aviator Would Very Willingly Have Foregone Gushing Tribute Paid Him by Fair Admirer.

The hardest part of flying is landing, and it is in landing that most would-be aviators come to grief. An experienced pilot who makes a bad landing and goes bouncing across a field is disgraced and usually feels the humiliation to the utmost.

Early in the war a "ladies' day" was held at an airrome in England. Among the guests who thronged the field were many ladies in gala attire. Late in the afternoon a pilot who was a captain gave an exhibition performance. He left the ground in perfect style, did a succession of vertical turns and a few "acrobatics," then shut off his motor to land and receive the applause that he knew was awaiting him from the fair sex.

As the machine neared the ground the captain misjudged his distance, with the result that he hit the ground hard, made a series of high jumps all the way across the field, and came at last to rest just in time to avoid crashing into a fence. He turned his machine, "taxied" to the hangar and somewhat sheepishly rejoined the guests. His fellow pilots were having a hard time to restrain themselves from laughter, and just as it appeared that they had succeeded a very fat, gushing sort of woman approached the captain and said in accents loud and clear:

"My dear captain, on behalf of the ladies present I wish to thank you for the wonderful exhibition of flying you have given us. It was truly marvelous. It was positively a beautiful thing to see; and that landing of yours—it was superb! Just like a dear little bird—hop, hop, hop, hop!"—Youth's Companion.

About the Weather.

In Fairfax county, near the old home of George Washington, a woodcutter without friends died the other day. At the funeral services there was no one to make an address. Volunteers were asked for, and when, after a few minutes, no one responded, a newcomer, who hailed from the Pacific coast, rose and said:

"Well, if nobody else has anything to say, I'd like to drop a few remarks on the remarkable health-giving properties of California weather."

Not a Handicap.

The Americans were not handicapped on the western front by their slight knowledge of the French language. As a matter of fact it was definitely proved—to the German discomfort—that the American soldiers could shoot in any old language.—London Tit-Bits.
