THE BARGAIN

---AND IT'S WELL WORTH
YOUR WHILE!

Through special arrangements with the manufacturers, and during this Bargain Week only, a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This ware is good ware (not cheap ware)—it's worth a lot to you. Come and see for yourself.

And Remember---

The price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come, if ever, but there may be an increase soon.

THE NEW AND IMPORTANT FEATURES

The Wonderful Unseen Riveting

Yes, it's rivet-tight, just like the old Majestic, but the rivets cl'ach inside of nicked parts, leaving nickel smooth as glass, and there are no big, bulky bolt-heads on the inside. And, remember, rivets hold tight; bolts with only one or two threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's a striking beauty—more than skin deep.

If you haven't a MAJESTIC, avail yourself of this opportunity to get acquainted with this wonderful range known the inside of ranges.

Great Majestic Range BARGAIN WEEK

SPECIAL DEMONSTRATION AND
BARGAIN SALE OF

Majestic Ranges

At Our Store----One Week Only

August 11th to 16th.

To Be Truly Economical There Should Be A
Majestic in Your Kitchen

Economy is not merely spending the least money—buying a range at too low a price is false economy. The first cost is not the only cost—the little additional first cost of a Majestic is nothing compared with its economy of fuel, durability and satisfactory service.

Nearly a million Majestic Ranges, now economically, scientifically and satisfactorily serving millions of people, civilians and soldiers, is proof positive of their superiority over all others.

There is only one best. The public has judged. The Majestic is recognized as the standard of all ranges. The construction, material, workmanship and beauty of this wonderful range is unequalled, and it embodies important features possessed by no other range.

Your Opportunity is Here--

At our store—during our Majestic Bargain Week. It's your chance to get acquainted with real facts about ranges. We assure you it will be worth your while to investigate.

Oh, Joy! Top Needs No Blacking

A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt and worry of trying to keep the range looking nice—just an occasional thin coat of paraffin retains its beautiful velvet blue color.
