

Men's belts with good-looking buckles

Better appearance is one reason why belts are worn in summer time. As the buckle is the most conspicuous part of the belt, logically, then, it should be very good looking. We show belts in the fashionable leathers and styles—all sizes—with handsome silver buckles, and are equipped to do the finest workmanship in engraving initials or monograms. Pierced monogram buckles are made to order.

Letter From W. E. Shuman. San Diego, Cal., Aug. 22, 1919. Editor Tribune:—I wish that every one who signed the paving remonstrances could see the hundreds and even thousands of miles of paving in Washington, Oregon and California—villages the size of Sutherland with far more paving than North Platte has, and cities of our size with as many miles of pavement as we have blocks, and pavement running for miles through desert land that produces nothing, while we do not even pave to the state farm when the state will pay half the expense. They are even building a paved road from Canada to Old Mexico on the Pacific coast and already have completed a great portion of it—a highway more than 1500 miles long, and yet we could not pave the great Lincoln Highway through our city.

But even North Platte will have to wake up. We have to set the alarm on our Big Ben for repeat on all public improvement questions. We had to have two elections to get a new court house, when it would have been far cheaper to have built it right after the first election, and we then would have saved the expense of one of the elections (some \$3,000) and all the labor and effort the extra election caused.

But North Platte will wake up some day on the paving question and take our customary "two jumps" at it and finally pave not only Fourth street, but many of the residence streets of the city.

Very truly,
WM. E. SHUMAN.

To the Sick and Suffering of North Platte:—

If there is a disease in your body, or physical weakness that you have constantly to nurse, it is there with your permission.

The experience of patients with chiropractic is proving this assertion every day, not only in our office, but in the office of every chiropractor everywhere.

I would like to repeat that statement and emphasize it.

Suppose now that you call at our office and explain your trouble, what you have done for it, and of how long standing it is, and then let us have a word about what chiropractic can do for you individually.

What if you have tried every other known method. It makes no difference. My confidence is based on the fact that chiropractic is RIGHT.

Remember that if you continue weak and diseased, that you are responsible. You have given permission.

NO CHARGE. There is no charge for consultation nor any obligation. Call for a talk about your case and free literature on chiropractic.

Yours for health,

We have just returned from eastern markets, and quite to our surprise, we found HATS were not prohibitive to anyone on account of high prices. But we can say we found the most exquisite things to be had that has ever been our privilege to offer to our patrons.

Georgious colors, beautiful materials and stunning shapes are certain to charm the most fastidious buyers.

An expert designer from Kansas City, together with our efficient trimmers, are placing new and clever models in our salon every day.

We are aiming higher than ever this season to excel both in workmanship and clever designing anything we have ever offered you before.

We wish to thank our patrons for their liberal patronage of past seasons, which has placed us the heaviest buyers west of Omaha. The favors we can command through this we are glad to share with our customers.

We extend an invitation for your early call.

Yours for Business,
McVicker Millinery.
