**FASHIONS IN FILMS IS LATEST NOVELTY**

"That Well Dressed Look" is Photoplay Introducing Latest Styles.

**OF INTEREST TO WOMEN**

A motion picture of particular interest to the women in this city will be shown here within a short time. It is the first motion picture film devoted exclusively to the exploitation of fashions, and it is to be shown here through the courtesy of the Wooltex studios, for whom it was produced by Universal, under the personal supervision of Harry Levy general manager of the educational department.

The latest creations—and, in fact, creations yet to be placed on sale in the New York shops—will be shown draped upon the prettiest and cleverest models it was possible to obtain. These young women were selected as types for the display of the particular garments they wear. The result of this, and of the painstaking direction given the production, has resulted in one of the most beautiful as well as entertaining photoplays yet released, with an educational theme.

Lavish settings, choice garments, all of which are those which dictates of Fashion have pointed out as the correct thing for the Fall and Winter

seasons, and superb photography make this production stand alone in its own field. Its object is described in its title, which is "That Well Dressed Look."

This film is the second edition of a similar play which was released in the early spring. This first edition was made the object of a nationwide campaign, which was so successful that the second edition was planned. In many cities exhibitions were staged in conjunction with the film, in which live models took part, and which were the objects of much comment by both public and press. Several joint exhibitions of this type have been arranged.

It was with a desire to present to the stylish women of America a forecast of what the coming seasons were to bring that this photoplay was conceived. Men and women in close touch with the fashion world, whose representatives are continually visiting the style centers of the world, and who are in close touch with all gatherings of creators of fashions, were called upon to assist in the preparation of "That Well Dressed Look," so that when it is introduced in the theatre of the nation it will lack nothing in the way of originality and preciseness.

Providing clothing for the stylish woman is no small job, and in filming garments which are criterions in their own fields, the utmost care must be exercised to exploit only those styles which are typical of the times, and which have met with popular favor with the leaders in this field. Pains were taken that only garments meeting these requirements were used in this production.

These facts, coupled with the detail of almost perfect direction and the use of the most clever models to be found, warrant the merit of this production. In the eyes of the women of America, at least, there is no doubt but that this second edition of fashions will meet with favor. Clothes are interesting to all women and most men. The story woven into this little playlet will find a responsive thrill in the heart of any audience, no matter where assembled.

"That Well Dressed Look" second edition, is now being booked in all of the important theatres of the country.

Will be shown at The Sun, Matinee and Evening, TUESDAY, SEPT. 16th.

Everybody works but father—remember that old tune? That was Charlie too—Believed in giving Mrs. Reilly her rights. And, oh, how that woman could wash. It was all right till the kids held a circus in Reilly's back yard amidst his wife's clean wash. And then—well, we really can't tell you what happened. You'll have to come to the Keith tonight and see.

As will be noticed by the proceedings the county commissioners have expended a couple of thousand dollars recently in road making machinery with which to improve the country roads. The commissioners are doing all they can, or so far as the funds will permit, in improving roads, but they don't receive much credit from the people for the work they do have performed. The longer we live the more we are convinced that the position of county commissioner is a thankless one.
