**Don't Plant Poor Seed**

The Wheat raised in this locality this year is poor seed. It is weak and has run down in general quality.

Good seed will cost thirty or forty cents per acre over the wheat you have. It will make you at least four to eight dollars an acre more than the poor seed.

Let us pull together for the improvement in the wheat crop around North Platte.

We will supply you with good seed at \$2.25 per bushel.

**WHEN THE SPANISH "FLU" ATTACKS YOU. DR. STATES THE CHIROPRACTORS**  
 When this infection attacks you it may not even make you sick, it may give you a cold and fever and then subside, or it may result in intense illness resulting in extreme suffering and death.  
 There is only one thing to do, and that is to restore bodily resistance to normal by invigoration of the kidneys, bowels and lungs. Get into bed, cover up warm and open the windows.  
 There is no more common sense and certain method of invigorating and restoring bodily resistance than chiropractic adjustments. Adjustments release the full power of the nerves for the fight against the disease. Nature restores health as a matter of course. Do all that common sense tells you to do, and then add adjustments.
