

VICTIM OF ST VITUS DANCE IS NOW WELL

DRS. STATES THE CHIROPRACTORS

This young woman had St. Vitus Dance or Chorea, suffering all the tortures of this disease of ceaseless activity. The condition came on shortly after typhoid inoculation. Control of the muscles of the body became bad and then worse. The only means of relief was oplate.

She heard of chiropractic. She had tried everything else, and felt one thing more wouldn't count for much, and might do some good.

When nature stood man upright she made the backbone subject to strains that animals do not suffer. When the joints of that flexible column become displaced, they interfere with and pinch the big cable nerves that leave the spine to enter the body at a point between joints.

In the case of No. 176 the pressure was so bad that bodily control was lost in nervous irritation. Spinal adjustments relieved the pressure by restoring the displaced joints to the normal position. Health naturally followed. The St. Vitus Dance is gone.

"A Tailor-Made Man" will be the attraction at the Keith theatre this evening. It comes to us very highly recommended as the funniest comedy of recent years. There are twenty-eight in the cast, and the play is splendidly staged.

The Gothenburg Harvest Festival opened yesterday and will be continued today. This evening there will be a barbecue at which will be served 1500 gallons of soup, two 1000-pound steers, 12,000 buns, 10,000 dill pickles, 1500 gallons of coffee, 1000 pounds of wienies and other good things in proportion.

Serge dresses give an unusual amount of service. The largest stock in North Platte is at Wilcox Department Store.

In Tuesday's issue of The Tribune T. C. Patterson advertised two houses for sale. Two hours after the paper had been issued he sold one of the houses to Dan Valerius and within twenty-four hours had received more than twenty inquiries about the houses. This demonstrates two things; one that houses are in demand, the other that the people read The Tribune.

Cottage for Sale. Six room frame cottage, modern except heat, two blocks from the post-office, at a bargain and on easy terms. T. C. Patterson, B. & L. Building.

Starts on U. P. Tonight

At one minute past twelve o'clock tonight 325,000 railroad employees in the Central Western region—of which those on the Union Pacific are a part—will resolve to go fourteen days without sustaining a personal injury to themselves or being the cause of injury to another.

This "no accident" drive of two weeks duration has been staged by the national railroad safety first committee, and through the 2,000 local safety first committees, made up of approximately 23,000 committeemen, each individual railroad employe has been asked to use extra precautions to prevent accidents not only to himself, but to others, and to correct as far as he can hazardous conditions.

Foot Ball Today.

The Kearney high school and the local high school foot ball teams will battle for supremacy at the east end park this afternoon commencing at 3:30. The Kearney team comes flushed with the courage following victory by high scores in two games; the locals are encouraged by the overwhelming defeat of Lexington last Friday. Kearney seeks the state championship; North Platte hopes to be the wreckers of Kearney's hopes. In all events it promises to be a battle royal.

No Arrivals Wednesday.

Wednesday was the first day since Thursday of last week—except Sunday—that no airships arrived at this control station. The non-arrivals were due to the rain and other unfavorable conditions. Eleven planes were held at St. Paul all day Wednesday waiting for fair weather, and these came through in a flock yesterday, stopping only the required thirty minutes at this station.

Save 20 to 40 per cent on your winter coat or suit and select one now from the big spot cash purchase of the leading New York makers. All their sample room models, some over 300 garments in all to select from at The Leader Mercantile Co's.

3 Million Dollars but-- It Bought MUSIC

No finer example of courage is known to the world of science than Thomas A. Edison's work in perfecting the phonograph. The skeptics rose in full chorus when he proposed a better phonograph—an instrument "that could produce music as human as the artists who first gave it utterance."

Mr. Edison's experiments exhausted the entire field of research in sound reproduction. He built and rebuilt until his final, perfected model cost him Three Million Dollars. AND THE RESULT?

And the result?

Ask some one who attended the Odette Le Fontenay recital Friday evening. There was public proof. Mme. Le Fontenay sang in comparison with the RE-CREATION of her voice by the New Edison. And no one could distinguish the living voice from its RE-CREATION.

The NEW EDISON

"The Phonograph with a Soul"

If you love music, you will agree with Friday's enthusiastic audience:—The New Edison represents Three Million Dollars well spent.

The soul of song is cheap at any price. Yet it is now brought within reach of your pocketbook. The instrument used in Friday's conclusive test is a duplicate of Mr. Edison's Three Million Dollar Model. It sells for \$285 (in Canada, \$431).
