

Local coal dealers attempted to prevent a possible shortage of coal this winter by advising householders to stock up last June and July. Few, however, took the advice, and now, with indications favorable for a country-wide strike of coal miners, everybody is keen to lay in a winter's stock when the available supply is mighty short, and their orders cannot be filled. Yesterday one dealer said that his supply had become exhausted and he was turning down orders. Other dealers report very meagre stocks on hand, and that coal cannot be secured in the quantity desired.

Indicted for Omaha Riot.

The special grand jury which has been investigating the lynching of Will Brown, the burning of the court house and the attempted hanging of Mayor Ed Smith in Omaha on September 23, Wednesday afternoon reported indictments against eight men, charging them with crimes ranging from carrying concealed weapons, unlawful assembly, to arson and first degree murder. The grand jury discharged seven men because of insufficient evidence. Sixty-five others are held incommunicado.

James Shields and Harry Jenkins were indicted on three counts, breaking and entering, firing the court house and placing the rope around the negro's neck; William Francis, high school boy, friend of the girl whom Brown was charged with assaulting who led the mob on horseback and directed their operations, was charged with unlawful assembly.

None of the men charged with the attack on Mayor Smith have been indicted.

Slip over sweaters for ladies and misses in all the new colors. E. T. Tramp & Sons.

Up Goes Sugar.

Efforts of the senate agricultural committee to bring about an agreement and understanding between sugar growers and refineries apparently will fail. Senator Ransdell, of Louisiana, says that the growers stated that because of continued rains they would raise far below a normal crop and that the price of sugar would have to be raised at least fifty per cent if the growers could be expected to make any profit on their crop. It was stated that there was little possibility of a lower sugar price for some time.

FARM LOANS.

Plenty of six per cent money, annual interest and optional payments.

ORDINANCE NO. 109.

Ordinance Designating and Naming of "Memorial Park" of the City of North Platte, Lincoln County, Nebraska.

Be it ordained by the Mayor and Council of the City of North Platte, Nebraska:

Section 1. That the original city park of the city of North Platte, Nebraska, comprising the following described lands to-wit: Blocks 4, 5, 6 and 7, together with the interior streets and alleys contained herein, in Riverside addition, to said city, shall be hereafter known as "Memorial Park," said name having been given thereto in memory of the boys from North Platte, and Lincoln County, who have given their lives in the war with the Imperial Governments of Germany and Austria Hungary.

Section 2. This ordinance shall take effect and be in force from and after its passage according to law.

Passed and approved, this 7th day of October, 1919.
Attest:—
T. M. COHAGEN,
Acting Mayor.
O. E. ELDER,
City Clerk (SEAL)

For the Consideration of Conservative Investors. The Square Turn Tractor Company,

**CAPITAL \$2,000,000,
Offers a Limited Amount of Their Capital Stock.**

THE SQUARE TURN FARM TRACTOR

A Nebraska product, conceived and perfected by Nebraska inventors, manufactured in a Nebraska factory with Nebraska capital behind it, officered and directed by Nebraska's ablest business men.

The Tractor.

Which has received the highest praise and acclaim by all who have seen it demonstrated—pronounced by mechanics and farmers alike to be the ultimate farm power,—a tractor for big and little farms,—the tractor which has led the entire field in all the National tractor shows all over the country. The tractor that plows its four furrows, turns in its own tracks and starts back while other tractors are turning,—the tractor which has the following exclusive features which place it in a class by itself, far ahead of them all, and whose features are protected from imitation by eight broad patents.

1. **SQUARE TURN.** The Square Turn Tractor uses a new patented transmission known as the "Giant Grip Drive." This device does away entirely with costly transmission and differential gear renewals, takes the place of the clutch and makes the Square Turn Tractor the tractor with the least number of working parts,—it also makes it possible to turn the tractor in its own length,—on less ground and in less time than you can turn a two horse team.

2. **TWO WAY.** This patented transmission also enables the operator to drive his tractor in either direction at the same speed and power, making it the only two way tractor on the market.

3. **UNDERSLUNG PLOWS.** The Square Turn Tractor is the only tractor that carries its plows where they ought to be,—ahead and below the driver, in plain view from the driving seat. This enables the tractor to plow closer to the fence than a team.

4. **ONE MAN TRACTOR.** The plows being in plain sight of the operator, makes this the only one-man tractor on the market.

5. **POWER HOIST.** Plows are raised or lowered for cleaning, or for turning, by a power hoist driven from the main shaft of the engine, and can be operated by the driver at a pressure of his foot on the hoist pedal while the tractor is traveling either forward or backward or standing still. Automatic cut-off stops plows when they have been raised to the desired height.

The tractor has other exclusive features which we have no room to enumerate.

The Factory

of the Square Turn Tractor Co. is located at Norfolk, Neb., in the city limits, where the Co. owns a site of 18 acres, on side track of the C. & N. W. Railway. We have in operation one complete factory unit housed in a substantial brick building 200x100 feet, fully equipped. We are just completing another unit 260x100 feet, and have under course of erection a third building 200x45 feet. The factory, being at Norfolk, is situated in almost the exact center of the tractor using district of the United States, and saves over \$100.00 in freight alone on every tractor we build.

The Demand

For farm tractors is ably attested to by the fact that this company has already received orders for ten times its yearly output, and that the combined tractor factories of the country were to supply only about one-fourth of the demand for tractors in this country alone. In addition to this we have received thousands of inquiries from all over the world,—Mexico, South America, and even the European countries are clamoring for Square Turn Tractors. In the United States alone there are over three and a half million farms where tractors will ultimately be used,—and more than two million of these farmers are already considering the purchase of a tractor.

Our Output

with our present factory unit is three tractors per day. This output will pay a profit of over 50 per cent on the entire \$700,000 in stock issued to date. With our new buildings, more equipment, we will increase production and materially add to the earnings of the stockholders.

The Company

The Square Turn Tractor Company is a Nebraska corporation, organized for the purpose of manufacturing Square Turn Farm Tractors to fill a world-wide demand. Capital \$2,000,000—all common stock, non-assessable.

Directors

C. E. BURNHAM, vice-president and director, president of the Norfolk National Bank of Norfolk, Neb., also director of the Federal Reserve Bank of Kansas City District, member of the discount committee and prominent in business as well as financial circles.

JOSEPH HAYDEN, director, owner and manager of one of the largest department stores in Omaha, active in business and financial circles and well known throughout Nebraska. Founder and director of the Corn Exchange Bank of Omaha.

JUDGE WM. M. REDICK, judge of the probate court, a man of large means and business connections, prominent in many commercial enterprises.

W. S. JARDINE, director, organizer and interested in Merchant's Express Company and other Omaha industrial enterprises.

W. B. T. BELT, vice-president and general manager Nebraska Bell Telephone Company.

G. W. HOLDREGE, Omaha, manager Burlington Railroad.

J. VAN RENSSLAER, chief of freight forwarding department Union Pacific Railroad.

RALPH KITCHEN, proprietor of the Paxton Hotel, and a man of large and varied interests, particularly in land. Recently bought the farm of Ex-governor Neville.

J. A. MONROE, Vice-president Union Pacific Railroad. In addition to the above our list of stockholders includes many other prominent Nebraska business men, bankers, farmers and professional men. Isn't the judgment of such men as these enough to recommend this investment to you.

All Common Stock

Thus you are getting in on the ground floor, in the original stock of the company and will get an equal division of the profits—your dollars go just as far as anyone's else—will earn the same profits. There never has and never will be any promotion stock issued, every man in the company has paid dollar for dollar for his stock, the same as you. It is the original investors in an enterprise who reap the big profits.

The tractor business is today where the automobile business was ten years ago. It is in its infancy and the big profits are yet to be made in it. The Square Turn Tractor has even greater possibilities than the automobile investment had ten years ago, because of the exclusive, patented features of the Square Turn which cannot be duplicated in any other tractor. You were probably offered a chance to get in on some of the following companies and if you had they would have paid you, on an investment of \$1,000 in Chalmers Motor Company for 8 years—\$86,658
\$1,000 in Chandler Motor Car Co. for 3 years—35,000
\$1,000 in Ford Motor Co. of Canada for 11 years—424,878
\$1,000 in Hupp Motor Co. for 9 years—191,200
\$1,000 in Reo Motor Company for 11 years—56,462
And many others did as well. We want to repeat—Square Turn Tractor has even greater possibilities—THE NEXT GREAT BUILDER OF FORTUNES IS HERE.

The elements necessary for large returns from industrial securities are here provided in liberal measure—A product of unusual merit—a demand far in excess of all present sources of supply—a large profit margin—and efficient, experienced business management.

Investigate This Stock now—Today—Don't Be in the Class Who Say "If I Had Only Invested" When it is Too Late. This stock will not stay at its present price long. The officers of the Company invite you to join hands with them in making it possible for this enterprise to become one of the foremost and most powerful industries of the country. If You Want a Part Ownership in This Next Great Builder of Fortunes Act Now. You can invest in any amount that is convenient for you at the present price of \$10.00 per share.
