

# Make Somebody's Christmas A Lasting One

Give the sort of present that makes the joy of Christmas a lasting one.

With the gifts on the tree, hang a KRYPTOK Christmas Gift Certificate.

**KRYPTOK**  
GLASSES  
THE INVISIBLE BIFOCALS

KRYPTOKS (pronounced Crip-tokks) have the appearance of single-vision glasses. There is no ugly line or seam showing like that in old-style bifocals.

Yet KRYPTOKS have two separate visions—near and far. KRYPTOKS end the need of two pairs of glasses, and can be worn all the time for all requirements of near and far vision.

Our KRYPTOK Christmas Certificate makes it easy to give a present that is worth while. Come in and let us tell you the particulars.

## DIXON & SON.

EYE SPECIALISTS.

**War Veteran Dies Suddenly.**

Wesley Smith, aged seventy-six, a veteran of the civil war, was found dead in his room on Front street at 8:30 Sunday morning. The deceased, who was an uncle of Mrs. Ida Lemon, came here from Minneapolis four years ago, and during that time has been employed at the Lemon restaurant. Last Friday he had acute indigestion and was taken to his room and a physician called. Saturday he had about recovered his normal condition and Mrs. Lemon spent the evening with him, leaving about nine o'clock. Parties occupying the same house heard him walking around at eleven o'clock, but the next morning when a member of the Lemon family went to the room to see him, he was found lifeless sitting in a chair with his feet in a pan of water, a hot water bag resting in his hand. The covers of the bed were thrown back, indicating that he was seeking relief through hot water applications before retiring.

**A Case of Camouflaging.**

A case of real camouflaging occurred in North Platte Saturday when a young couple arrived from a neighboring state and were united in marriage by Judge Woodhurst. The couple were very anxious that their marriage be overlooked by the newspapers because the bride is teaching school and were it known by the school officers that she had been married they would dismiss her. It is the intention of the couple to keep their marriage a secret until the close of school the latter part of next May.

**Appointed Court Reporter.**

Miss Minerva McWilliams has been appointed court reporter for the Thirtieth judicial district by Judge Grimes and enters upon her duties as such this week. Miss McWilliams was formerly stenographer for Attorney Albert Muldoon, but for a number of months past has held a clerical position with the Union Pacific.

**ALL APPLICANTS SUPPLIED WITH COAL IN SMALL QUANTITIES**

Through the local committee appointed all applicants for coal during the past week have been supplied with sufficient fuel to keep from suffering from the cold weather which has prevailed. When the surplus on hand warranted, applicants were given 1000 pounds each, but in a great majority of the cases the maximum amount has been 500 pounds. Saturday farmers were supplied with 1000 pounds each, because they live further from the source of supply and as the roads are bad trips to town require time and effort.

Since Wednesday all applicants have received coal or coke, none have been turned away. At times the quality has not been just what the applicants desired, but what they received was better than none. However, the quality turned over to the committee during the past few days has been of the best grade.

The appointment of the coal committee was a wise move, for this committee has been able to secure coal at times and in quantities that could not have been obtained by the dealers. In fact it is generally conceded, and the dealers so admit, that had we not had this committee there would be real suffering in North Platte for the want of coal.

Considerable talk has been indulged in as to the amount of coal received in the North Platte yards, and the length of time the cars are held here. It should be understood that North Platte is the diverting point for all coal coming in from the west—that it is held here subject to release by the state fuel administrator at Omaha. This coal as released is sent to the points in Nebraska designated by the fuel administrator. It is not, therefore, strange that from 300 to 500 cars of coal are in the local yards at some particular time. Practically all coal for towns along the Union Pacific east of us is diverted from the North Platte yards, and it is necessary that a surplus be held here at all times.
