"Algy fell in love with a girl at the glove counter. He bought gloves every day for a week. To discourage his attentions, she became a manicurist."
"Then he got his nails manicured every day, I suppose."
"Just so. However, I don't think he will follow her any farther."
"Why not?"
"Then she got employment with a dentist."—London Tit-Bits.

U. S. OUGHT TO LOOK AHEAD
Country Could Well Afford Hard-Surfaced System of 50,000 Miles—An Economic Asset.

It is possible to build a hard-surfaced highway system of 50,000 miles so located as to serve directly 46 per cent of all the counties of the United States and indirectly 41 per cent of all the others. For an annual expenditure of \$100,000,000—hardly \$1 a person per year—this fundamental road system could be completed in twelve and a half years, and it would serve 87 per cent of the total population of the United States.

WORK DIDN'T SHOW FOR MUCH

Lecturer's Wife May Have Had the Idea That Perhaps He Was Wasting His Time.

The steel and coal strikes were on; the reels were busy in thousands of American communities stirring up anarchy; the civilized world was literally broiling with discontent; the profiteers were piling up their guilty millions unrestrained. And Fred Warren, former editor of the Appeal to Reason at Girard, Kans., a socialist lecturer of national renown, was starting out from home with his traveling bag in hand, to fill a speaking engagement.

"Where are you going now?" inquired Mrs. Warren.

"Out to save the world," he replied.

"How long have you been engaged in saving the world?" she asked retrospectively.

"About fifteen years," was his answer.

"And now look at it!" she lamented.—Fort Scott Tribune.

"An ultimate consumer, my son, is the man who consumes anything the high prices, the war taxes and the charitable contributions for starving Europe leave enough to buy."

An Apology.
He—Excuse my cigar.
She—Oh, you may smoke, or I shouldn't have given it to you. It is one of father's, you know.
He—That's why I am apologizing.

Marital Inconsistency.
"Married couples should yield to one another's opinions to get along," said the sober-faced man.
"I dunno," responded the other. "It didn't work in our case. I told my wife I wasn't worthy of her and she declared I was. For the sake of harmony, I yielded my opinion and said I was worthy of her, and she, not to be outdone in generosity, I suppose, yielded her opinion and said I wasn't. And so we parted. No, I guess what you said isn't so, stranger."

Long Meteor Flight.
Numerous observations of the brilliant meteor seen in the early evening of October 21, 1919, show that it had the long horizontal flight of 335 miles from over a point 20 miles northeast of York, England, to 30 miles southwest of St. Valery, France. It traveled at a speed of about 33 miles a second and its average altitude was 74 miles. Its radiant point and speed agree nearly with those computed by Prof. A. S. Herschel for the meteors from the comet of 1739.—Scientific American.

Wealth in North Dakota.
According to United States government statistics the agricultural products of North Dakota have increased about \$278,000,000 since 1915, making a per capita wealth in the state of \$2,996 at the close of 1918. The United States census bureau estimates the per capita wealth of the entire Union at \$1,956, so that the average wealth in North Dakota is more than \$1,000 greater than the average for the whole Union. Including horses, cattle, hogs, sheep and creamery products, the agricultural production of the state at the close of 1918 was valued at about \$638,000,000. The same production at the close of 1915 was valued at about \$260,000,000.

"Gee-Whiz! How it Hurts—The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an over-abundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order." "Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package.

Before He Thought.
When I was going to high school my money was limited, but I managed to take my best girl to a play once or twice a week. One evening as we were about to start for the movie, my girl, not wanting to leave her mother alone, asked her to go. Before I thought I said, "Surely, Mrs., go with us; I've only got 20 cents, but I can borrow a dime uptown." Needless to say, she declined the invitation, and I felt like the 20 cents in my pocket.—Chicago Tribune.

First School Teacher Had Met Her Chum's Friend Somewhat Earlier in the Day.

These two teachers were chums. They are still chums. The first one met the second one and was out of humor about something. "Why, the most terrible thing happened today. A regular pill of a teacher visited me. She didn't even tell me that she enjoyed my work when the visit was over—just put up her head and sailed out of the room."

The second one essayed comfort and invited the first one home with her to supper. "Then we'll go to a show and forget all about that visitor," she said.

The first one accompanied her home, and there in the living room was another visitor. The second one greeted the out-of-town cousin and turned to introduce her to her friend when the friend began with a sickly smile: "Oh, you visited me this afternoon."—Indianapolis News.

LEADS TO ODD RELATIONSHIP

Hawaiian Custom of Adoption of Children Has Been the Cause of Amusing Complications.

The very odd custom of legal adoption in the Hawaiian Islands, which originated when there were many tribes often at war with one another, was intended to bring peace among them. The cause has long since disappeared, but the custom still persists. When a child is "spoken for" by some relative or friend, the little baby, as soon as it can leave its own mother, will be given to the foster mother, and will be regarded as a sacred trust. A Youth's Companion contributor tells of one woman who was the mother of eight children, seven of whom had been adopted by friends. When she was asked why she gave them away, she replied sadly, "It is a superstition, I know, but if they are 'asked for' and I refuse I fear some harm might come to them." The poor soul let them go just because she loved them so much!

The custom leads to very amusing complications. One of the native princesses now living has given her baby to her own mother. The little girl is legally adopted, and therefore has become the grandmother's daughter.

Assured Knowledge.
"How is it that woman knows so much about bringing up children?"
"She never had any."
