

"RESULTS MORE THAN CLAIMED"

By testifies Mr. J. F. ARENDT,
Box 44, Remig, Texas

PE-RU-NA
THE REMEDY FOR EVERYDAY ILLS

"I have used Pe-ru-na for years in cases of colds and catarrh. The results have been good, in fact, more than you claimed. Have also taken Lacupia and can easily say it is one of the best blood purifiers I have ever used."

Mr. J. F. Arendt

For Catarrh and Catarrhal Conditions

The evidence of one man like Mr. Arendt is more convincing proof to you of the merits of Pe-ru-na than any written words of ours. For fifty years Pe-ru-na has been the standby of the American family for diseases due to catarrhal inflammation of the mucous membranes lining the organs of the body. Thousands, like Mr. Arendt, have proved the effectiveness of Pe-ru-na for coughs, colds, nasal catarrh, stomach, bowel and liver disorders or any disease characterized by a catarrhal condition. If your suffering is the result of a catarrhal disorder try Pe-ru-na. It is a true, tried medicine.

GETS ALL BUT THE GOBBLE JUST THE THING FOR PRINCE

Showing How a Chef Who Really Knows His Business Can Dissect a Turkey.

Ever ask Charlie Baer, Claypool hotel chef, how to carve a turkey when turkey is 99 cents a pound and you want to save everything but the gobbler? Ever ask Charlie? Go at it this way:

"Charlie, I've invested my life's savings in a turkey. I want to make that bird pay."

"Oh, yes, yes," Charlie answers. "Yes, yes."

Then he grabs a turkey and a butcher knife—turkey in the left hand, knife in the right! Zippy! Off comes a leg! Zippy! Off comes the other leg! Zippy! Off comes one wing! Zippy! Off comes the other wing!

Then all you have to do is to draw the knife gently through the white meat.

"And you can make soup out of the neck and sauce out of the giblets," said Charlie.

See? That's how!

Conditions Being in Europe What They Are, Press Agent Had Decidedly Good Idea.

I assisted the other day at what may prove to be the springs and origin of the next great international marriage. The press agent for an organization which deals in philanthropy for Europe was talking:

"I want to bring Prince Dealotski over here next year," said he. "I think I can marry him to some nice American girl."

"That'll be nice," I said. "Especially for the prince."

"That's right," said the press agent, seriously. "There isn't a royal family in Europe that is open to him just now. He could not get into some of them—he ain't such a much of a prince, you know—and it would not pay him to marry into some of the others. They have no money or thrones or palaces or anything left."

"So you think it would be a good idea for him to marry into some well-to-do factory family over here?"

"Sure," said the press agent.—New York correspondence of the Kansas City Star.

PUBLIC HIGHWAYS

CLEAR SNOW FROM HIGHWAYS

Motortrucks Given Passageway for Carrying Coal and Various Other Supplies.

In an effort to keep all lines of supply open for uninterrupted traffic during the winter months, and to thus aid in minimizing the discomforts of the public, an appeal is going out to highway authorities throughout the country where snowfall is heavy, to keep the roads clear of snow.

Emphasis is placed upon the fact that the transportation of coal and other fuel is more important in winter than in summer, and that it is equally as important to keep rural

Road Cleared for Passage of Motor-trucks.

mail routes and main market roads free from snow as it is to keep railroad tracks clear.

Officials connected with highway work anticipate a prompt response to this appeal. They report a decided increase in the interest of the public on this matter of prompt removal of snow from highways, not only to meet the necessity of keeping all sources of supply and communication in effective operation, but as a means of protecting the public's investment in roads.

If there were little or no demand for traffic during snow weather, highway authorities state the cost of snow removal would be justified. Snow melting on the roadbeds tends to soften the subgrade and loosens the base under the wearing surface. Evidence of these damages may be seen after heavy snows in the late winter and early spring.

When snow is not removed on trunk highways, traffic gradually breaks its way through when thaw begins. The traffic will create one or two sets of ruts or tracks. The constant tracking in the same rut produces disastrous results to the road surface, making repairs difficult and expensive.

ACTIVITY IN HIGHWAY WORK

Up to July 1, 1919, State Bonds Aggregating \$224,800,000, Had Been Authorized.

Aside from money to be used co-operatively under the federal aid road act, aggregating nearly \$690,000,000, some states will expend large sums, and their several subdivisions will provide large additional amounts.

"It is interesting to note that up to July 1, 1919," says the secretary of agriculture in his annual report, "state bond issues aggregating \$224,800,000 had been authorized and approved by popular vote and that provision has been made for voting next year on proposals for the issuance of additional state road bonds to the extent of approximately \$314,000,000. During the present and the next fiscal year there will be made available for road improvement at least \$1,000,000,000. Certainly few laws, if any, have produced greater results, either in terms of expenditures for a good purpose or in terms of helpful legislation and machinery, than the federal aid road act. It seems clear, in the circumstances, that the principal limiting factors in the 1920 program will be those of rail transportation for, and production of, suitable road materials, the contractors' organizations available, and the labor supply."

SENTIMENT FOR BRICK SEEN

Adherents of This Type Claim Defects Are Caused by Poor Concrete Foundation.

During the last couple of years there has been a growing sentiment for construction of brick pavements on bituminous foundations. The adherents of this type claim that some of the defects of the brick pavement are caused by the defect in the concrete foundation. They claim that the bituminous base would be more resilient,

GIRLS! A MASS OF WAVY, GLEAMY BEAUTIFUL HAIR

Stock Raising in WESTERN CANADA
is as profitable as grain growing. Successes as wonderful as those from growing wheat, oats, barley, and flax have been made in raising Horses, Cattle, Sheep and Hogs. Bright, sunny climate, nutritious grasses, good water, enormous fodder crops—these spell success to the farmer and stock raiser. And remember, you can buy on easy terms **Farm Land at \$15 to \$30 An Acre**—land equal to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—grazing land convenient to good grain farms at proportionately low prices. These lands have every rural convenience; good schools, churches, roads, telephones, etc., close to live towns and good markets. If you want to get back to the farm, or to farm on a larger scale than is possible under your present conditions, investigate what Western Canada has to offer you. For illustrated literature with maps and particulars regarding reduced railway rates, location of land, etc., apply to Department of Immigration, Ottawa, Canada, or **W. V.
