YOUR CATARRH MAY LEAD TO CONSUMPTION

Dangerous to Use Treatment for Only Temporary Relief.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and other distasteful features. The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on their

path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source. Get a bottle today, begin the only logical treatment that gives real results. For free medical advice write Medical Director, 47 Swift Laboratory, Atlanta, Ga.

HIGHWAY WORK IS RESUMED

Federal Aid Undertakings Actively Taken Up After Armistice, Says Secretary Houston.

Delayed in its program of good roads construction by the war and confronted at the end of that period by a condition of badly run-down highways, the federal government, co-operating with the highway departments of the several states, has resumed the vigorous prosecution of the work, and, says David F. Houston, secretary of agriculture, there is now no special obstacle to the construction, in the different states of the Union, of those roads which serve the greatest economic needs. In his annual report, Secretary Houston says:

"Good roads are essential to the prosperity and well-being of urban and rural communities alike. They are prerequisite for the orderly and systematic marketing of farm products, for the establishment of satisfactory rural schools, and for the development of a richer and more attractive rural life. Recognizing these facts, the federal government, through the passage of the federal aid road act in 1916, inaugurated a policy of direct financial participation in road-building operations in the various states. This act appropriated \$75,000,000, to be matched by an equal amount from the states, for the construction of rural post roads over a period of five years, and \$10,000,000—\$1,000,000 a year for 10 years—for roads within or partly within the national forests. It required each state to have a responsible central highway commission with the requisite powers and funds. All the states have complied with the terms of the act, although it was necessary for them to enact additional legislation, or to amend their constitutions, to provide sufficient funds to match the federal apportionment; and it strengthened existing central highway bodies or to create new agencies.

"When these preliminary steps had been practically completed and the department and the states were about ready to proceed vigorously with the actual construction of roads, the United States entered the war. It soon

became necessary greatly to curtail highway building because of the difficulty of securing transportation, construction materials, and the requisite services. After the armistice was signed, arrangements promptly were made for the active resumption and vigorous prosecution of road work in all sections of the country, not only with a view to repair the damage wrought by the heavy traffic forced upon our highways during the war, when maintenance operations were seriously interfered with, but also to provide adequate transportation facilities to serve the increased needs of agriculture and industry. Recognizing also that road-building activities would furnish suitable employment for many unemployed men during the period of transition from war to peace, the congress at its last session, accepting the recommendation of the department of agriculture, appropriated \$200,000,000, in addition to the \$85,000,000 provided by the original act, for the extension of road construction in co-operation with the states, and also made some important amendments to the act. The definition of the kind of roads that can be constructed was greatly broadened and the limitation on the federal contribution for any one road was increased from \$10,000 to \$20,000 a mile. These amendments have greatly facilitated consideration of and action upon the road projects submitted by the state highway commissions. There is now no special obstacle to the construction, in the different states of the Union, of the roads which serve the greatest economic needs."

GOOD ROADS ADD HAPPINESS

Bring Farmer and Family Within Few Minutes of Neighbors, School, house and Stores.

The modern farmer and his family are, with good roads, within a few minutes of their neighbors, of the movies and theaters, of the school house and library. Nothing stands in the way of going 25 or even 100 miles from home on a Sunday to visit relatives or friends. In thus moving around he is more contented and happy.

SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat for a While if Your Bladder is Troubling You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

She Had Spoiled Daddy.

Her father gave Helen several things for Christmas which she wanted very much, and she kept kissing him to show her gratitude. A day or two after Christmas he brought home a belated gift which didn't particularly interest her, and she offered no gratitude.

"Come here and kiss me," said he, pretending to pout in disappointment. "Oh, dear," sighed Helen, "I've got you so spoiled that you think kissings always go with givings."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.
