A World-Wide Good Name

This business has not grown just because the automobile business has grown.

It has grown because there has grown up in America, and all over the world, a demand for the kind of a motor car Dodge Brothers build.

It has grown because the users of these cars have given Dodge Brothers a good name as careful, conscientious manufacturers.

The result is that wherever these two words—Dodge Brothers—are seen, they stand as a symbol of exceptional motor car value.

Even when they appear, all alone, on a window, or a wall, or a bulletin board, they instantly mean something special and significant to the passer-by.

They call up a picture of a particular kind of a motor car.

Or, to be exact, a particular kind of motor car workmanship, which people have come to associate with the name Dodge Brothers.

The two words—Dodge Brothers—are an advertisement in themselves, not merely in America, but the wide world over.

The first thought that follows, wherever they are seen, is the thought of a car that is reliable.

The name has come to suggest integrity—integrity in the car, and integrity in the manufacturing and business methods of the men who build it.

Such a good name is, of course, almost priceless in value.

Dodge Brothers are keenly alive to that fact.

They realize that the permanence of their business rests upon the continuance of that good name.

They realize that such a name is a perpetual promise to the people, which must be perpetually fulfilled by a finer and finer product.

As long as the name is attached to their motor car, Dodge Brothers may be depended upon to safeguard and protect it.

As long as they build motor cars they will be the best motor cars Dodge Brothers can build.

Decision in Favor of Church.

Judge Grimes handed down a decision last week in the case of Contractor Brooks against the Lutheran church in which he held that Brooks was not entitled to recover anything from the church. Brooks sued for thirty-five hundred dollars which he alleged the church owed him for services as superintendent of construction, but under the contract he was not to be given such sum unless the cost of the building did not exceed a stated sum. The building, however, cost considerably in excess of the sum stated. In this case the church was really the injured party, and not Brooks, for through his carelessness and mismanagement the building cost several thousand dollars more than if well managed.

League Nominates Ticket.
