

**Corporations Increase Population.**  
Those who are interested in the welfare and growth of North Platte accept with pleasure the fact that the Western Union Telegraph Co. has its North Platte pay roll district offices. When the Standard Oil Co. gets its district offices located here sixteen or eighteen persons will be given employment, some of whom will bring their families. And thus as North Platte grows big corporations increase their operations in our city and likewise increase our population.

**To First Ward Voters.**  
In asking for support from the voters of the First ward as a candidate for councilman I will state that I was born in Lincoln county, have been a resident of the First ward for ten years, that I am a property owner, and that I stand for public improvements that will give employment to mechanics and laboring men of the city. While advocating such improvements, I am one of those who believe that the city should get a full return for every dollar that it spends; in other words, I do not believe in the extravagant expenditure of the taxpayers' money.
