

WELL KNOWN ENGINEER PASSED AWAY YESTERDAY.

William Welch, for twenty-two years a resident of North Platte, and a passenger engineer on the Third district passed away at his home in the Fourth ward at one o'clock yesterday afternoon. The funeral will be held from the Catholic church at nine o'clock tomorrow forenoon with interment in the city cemetery.

Mr. Welch had been in poor health for about a year. Last November he submitted to an operation at Omaha, but this failed to restore his health. Wednesday he suffered a paralytic stroke and this hastened dissolution. The deceased was fifty-two years of age, and leaves a wife to whom he was married about four years ago.

"Billy" Welch, though of a retiring disposition, was popular with all his acquaintances and highly esteemed, especially by railroad men who knew him best. He was a member of the Knights of Columbus, the Elks and the B. of L. E.

If North Platte does not have a clean-up of alleys and lots during the week beginning April 19th such as it never knew before it will not be because Chairman Jim Sebastian and Secretary Moran of the Chamber of Commerce are not active in interesting people in the work. Both have developed the clean-up "bug" to an alarming degree. Why shouldn't North Platte be a clean town?

Patrons who wish appointments in the Marinello Beauty Parlor at The Style Shop are requested to make their appointments as far in advance as possible if they want to make sure of an appointment. Increased patronage necessitates this notice in order not to disappoint patrons.

In the case of Keith Neville against the North Platte Light and Power Co. in which the plaintiff sought to oust the defendant out of the occupied office on Dewey street, Judge Woodhurst gave a decision in favor of the defendant.

Time—Our Life, Years, Days, Hours, Minutes and Seconds are dealt out to us by the hands of time. Time, the most precious thing in the world. We must make use of every second as when it is gone it cannot be recalled again, it is out of our life, it may have been wasted. To measure out this unit of life that we may make the best of time, it is necessary that we carry a watch that is capable of keeping correct time, that we have in our home clocks that are really good time pieces. DIXON'S realize this and carry a good line of high grade clocks and watches.

Remember, we guarantee our alterations, and we are doing it to your entire satisfaction absolutely FREE of charge. BLOCK'S.
