The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire. There is a harassing discomfort caused by Eczema that becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle today, and you will see results from the right treatment. Write for advice. ADVANTAGES OF GOOD ROADS

Prosperity Made to Flow into Any Locality by Construction of Substantial Highways.

The way to make prosperity flow into any locality is to build roads that will last and not have to be done over every few years.

With good roads farmers can deliver all their produce directly to towns within a radius of 30 or more miles, and by making more profit themselves they reduce the high cost of living for other people; for merchants are able to take advantage of new sources of supply to buy their stocks under favorable conditions, and sell them to their customers at a lower price.

Millions of dollars are lost every year through perishable goods spoiling on the railroads because of freight delays and complications, writes C. W. Morrison in Farm Journal. Single large firms have actually saved more

than \$100,000 yearly by using motor-trucks; and the trucks will undoubtedly contribute largely to organized improvement of roads.

Good roads are a paying investment. Local authorities in cities, towns and counties should act without delay to meet the growing national and local demands before trade goes in other directions. It is almost impossible to get back the lost advantage after other districts have won it.

Good roads bring trade and increase property values in a community. They attract home-seekers and industries.

ROAD PROJECTS AUTHORIZED

Plans Involving Improvement of 12,159 Miles at Estimated Cost of \$181,143,644 Ratified.

The record indicates that from July 1, 1918, to November 1, 1919, the United States department of agriculture approved 1,345 road projects, involving the improvement of 12,159 miles, at an estimated cost of approximately \$181,143,644. Of this sum approximately \$78,592,167 represents federal funds. Since the passage of the federal aid road act 1,927 projects have been approved. These call for the construction of 18,596 miles of road, at an estimated cost of \$225,267,847, of which about \$95,498,140 will be borne by the federal government. Gratifying progress also has been made in connection with the national forest road work. From July 1, 1918, to November 1, 1919, 74 projects, involving 923 miles of road, were approved, and plans were completed for the improvement of 50 others, aggregating 946 miles.

These facts are brought out in the annual report of the secretary of agriculture.

BENEFITS OF BETTER ROADS

Release From Bondage the City Man as Well as Farmer—Solve Living Cost Problem.

To both city man and farmer the good road means release from bondage. Counties and states where good roads have become a part of a progressive program of legislation have seen values rise, and this again has brought home the fact that good roads pay for themselves. More important to the city dweller, however, is the fact that eventually good roads will prove the solution of the high cost of living problem.

COST OF ROAD CONSTRUCTION

Some of Determining Factors Are Right of Way, Material and Culverts or Bridges.

Some of the things which determine the cost of road construction are: Cost of right of way, cost of clearing and grubbing, amount and kind of material to be excavated and amount of filling to be done, amount of ditching for surface drainage and filling for subdrainage, number and size of stream crossings necessitating culverts or bridges, cost of securing and placing material.

DISADVANTAGE TO TRUCKERS

If Roads Are Not Improved He Is Unable to Compete With Farmer Living on Good Road.

A trucker ten miles from a market for spring crops, such as rhubarb, peas and spinach, is at a great disadvantage if his market road is unimproved, and he may be totally unable to compete with the trucker the same distance from market in another direction on a good road.

WAS BADLY RUN-DOWN FROM PNEUMONIA

Mrs. Washburn quickly regained her strength and flesh.

"I had grippe, followed by pneumonia. It left me with a terrible soreness in my chest, constant pain in my throat and so weak and nervous I could neither eat nor sleep. I had a chill every morning.

"One day a young man told me how Milks Emulsion had got him out of bed and built him up after he had been reduced to a skeleton and given up by the doctors. So I tried it. I have gained in strength, appetite and flesh, sleep better than I have for years, am doing all my own work again and feel like a new person.

"The beauty about Milks Emulsion is that it doesn't wear out like most things, and is so pleasant to take. It is a food as well as a medicine and builds up the blood and tissues. It surely put new blood in my veins and I have the healthiest color I ever had."—Mrs. M. Washburn, El Centro, Cal.

Logic in Her Assertion.

Mabel, age seven, led off after the Sunday blessing with a story she had heard on the way home from Sunday school. "A little boy," said Mabel, "who went to ball games said Sunday school wasn't much different from ball games, because at the Sunday school they sang 'Stand Up for Jesus,' and at the ball game they said—"

"Mabel!" cried the horrified family in unison, "don't tell that story!"

"Why?" asked Mabel. "Have you all heard it?"

"Of course, and it's—"

"Well then," proceeded Mabel calmly, "it wont hurt you to hear me tell it."—Kansas City Star.

A well-known film buyer was chatting to a producer the other day and became so interested in the subject of film acting that the latter thought he ought to be tactful and offer him a part. When the film was complete the producer invited the buyer to see himself as he really was.

"Well!" said Mr. Producer, "and are you going to buy the film?"

"No," replied Mr. Buyer, "I'm going to commit suicide!"

My friend's mother was reported to have died, so I immediately called at the house. My friend opened the door and I said: "So your dear mother is dead." She looked surprised and answered: "Why, no." I said: "Well, isn't that too bad." I meant, of course, that it was too bad such a report had got started.—Exchange.
