SALTS IF BACKACHY AND KIDNEYS HURT

Stop Eating Meat for a While If Your Bladder is Troubling You.

When you wake up with backache and dull misery in the kidney region it generally means you have been enting too much meat, says a well-known authority. Meat forms urle neld which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and elog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, siek beadache, dizzy spells; your stomach sours, tongue is conted, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physiclan at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness

Jad Saits is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink,-Adv.

Light on Late Committee on Public Information

WASHINGTON. - Congress or at least the senate apparently would like to know something about the actual operations of the late lamented committee on public information and the present condition of its affairs. Anyway, Senator Smoot of Utah, introduced a

read, considered by unanimous consent and agreed to in part as follows: Resolved. That the director of the council of national defense is hereby directed to report to the senate as soon as practicable: A statement showing all the expenditures of the committee on public information by principal classes, such as salaries; traveling; printing done at the government printing office; printing done

resolution the other day, which was

elsewhere than at the government printing office; advertisements, photographs, and films; telephone, telegraph, and cable; office furniture; rents; and automobiles. In this statement set forth in detail the name, address, position, business, or occupation of each payee, together with an explanation of the purpose for which such expenditures were made. If the expenditures were for traveling, including subsistence, state fully the purpose of such traveling, whether the expenditure therefor included persons other than the payee; if so, the names and addresses of such person, together with a general statement as to the extent and purpose of the traveling.

A statement of the unpaid accounts of the committee on public information in the same form as the foregoing statement.

A statement of the funds and property in the possession of the committee on public information, its employees, agents, or representatives, and the location of the same at the time the council of national defense was placed in

The resolution also calls for a statement of funds and property recovered, and disposition of files and mailing lists and all other pertinent facts in connection with the auditing and closing of the accounts and affairs of the com-

Apparently, also, the senate is in a hurry, since if the information is not ready a preliminary and partial statement is requested.

18,000 Ex-Convicts Organize "Gray Brotherhood"

MYSTERIOUS organization of ex-convicts, known as the Gray Brother-A hood has a membership which is believed to exceed 18,000. It is stated that its alms are to humanize the prisons and develop the ambitions of the inmates toward cleaner and better lives. Its

officers and leaders are unnamed, but the head, who is known as the Gray Brother, is said to be a man of much capacity and influence. He is on terms of friendly intimacy with several United States senators and is said to be not unknown at the White House. The Gray Brotherhood is responsible for several prison investigationsbrought with the desire to improve conditions and not merely to play politics or satisfy a grudge. It is al-

so claimed on behalf of the Gray Brotherhood that it is thoroughly patriotic and American. A statement of the program of the new organization is substantially as

follows: The Gray Brotherhood will attempt to help individual prisoners during their incarceration, and especially on their release,

The Brotherhood will provide jobs for released prisoners and try to educate the public to a more intelligent attitude toward the man who has committed a breach of the law, to clean up the prisons, morally, hygi-

and politically. A fight will be made on the grafts said to be rampant in all The Brotherhood will fight the political control of prisons by entering the political field itself. It will try to force the wardenship and other prison offices out of the hands of politicians and into those of penological experts and

students. The Brotherhood will be organized in every state to force advanced prison-reform measures through the legislatures. It is the purpose to wipe out utterly the present penal system.

Shortage of School Teachers Threatens Nation

THE country is faced with a serious shortage of school teachers, chiefly through failure to provide adequate salaries, according to reports to the United States bureau of education. Conditions are becoming slightly better, however, the report states, in some sections, compared with those of last

the situation. Based on returns from state school officials, the reports show that on February 13 last there were 18,279 schools closed because of lack of teachers and 41,000 were being taught by teachers characterized as "below standard, but taken on temporarily in the emergency." Greater shortages are shown to exist in southern states.

Salarles paid teachers in 1918, statistics show, were on an average of \$606 for elementary teachers and \$1,031 for those teaching in high schools. From salary schedules collected from various states, giving salaries received by individual teachers in three counties in each state, it is shown that wages paid rural teachers fell far below the foregoing average in many states, many localities showing salaries paid as low as \$150 and \$200 a year.

In 190 state, county, city and private normal schools, representing 60 per cent of the total normal schools in the country, there were 11,500 fewer students enrolled November 1, 1919, than during the prewar period. A similar falling off is shown in teacher-training departments in colleges, while other departments show great increases in caroliment.

America Rapidly Becoming Most Befurred Nation

F URS in a temperate climate have always been a sign of wealth. As we are the richest nation of the earth, we are rapidly becoming the most befurred nation. The last five years have seen the largest amount of furs sold in this country in its history at stead-

fly increasing prices and at the moment the United States, next to Rusvia, is probably the greatest consumer of fur garments in the world.

While London still disputes the fact, American fur dealers say this country has become the center of the fur industry. It is interesting to note the 12,000 Alaska scalskins offered for sale on account of the United States government were dressed, dyed, and machined in this country instead of at London as formerly.

Australia sent 1,000,000 pounds of rabbit skins, 500,000 Australian opossum. 40,000 wallaby, 11,000 kangaroo, 100,000 ringtail opossums, and 60,000

The United States offered 800,000 muskrats, 300,000 skunk, 22,000 beavers, 80,000 wolves, 1,000 silver foxes, 125,000 raccoons, and many other varieties.
