**THE NON-PARTISAN LEAGUE.**  
 The Greatest Political Menace of the Present Age.

This is addressed to Republicans and all voters who will call for Republican ballots at the Primary Election next Tuesday, and will thereby unite to protect Lincoln County against the greatest political menace it has ever faced in its history.  
 It is the custom of the Non-Partisan League to file its candidates under any party heading its leaders decide to be the strongest in any particular vicinity whether this be Republican or Democratic. Then masquerading under the popular party head these candidates, who are pledged to a platform absolutely destructive to the chosen party, attempt to fool enough of the voters to get themselves into office. If the Non-Partisan League wins in Lincoln County it will be by the use of this style of tactics. Already there has been circulated throughout the county printed cards headed: "Ask for Republican Ticket at Primary." This ticket contains the following names: State Senator Wm. Ebricht, State Legislature Homer Mylander, Floet Representative Earl Hilliard, County Judge J. M. Calhoun, County Commissioner First District Thomas Orton. The men who appear above are pledged to support the platform stated on this card. This card is falling into the hands of many an unsuspecting voter who may be led to believe he is voting for Republicans who will support the principles in which the Republican Party believes. They are Non-Partisan Leaguers pledged to the support, not of the Republican principles, but of the principles of this socially destructive organization. The purpose of this article is not to attack these men personally for they are merely the dupes and tools of the higher organization, the principles of which, it is to be sincerely hoped, they do not fully understand, and if they do understand these principles and the result of their application and still permit their names to be used they are the enemies of every patriotic loyal American farmer, laboring man and business man of this county.  
 Ignoring the platitudes in their platform which are printed merely as catch phrases and mean nothing, the attention of the farmer is called to some of the particular earmarks of this Non-Partisan League organization. For instance, they profess to believe in the exemption from taxation of farm improvements and working men's homes. Any thinking man knows that class legislation such as this would not stand in the courts even if it did get by the Legislature. In North Dakota it did get by the Legislature and what was the result? It is an actual fact that can easily be proven that the Non Partisan League having control of the State of North Dakota raised, not lowered, the taxes of the farm lands in North Dakota approximately three hundred per cent, and one of the prominent speakers for this peculiar organization says: "What we have done in North Dakota we expect to do in Nebraska." You may rest assured that if they were unable to run their state without tripling the taxes of the farmers themselves, when the farmers control the organization, that the Union Labor Man and the Business Man is not paying any less proportion than the farmers.  
 The next four paragraphs of the platform call for state and municipal ownership of all manufactories, railroads, water power, telephone and telegraph lines and banks. It is hardly necessary to go into this matter with the voters of Lincoln County. We have just got through a session with government control of railroad and telegraph and telephone lines and as a colossal failure it has no parallel in history. There is not a voter in Lincoln County who will consider voting for a return to that condition.  
 Paragraph seven calls for all possible encouragement to the organiza-

tion of farmers and wags earners cooperative associations. The present laws of the State of Nebraska need no additions along that line. They are already taking care of this subject and there was no form of corporation or association in the State of Nebraska during the last few years that made a higher percentage of profit nor enjoyed a greater prosperity than the Farmer's Co-operative Associations under the present law. To tamper with the present laws along that line would be to endanger their own interests.  
 Paragraph eight calls for state inspection and dockage of grain and other products. The Federal Government is already in charge of this inspection and dockage of grain and for the state to duplicate the federal departments would only create confusion and would benefit no one, for certainly if the Federal Government can not handle dockage and grading satisfactorily it would be useless for the state to attempt it.  
 Paragraph nine calls for up to date labor legislation and so forth. The labor leaders of the State of Nebraska are more than satisfied with the treatment they received in the last Legislature and will find no difficulty at any time in getting through any further measures that are just and fair.  
 It is apparent from this brief analysis that their platform is a catch vote affair and that probably the candidates do not understand or believe in one half of it. Opposed to these above named candidates is a genuine patriotic American Republican ticket. For State Senator Walter Hoagland, State Legislature E. S. Davis, Floet Representative T. L. Carroll, and a goodly array of republican candidates for county judge and commissioner. A campaign of deceit cannot bear good results for our people and it is deceit when these Non Partisan Leaguers oppose such men as Hoagland, Davis and Carroll for these offices. None of these three men is making a strong personal campaign. They have served us before and done it well, satisfactorily representing us at Lincoln, not as any individual class but as the people of Lincoln County, and worked day and night for the interests of our people as a whole. To refuse to reelect men of their standing and ability under times like these would be an error nothing short of crime. No honest farmer, laboring man or business man has anything to fear with these men as their representatives. Call for the Republican ticket and vote for the Republicans. Do not be fooled by a clique who wish you to vote for them as Republicans so that they can represent us as Socialists.

## Dizzy Headaches

Headaches accompanied by dizziness, or vertigo, and congestion of the face with cough, is the headache of heart trouble. Usually such headaches occur at a time when the heart is trying to enlarge to adapt itself to a back flow of blood which occurs when valves do not properly close.

If the heart is able to enlarge to take care of this trouble, the pulse remains steady, the face ruddy, and the individual is strong and capable. But if the heart is unable to accommodate itself to the situation forced upon it, there is a hard pulse, sleeplessness, and the headache and the conditions described above.

Lack of nervous tone in the heart muscles and coils is back of every phase of this form of headache and heart trouble. Adjusting to re-align the joints of the spine so that nerve openings are restored and the weakening nerve pressure is removed, brings health and strength.
