

DOESN'T NEED ANY LAXATIVES NOW

Mr. Becker says life is a joy, without constipation or stomach trouble.

"I had catarrh of the stomach and head for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water would run out of my mouth. I took a laxative every night.

"Since taking Milks Emulsion my bowels move regularly. I have now taken ten bottles and have gained 10½ pounds. All my friends remark how fine I am looking and it seems a pleasure to live again, without stomach trouble."—Bert Becker, Miami, Ohio.

Physicians usually make slaves out of their users, and weaken the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physios. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength Milks Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if not satisfied with the results your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

LIFT OFF CORNS!

Drop Freezone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.—Adv.

A Feeling of Security

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder remedy. The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs.

It is not a stimulant and is taken in teaspoonful doses.

It is not recommended for everything.

It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to try this great preparation send ten cents to Dr. J. C. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

POULTRY FACTS

BEST FEED FOR LAYING HENS

Composition of Ration Rather Than Method of Feeding Influences Egg Production.

Experiments in the methods of feeding laying hens show that the composition of the ration rather than the method of feeding has the greater influence upon egg production. The tests were made at the Ohio experiment station.

Rations for laying hens should contain from 10 to 12 per cent of meat scrap or a good grade of digested tankage, or their equivalent in skim milk.

The wet mash has some disadvantages, it is found, as it requires some time each day to prepare and give the mash and may cause digestive disturbances in the fowls if too much is fed.

A satisfactory ration consists in feeding a grain mixture of corn, three parts; oats, one part, by weight, and for the dry mash ration, ground corn seven parts, bran 3 parts, meat scrap five parts. About twice as much grain as mash should be consumed.

UPGRADING MONGREL FOWLS

Noteworthy Progress Reported by Continued Use of Males of Pure Breeding.

Noteworthy success is reported by the United States department of agriculture in grading up mongrel flocks of poultry by the continued use of males of pure breeding. During the last fiscal year, according to a statement of the bureau of animal indus-

try, the third generation of Barred Plymouth Rock grades showed marked uniformity in color and type, and White Plymouth Rock grades showed much improvement, but did not all come pure white in color. In both kinds of grades individuals occurred which so closely resembled stock of pure breeding that it was impossible to tell the difference by their appearance.

PRESERVING EGGS IN BRINE

Good After Eight Months if Simple Measures Are Taken—Lime Good as Water Glass.

Eggs laid during April and May are of better quality for preserving than are those laid later in the summer. One pound of air slaked lime added to cooled, boiled water is equally as good a preservative for eggs as water glass.

Only clean, fresh eggs with sound shells should be "put down." Use an earthen jar. Stir the lime thoroughly into the water and drop the eggs in as gathered. Some lime settles to the bottom of the jar but does no harm. Two or three inches of the solution should cover the eggs to allow for evaporation. Keep in a cool place, preferably in a cellar.

Eggs preserved by this method may be safely kept for eight months. When ready for use, remove only the eggs that are necessary.

CARE FOR CONFINED CHICKS

Much Greater Attention Needed Along All Lines Than Those Given Free Range.

Growing chicks that are kept closely confined need much greater attention along all lines than those that have range. See that they have plenty of green feeds that have not wilted down to almost the decaying point and that the yards are kept sweet. Culling also is more essential when chicks are closely confined.

DO NOT MAKE GOOD MOTHERS

Best to Use Incubators and Brooders With Leghorns, Minorcas and Similar Breeds.

Leghorns, Minorcas, and similar breeds, while having many qualities to recommend them, do not make satisfactory mothers and the work of hatching and brooding the chicks may be done more satisfactorily with incubators and brooders.

Sure Relief

Perfect Health is Yours If the Blood is Kept Pure

Almost Every Human Ailment Is Directly Traceable to Impurities in the Blood.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force.

By keeping your blood purified, your system more easily wards off disease that is ever present, waiting to attack wherever there is an

opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 112 Swift Laboratory, Atlanta, Ga.
