KEEP ROADS IN GOOD REPAIR

Farmer Can Make Much Improvement
by Dragging Highway in Front
of His Property.

Every farmer should feel his dependence upon good roads. Whether or not one lives on a public highway he should take an interest in the nearest one to his farm or the road he must use to market his farm, or chard and garden products.

There are many times when a day's work can be spared on the road. After heavy rains the road may need certain repairs or improvements when the overseer is not ready to call out the hands. Why not individual farmers donate a day's work on the road at such time?

By keeping a road drag and dragging the road along one's land after heavy rains the road may be greatly

The Above is a Cut of Seager Wheel
er's Plank Drag. It is of the Type
for Good Road Maintenance. The
Cut Shows Fully the Method of
Construction.

Improved. It is an easy matter to have an agreement so each farmer will drag the road in front of his farm. This would maintain the road till the regular hands could be called out at stated intervals or till the commissioner could make the necessary repairs.

The time has come when we must consider the roads an asset, indispensable to the well-being of the farmer and his family. This being true, is it not every man's duty to do all he can to keep the roads in good condition? The individual as well as the county is responsible.

RECORDS PROMISED IN 1920

Millions to Be Spent in Improving
Public Highways and Transportation
Facilities.

The year 1920 promises to develop a revolution in America's two great problems—highways and transportation.

All over the country great interest is being manifested in better roads and improved transportation facilities.

The coming of the pneumatic-tired motortruck has given an impetus to the movement for a national highway system that is sweeping everything before it.

State after state has passed, without noticeable opposition, appropriations for millions of dollars to build and improve main market and inter-county highways.

What these activities portend can be visualized in some measure when it is said that of the 2,000,000 miles of roads in this country only 200,000 miles are improved.

Motor transports work at highest efficiency on good roads, although the pneumatic truck tire is rendering conspicuous service in transporting heavy loads over swamp ground and the sandy soil of fruit groves.

GOOD ROADS AID APPEARANCE

Farmstead Buildings on Improved
Highways Found in Better Shape
and Fences Kept Up.

Have you ever compared the farmstead on an improved highway with one on a dirt road? Why in the former are the buildings in so much better shape, the fences up and in a state of repair, the fields spick and span, the house grounds well kept and hedges trimmed, while in the latter the buildings are unpainted? Strange as it may seem, the difference is caused by the road.

VARIOUS KINDS OF HIGHWAYS

Each Community Should Select Type
That Can Be Built and Maintained
at Lowest Cost.

There are various types of roads that last, and each community should choose the type that can be built and maintained at the least expense. For some communities it may be gravel for others concrete, for others sand-clay roads. But in every community there should be good roads every day in the year.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

For Age Computation.

To compute the age and birth month of a person ask the person to think of his age, multiply by 10, add 25, multiply by 10, add the number of the month in which he was born, subtract 250. The first two numerals will be the person's age and the last two the month in which he was born.

Shave With Cuticura Soap

And double your razor efficiency as well as promote skin purity, skin comfort and skin health. No mug, no slimy soap, no germs, no waste, no irritation even when shaved twice daily. One soap for all uses—shaving, bathing and shampooing.—Adv.

It Seems So.

She—"Do you think girls that dance are all right?" He—"They must be, for the girls who don't are all left."

Proof of the pudding is in the first bite—if it's bread pudding.

NOVEL HOUSES OF WORSHIP

One Missionary to Eskimos Made Use
of Sealskins and Another Em-
ployed Only Snow.

One of the queerest churches ever known was built by a missionary on Blacklead Island, in Cumberland sound. Finding that the Eskimos had no place in which they could meet for religious services, the missionary started to build a church of the skins of seals, no wood being available. The skins were sewn together and stretched over "girders" of whalebone, empty provision tins serving as seats.

The cold at one time became so severe that for many days the Eskimos of Blacklead Island were unable to procure food for themselves or for their animals. One night dogs made their way to the strange church edifice and began consuming it, with the result that when morning came there was not a skin left, the whalebone ribs alone remaining to show that there had ever been a church.

Another missionary in charge of the spiritual welfare of the Eskimo tribe, built his church entirely of snow. Seat, pulpit, altar and interior equipment, was made of snow, and in the matter of warmth no stone-built church could beat it.

Bill's Capacity.

Prison Superintendent Rattigan was talking at Sing Sing about the capacity for strong drink possessed by convicts.

"Two convicts were talking one day," he said, "and the first remarked:

"Yes, Bill done that carpenterin' job for 'em in return for what beer he drunk while he was at work."

"I see," said the second convict. "Ordinary union rate wasn't good enough for Bill, eh?"

The Limit.

"Is Gubler a generous chap?" "Generous? W hy, he'd share his last half-pint with a friend!"—Home Sector.

HE REMEMBERED THE LAW

Boy Scout's Explanation Somewhat
Disconcerting in That It Im-
plied So Much.

The Boy Scouts were telling their scoutmaster of some of the good turns they had done during the last week. He was having this done for the benefit of one of the city school teachers who was visiting the meeting. One of the little scouts said, "I helped an old lady across the street."

The next little scout looked at the visiting teacher, who happened to be his teacher, and who also was in the early thirties. "I brought my teacher a pitcher of well water when she was not feeling well," he told the scoutmaster.

The teacher smiled, "Why didn't you say you helped another old lady?" she asked.

The retort that came back staggered her. The little scout said sweetly, "A scout is courteous."—Indianapolis News.

Keeping Up With H. C. O. L.

Bert asked his grandpa for a job and was told he could throw down hay for the horses. For this chore he had always received a nickel; but as the candy bar he was in the habit of buying had advanced in price, he coolly informed his grandparent that he would have to have a raise in wages. "How, much?" asked grandpa, amused.

"Oh," replied the little laborer, "enough to keep up with the high cost of candy."

The Reason.

"I will never marry Kate now. There is an insuperable bar to our union."

"Good gracious, Jack! What is it?" "She won't have me."

No man over 50 should marry a woman who isn't a good nurse.

How to be genial and do it naturally—ay, there's the rub.

Coffee Often Disturbs Digestion

and frequently causes nervousness and sleeplessness.

If coffee annoys you in any way, try

Postum Cereal

This favorite drink enjoys growing popularity because of its pleasing flavor and its superiority to coffee in healthfulness.

Sold by Grocers in two sizes—25c—15c

No raise in price
