A Fair Stock.
"Do you keep all the popular magazines?"
"No, sir, Nobody could keep 'em all. I keep, however, about 3,000 kinds."

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.
A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callous. Instantly it stops hurting, then shortly you lift that bothersome corn or callous right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

Easily Explained.
Mistress—How did you come to have such a blackened character?
Maid—That's where the last lady I lived with split the ink over it.

Cuticura Soap for the Complexion.
Nothing better than Cuticura Soap daily and Ointment now and then as needed to make the complexion clear, scalp clean and hands soft and white. Add to this the fascinating, fragrant Cuticura Talcum and you have the Cuticura Toilet Trio.—Adv.

The Theatrical Game.
Son—Father, my new revue is going to be produced. There's a fortune in it!
Father—Whose?

ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pain. Handy tin boxes of 12 tablets cost few cents. Druggists also sell larger "Bayer packages." Aspirin is trade mark Bayer Manufacture Monocetate of Salicylic acid.—Adv.

Restricted.
"How do you like your new flat?"
"We have no room to complain."—Kansas City Star.

DEATH WAS NEAR

Florida Woman in Critical Condition From Dropsy, But Doan's Brought Recovery

"Dropsy brought me right down to the shadow of the grave," says Mrs. Ida B. Atwell, 804 William St., Key West, Fla. "For fifteen years I was a hopeless wreck, struggling between life and death. The pains were so severe in my back I screamed in agony. My head ached so severely I thought my skull was being crushed. Black specks floated before my eyes, and I had to grasp the bed to keep from falling. The kidney secretions hurried and scalded and I could pass only a few drops at a time. My body bloated. The pressure of so much water on my chest almost smothered me. My feet also swelled and large sacs of water hung beneath my eyes. My skin had a shiny, white appearance and anywhere I pressed a dent would remain for hours. I became a nervous wreck.
"A friend told me about Doan's Kidney Pills and oh! I felt so happy when I found they were helping me. Continued use of Doan's completely cured me." Sworn to before me. ARTHUR GOMEZ, Notary Public.

ARSENICALS FOR KILLING WORMS

Annual Loss From Cabbage Pest Conservatively Estimated at \$1,300,000.

NOT DIFFICULT TO CONTROL
Arsenate of Lead and Paris Green Are Preferable to Other Poisons—Number of Spraying Depends on Conditions.

(Prepared by the United States Department of Agriculture.)
Arsenicals are being generally used to control the cabbage worm. There are now few instances of the total destruction of crops of cabbages as was formerly often the case. Nevertheless, a conservative estimate would place the present annual loss from this pest to cabbage alone—not including cauliflower and other related crops—at \$1,300,000, or one-tenth the value of the entire crop.

The cabbage worm is not difficult to control, and it should be borne in mind that most other cabbage pests, more often present than not, will be controlled by the same methods.
Poisons Preferred.
Repeated experiments have shown that arsenate of lead and paris green are preferable to other arsenicals in common use. If paris green is used, it may be applied either wet or dry, preferably, however, as a spray, at the rate of one pound to 50 gallons of water. The plants should be free from insect attack when they are set out and should be sprayed a few days later to make sure that the poison reaches the young caterpillars before they have burrowed far into the heads. Other applications should follow as inspection of plants shows that they are necessary.

These applications of arsenicals can be made with absolute safety even after the heads are formed, as the poison disappears from plants almost completely within two to three weeks after application, and even earlier in event of repeated or heavy rainfall.

Increased Cost.
Scarcity of paris green has increased the cost. Arsenate of lead has been rapidly superseding paris green and other arsenicals as an insecticide and

The Sort of Gardens Which Have Been Planted in Thousands of Communities This Year.

has not increased proportionately in price. For many reasons it is preferable.

It serves the same purpose as paris green and is applied in the same manner. It is sold both in paste and in dry powder form. Two pounds of dry arsenate to 50 gallons of water or bordeaux mixture will make a solution of sufficient strength to destroy cabbage worms and similar insects. The paste form must be used at double strength, four pounds to 50 gallons of water.

The number of sprayings depends on local and seasonal conditions. Sometimes a single spraying will suffice, but usually two or three are necessary. The adhesiveness of the spray material is promoted by the addition of about the same amount by weight of resin fish oil soap as of the arsenical used.

DIG UP OLD RHUBARB STALKS

Divide Roots Into Pieces of Two or Three Eyes Each and Start Entirely New Patch.

After rhubarb has been planted four or five years the stalks become so thick that they are too small to sell well. It is then best to dig up the roots and divide into pieces of two or three eyes each, which is enough for one hill, and start a new patch. Another good way is to dig up all the hill but a little corner which is left undisturbed, then fill the hole from which the roots were taken with well rotted manure and cover that with earth. The piece of root left in the ground will make a surprising growth the same season.

EXCELLENT CROP INSURANCE

Spraying Must Be Done at Right Time and in Proper Manner for Nice Clean Fruit.

He who does not spray his fruit crop for insects and disease has no right to expect nice clean fruit in the autumn. Spraying at the right time and in the right way is splendid crop insurance.

THINNING IMPROVES VALUABLE WOODLAND

Lack of Proper Treatment is Cause of Much Loss.

FARMER SHOULD TAKE STEPS TO GIVE TREES SUFFICIENT LIGHT AND SOIL MOISTURE FOR THEM TO THRIVE AND BECOME PROFITABLE.

Lack of proper thinning and cutting is a common cause of woodlands being unprofitable, according to a recent bulletin entitled, "Making Woodlands Profitable in the Southern States," issued by the United States department of agriculture. Nature usually over-crowds trees in a given space, says this publication, and so steps should be taken to give them sufficient light and soil moisture to thrive and become profitable.

By properly controlling the number of trees on a tract it is possible to increase their rate of growth and eventually their size. Except for the production of cordwood, a few large trees on a given area are usually more desirable than many small ones. If possible, valuable kinds of wood should be grown in preference to common woods which bring lower prices. Woodlands

Farm Woodland Marked for Conservative Thinning.

In this country, as a rule, contain many crooked, forked and diseased trees which should be replaced by straight, sound ones. Soon after a cutting trees show an increased growth and the whole woodland rapidly increases in value by the elimination of inferior trees.

With an active market for cordwood and for fence posts, poles and lumber, there is every inducement to clear out the inferior trees—diseased, dying, crooked and less valuable kinds. Right cutting also includes the removal of large, sound trees whose growth is slow because they are nearing or have reached maturity. The cutting should be done only at a time of favorable market conditions or when building or other timber is needed on the farm. Copies of this bulletin may be had by addressing the United States department of agriculture, Washington, D. C.

CONTROL OF SOIL DISEASES

Next to Seed Treatment Rotation is Best Way to Destroy Wilt and Root Spores.

With the possible exception of seed treatment, there is no farm practice, which, from the plant disease point of view, gives greater returns on the investment than crop rotation, is the assertion of Prof. J. G. Leach of the Colorado Agricultural college. There are a great many plant diseases such as wilts and root rots for which no specific remedy is known and which can be held in check only by the combined practices of seed-selection, seed treatment, and crop rotation. These diseases become worse and worse each year the crop is grown in the same soil, and each one taking their annual toll accounts for considerable loss to the farmer.

A system of crop rotation entails almost no expense other than a little forethought and planning. The returns in disease-free crops pay for this trouble many times over, not to speak of the added gain in soil fertility.

SILOS RAPIDLY INCREASING

Successful Farmers Have Learned That Huge Receptacle is Big Asset on Any Farm.

Information gathered by the Pennsylvania department of agriculture shows approximately 20 per cent, or 43,357 farmers in the state with silos, while the number a year ago was estimated at 32,900. Wide awake and successful farmers have learned that a silo, when properly used is a valuable asset on any farm. As farm conditions improve, the number of silos naturally increases.

SPACE BETWEEN FRUIT TREES

Apples Should Be Allowed at Least 30 Feet Each—Plums Do Not Require as Much.

Standard apple trees should be allowed at least 30 feet of space each way; plums 20 feet; currants, gooseberries and grapes from ten to 12 feet; red raspberries should be allowed to grow only in hedgerow not over six inches wide and rows ten to 12 feet apart; strawberries set in rows four feet apart and two feet apart in row.

FARM POULTRY

CLUB GIRL'S HENS PAY WELL

Valerie Henning of Mississippi is Paying Her Way Through College on Profits From Flock.

"I am a poultry club member, and my records show that this year the net profits from my chickens were \$253.35." This is the report of Valerie Henning of Panola county, Mississippi, who at sixteen holds the championship of her state in poultry-club work. She, with six other Mississippi girls and two chaperons, recently visited Washington. The five-day trip was a prize offered by Mississippi bankers and business men to the girl in each district of the state who made the largest profit in her club work.

Miss Henning has been a member for two years of one of the poultry

Prize-Winners of Mississippi Girls Clubs Witnessing Demonstration in Use of Egg Tester at Beltsville Government Farm.

clubs supervised by the United States department of agriculture and the state colleges.

To obtain her start in club work she borrowed \$13.50 from a local bank. With this money a pen of Barred Plymouth Rocks, consisting of four hens and one cockerel, was bought. The profits from her chickens last year, her first in poultry work, were \$374, and her flock for 1919 consisted of two cockerels and nineteen hens. By the use of trap nests and leg bands the record as a layer of each hen had been observed, and only the good egg producers were kept. From January 1 to October 16 the 19 hiddles laid 2,844 eggs. Miss Henning sells nearly all the eggs for hatching purposes; but the birds she raises, aside from the culls bring from \$15 to \$20 a pen.

The money this club girl has made through her poultry work is being used to pay her way through an agricultural high school.

DESIRABLE HENS TO RETAIN

On Most Farms Size of Flock Count Well Be Increased—Range is Very Important.

The average farmer might find it desirable to increase the size of the flock of hens. While most farmers have little time to devote to poultry raising, yet their families may attend to the fowls and see that they are well cared for and protected.

The usual "advice" to poultry raisers to begin with a few hens is sound. But on most farms the women and girls have had the responsibility of the flock for years and most of them could well afford to increase the number of laying hens.

Range is very important for poultry. But range alone is not enough. The fowls must have feed and shelter when they need them.

When one is about to increase the number of hens it is well to see that those kept are worth keeping. Poor hens are not an asset; they are generally a liability.

POULTRY NOTES

Call out weak or slow-growing chicks.

Eggs being taken to market should be protected from the sun's rays.

If the hen house is damp, it is safe to say fewer eggs will be laid.

Infertile eggs will withstand marketing conditions much better than fertile eggs.

A chicken can stand any amount of cold, but very little moisture, when housed.

Rapid growth and no bowel trouble are essential in developing profitable flocks of chicks.

Make hens take exercise by feeding their grain in litter, where they will have to scratch for it.

Begin marketing the cockerels as soon as they weigh 1 1/2 pounds or attain a marketable weight.

Iron and charcoal are two valuable feeds for young chicks. They can be placed in hoppers before the chicks at all times.

Why Exclusive Agencies Cost More to Operate

A roofing dealer who has an exclusive agency has no competition on his private brand. As a result he can charge a large profit if you'll buy.

In addition, he is usually a long distance from his little manufacturer and must invest more money to keep his stock up. Now look at the Certain-teed way. Any responsible dealer can sell Certain-teed. Each dealer carries a small representative stock. If he needs more he orders from a nearby Certain-teed warehouse or jobber. It usually takes only a day or two to get it. The result is small investment, small storage cost, light insurance, and no slow-moving articles.

Certain-teed Saves You Money

That's why Certain-teed dealers operate at less expense. And it's also why Certain-teed saves you money because they can afford to sell at close margins and there are enough of them to insure you a fair deal.

Now let's see what you get when you buy Certain-teed Roofing. It's roofing that has never been known to wear out on the roof. It is guaranteed for 5, 10 or 15 years, according to weight. It is weather-proof, fire-retarding and spark-proof.

There is nothing else you want from roofing. And since you get this highest quality roofing at a saving, it's the logical buy. Any responsible dealer can get Certain-teed for you quickly from a nearby Certain-teed warehouse or jobber. He gets it when he wants it and he gets what he wants. He can afford to sell you at a fair price.

Certain-teed Products Corporation
General Offices, St. Louis
Offices and Warehouses in Principal Cities

Certain-teed

Beware of the dealer who tells you he has Certain-teed, but tries to sell you a private brand. He probably wants a bigger profit.

Rheumatism Back on the Job With Its Old-time Fury

No Let-Up in Its Torture.

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will? Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has no equal as a blood purifier, scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

Get a bottle of S. S. S. at your drug store and get on the right treatment to-day. If you want special medical advice, address Medical Director, 102 Swift Laboratory, Atlanta, Ga.

DON'T LET THAT COUGH CONTINUE!

Spohn's Distemper Compound

will knock it in very short time. At the first sign of a cough or cold in your horse, give a few doses of "SPOHN'S." It will act on the glands, eliminate the disease germ and prevent further destruction of body by disease. "SPOHN'S" has been the standard remedy for DISTEMPER, INFLUENZA, PINK EYE, CATARRHAL FEVER, COUGHS and COLDS for a quarter of a century. 50 cents and \$1.15 per bottle at all drug stores.

SPOHN MEDICAL COMPANY, Goshen, Ind.

DAISY FLY KILLER

PLACED ANYWHERE ATTRACTS AND KILLS ALL FLIES. Nest, clean, ornamental, convenient, cheap. Lasts all season. Made of metal, can't spill or tip over; will not soil or injure anything. Guaranteed effective. Sold by dealers, or by EXPRESS, prep. d. R. S. 25c.

BAROLD SOMERS, 150 De Kalb Ave., Brooklyn, N. Y.

Acid Stomach. Makes the Body Sour

Nine Out of Ten People Suffer From It

It sends its harmful acids and gases all over the body, instead of health and strength. Day and night this ceaseless damage goes on. No matter how strong, its victim cannot long withstand the health-destroying effects of an acid stomach.

Good news for millions of sufferers. Chemists have found a sure remedy—one that takes the acid up and carries it out of the body; of course, when the cause is removed, the sufferer gets well.

Bloating, indigestion, sour, acid, gassy stomach miseries all removed. This is proven by over half a million ailing folks who have taken EATONIC with wonderful benefits. It can be obtained from any druggist, who will cheerfully refund its trifling cost if not entirely satisfactory. Everyone should enjoy its benefits. Frequently the first tablet gives relief.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

For Mrs. Benham's Benefit.
Mrs. Benham—What did the doctor tell you?
Benham—He said that I would have appendicitis if I didn't stop irritating my side by constantly putting my hand in my pocket for money.
Demonstration.
"Here is this would-be critic talking about a water color in oil. Did you ever hear of a water color which could be in oil?"
"Sure. Sea blue."
