Entertain at Country Club.

Members of the Indian Card Club were delightfully entertained at the Country Club Wednesday afternoon with Miss Alma Waltemath, Mrs. Chas. Dixon and Mrs. J. H. Stone as hostesses. The rooms were profusely decorated with wild flowers gathered on the grounds. Prior to the bridge games, in which five tables were in use a very enjoyable program was rendered. These numbers consisted dances by Benita Helmond, of Oakland, Cal., who gave a Spanish dance with tambourine, a flower dance, an Irish jig and a Highland fling with song, appearing in costume in each dance. She also rendered a piano solo. Miss Elsie Waltemath gave a reading with piano accompaniment.

Omaha to Alliance by Plane.

John C. Barret, an Omaha attorney and past exalted ruler of the Omaha lodge of Elks, stopped in town Tuesday while enroute to Alliance to attend the E. P. O. E. convention. The feature of his trip was that he was making it by an airplane of the Standard make piloted by Homer Wyant and Art Green of the Blue Star aviation company of Omaha. The trip from Omaha to North Platte was covered in four hours, and the entire distance to Alliance, 421 miles, was made in five and one-half hours.

New Store Opens.

A new mercantile establishment was added to the North Platte list this week when the Equity association store opened for business in a building at the corner and Tenth and Locust. This building is part of the one formerly occupied by the U. P. dispatchers, and as remodeled makes an excellent business room.

Auto Tourists Increase.

Queries at the garages and hotels yesterday brought out the information that the number of auto tourists passing through North Platte is increasing daily. The increase during the past week has been very noticeable. It is said that at a certain Dawson county town on the Lincoln Highway a count was kept last Tuesday on the tourists passing east and west and the number of cars from 7 a. m. to 9 p. m. was one hundred and fifty-two.

Run in Hoboes.

Yesterday morning Chief Winslow was notified that six hoboes had locked themselves in an express car that was being deadheaded east on train No. 6 with the request that he be prepared to take them in tow. When the train arrived here, the hoboes had apparently grown suspicious and unlocking the door made a dash for liberty. They succeeded in eluding the officers, but circling around the north side they attempted to get on the train at the lower crossing, but were intercepted by the officers who arrested three on the spot. Two others attempted to escape, but were fired upon by the officers and they stopped and gave themselves up. The five were marched to jail and today the judge will be asked to sentence the quintette to ten days work on the streets.

A nice rain fell last night, laying the dust, cooling the atmosphere and helping along vegetation. We have not learned how much territory the rain covered other than it extended at least eight miles west of town.

Mrs. A. E. Moore and Misses Anna and Hattie Ream, who live in the valley west of town, were called to Grand Island this morning by the death of their nephew, a son of Mr. and Mrs. Saml. Ream.

STOP, LOOK AND LISTEN!

For three weeks past Dr. Shaffer has been attending clinics at the convention of the American Osteopathic Society in Chicago, and Dr. Drost and Dr. Fenner have been there for a lesser time. These doctors have been making an exhaustive study of the anatomy of the head and neck to ascertain new methods of diagnosis and treatment of hay fever, catarrhal deafness, asthma and allied conditions of the eye, ear, nose and throat.

All in the Day's Work

Whether it's clearing, tilling, hauling or harvesting—your tractor is called upon to perform a hundred different tasks in the course of a season. The speed and sureness with which it accomplishes these tasks, every day, year in and year out, depends largely upon the kind of lubrication it gets. Carbon, friction and wear are enemies of steady, efficient motor operation. You can minimize these by using our Tractor Oils.

Our Tractor Oils maintain the right lubricating body at every temperature. Their great friction-reducing qualities elimi-

nate, to a large extent, the danger of scored cylinder and undue wear of engine parts. They keep your tractor on the job and full-powered the year around.

Our experts have made a study of the tractor lubricating problem. They have found STANOLIND TRACTOR OIL best suited to a majority of tractors, Polarine Extra Heavy, Polarine Heavy and Polarine being recommended for quite a number. For the proper oil to use in your tractor—consult your Stanolind dealer or write us.
