### FARMERS ARE WORKING HARDER

And using their feet more than ever before. For all these workers the frequent use of Allen's Foot-Ease, the antiseptic, healing powder to be shaken into the shoes and sprinkled in the foot-bath, increases their efficiency and insures needed physical comfort. It takes the friction from the shoe, freshens the feet, and prevents tired, aching and blistered feet. Women everywhere are constant users of Allen's Foot-Ease. Don't get foot sore, get Allen's Foot-Ease. Sold by dealers everywhere.—Adv.

### THAT BROUGHT HIM TO TIME

Really Little He Could Do After Such a Declaration From His Adored One.

In the hush of the twilight they lingered by the gate. He was full of hope, but fearful to try his luck, while she—well, her fair face was lined and drawn with determination.

Presently, after a silence long and deep, she began:

"I will never—"

Her eyes met his pleading orbs with an intensity of purpose which made him feel quail.

"Wed any man?"

His bronzed face paled and he felt as if he stood on the brink of a chasm of despair. Then, with a politely cold smile on her curved lips, she continued:

"Present company?"

Again she paused and he waited in feverish anxiety for her next words.

"Always accepted?"

And soon the wedding bells will be ringing for him and his girl.

Sorry He Spoke.

Wife—Yes, and judging from the fuss they make over the bills, it's about the only garment some husbands want their wives to wear.—Boston Transcript.

## Food For A July Morning

—and every morning when the thought of health enters into the meal time preparation—

## Grape-Nuts

This easily digested food needs no sugar, yet it has a most pleasing sweet flavor, and is full of the sound goodness of wheat and malted barley.

"There's a Reason"

## Aristocrats Among Sweaters

NECESSITY—that humble and useful mother of inventions—brought forth some years ago after her kind the humble and useful sweater and its early intention and seeming destiny, was simply to be comfortable. Mankind adopted it and has required nothing further than comfort from it all these years. Women adopted it and have led it a merry chase into the land of fancy and changing styles. She requires that it be novel, varied, chic, first, and somewhat useful afterward, and it is far from humble or plain now. There are in fact so many diversified kinds of sweaters that pictures of them might provide illustrations for a calendar of the year.

July presents us with such delightful affairs in the smart company of sweaters as that new model shown in the picture. It appears to be of fiber silk knitted so as to show a solid rib alternating with an open mesh. It is a slip-over model, among the neatest of this popular variety, and is very nicely adjusted to the figure with definite fit about the shoulders and bust, and a charming management of

the waist. It appears that we cannot tell the story of anything these days without adding a little yarn to it. Yarn trims everything—hats, blouses, frocks, and provides a double cord for the waist of this sweater and a single one for the neck. Little yarn balls finish the cords that are tied in the simplest bows.

This sweater has some own sisters that are hand crocheted of silk yarn in many of the bright sweater tones. Usually they are finished at the bottom with a deep fringe. Narrow picot-edged ribbon may be used for finishing touches or long narrow sashes hand-crocheted to match.

Besides these rather luxurious silk sweaters in open work designs there are many in light-colored wools; as a rule women who crochet or knit make them for themselves. But the machine-made sweaters are so attractive that no one need long for anything better. Some women buy a plain, machine-knit sweater and crochet an edge about it in yarn of a light contrasting color. This is easy to do and gives a distinctive personal touch to the garment.

## Ribbons Inspire Accessories

WHEN the young woman's fancy isn't turned to thoughts of love it must certainly be occupied with thoughts of sports apparel for mid-summer. It doesn't seem possible that there can be time left for anything else in minds that succeed in thinking up so many sporty clothes. Everything from hats to shoes is permeated with this flavor of outdoor pastimes.

Gifted and ingenious designers are taking advantage of their ribbon opportunities and converting lovely ribbons into smart soft hats for sports wear. This is not a new venture for the ribbon hat has proved so practical for sports and also for between-seasons wear, that it is here to stay. A feature of these hats that makes them strong with the tourist is that many of them are collapsible and may be carried in a suit case or small bag. Another merit that everyone likes is their flexibility. Brims may be turned up or down and drawn into lines that are most becoming to the wearer. Fulle and satin ribbons are most popular for hat making.

A group of these sports hats shown above reveals how successfully ribbons have played their part in this type of headwear and the most natural step in the world was taken by the designer who made bags and scarf to match. In the set at the top, bright green tricolor and faile ribbon make a soft hat and wide scarf, the ribbon—in white—shirred in a puff about the edges of the scarf and across the front of the hat. The girdle of tricolor is

very little wider than the ribbon shirred over it.

Just below at the right, there is a hat made of white faile ribbon with pleat edge and a bag to match in which the ribbon covers a foundation of white satin. The mounting is silver metal and the handles are of the ribbon. At the left there is a brilliant set made of white satin ribbon having black embroidered figures over it. This hat is made over a light frame and is a dignified example of sports styles. The ribbon is ingeniously managed in the bag, being folded to bring the embroidered figures to the center.

### Leather Belts.

New leather belts are interesting. To begin with, they are most of them quite narrow, and as a second thing they are worn often at a point above or below the waistline of the coat or frock they go with. One is a narrow belt of glazed dark blue leather, with a narrow binding of black on each side. This part of the belt reaches around the waist. Then there are two ends of the belt of braided things of the leather which are loosely tied and hang down at the side, front or back.

### Figured Foulard Blouses.

Figured foulard blouses are being shown for summer and are attractive.

## Simply Worn Out

### How Many Women Are Like This?

Can anything be more wearing for women than the ceaseless round of household duties? Oh! the monotony of it all—work and drudge; no time to be sick; tired, ailing, yet cannot stop. There comes a time when something "snaps" and they find themselves "simply worn out," and to make matters worse, have contracted serious feminine disorder which almost always follows the constant overtaxing of a woman's strength.

Then they should remember that there is no remedy like Lydia E. Pinkham's Vegetable Compound—the experience of these two women establishes that fact:

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells that would not let me entirely for my household. I suffered for months and the doctor said that my trouble was organic ulcers and I would have to have an operation. That was a awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and since then I have been a well woman, able to take care of my house and family without any trouble or a day's pain. I am really and truly thankful to swear by your medicine any time. I am forty-four years old and have not had a day's illness of any kind for three years."—Mrs. H. Korman, 617 Ellis Blvd., Cedar Rapids, Iowa.

Sandusky, Ohio.—"After the birth of my baby I had organic trouble. My doctor said it was caused by too heavy lifting and I would have to have an operation. I would not consent to an operation and let it go for over a year, having my sister do my work for me as I was not able to walk. One day my aunt came to see me and told me about your medicine—said it cured her of the same thing. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and they have cured me. Now I do my own household, washing and ironing and sewing for my family and also do sewing for other people. I still take a bottle of Vegetable Compound every spring for a tonic. I recommend your medicine to others who have troubles similar to mine and you can use my letter if you wish."—Mrs. F. J. Korman, 1325 Stone St., Sandusky, Ohio.

### Comparison.

"How much does a farmhand charge for a full day's work?"  
"I dunno," said Farmer Cornsossel.  
"I suppose my ideas is influenced by the way I was raised. At the present time, so far as I can see, there ain't any such thing as a full day's work."

## EATONIC Users —Do This—Get the Greatest Benefits

Chicago, Ill.—Thousands of reports from people all over the U. S. who have tested Eatonic, show the greatest benefits are obtained by using it for a few weeks, taking one or two tablets after each meal.

Eatonic users know that it stops Belching, Bloating, Heartburn, and Stomach Miseries quickly, but the really lasting benefits are obtained by using Eatonic long enough to take the harmful excess acids and gases entirely out of the system. This requires a little time, for Eatonic takes up the excess acidity and poisons and carries them out of the body and of course, when it is all removed, the sufferer gets well, feels fine—full of life and pep.

If you have been taking an Eatonic now and then, be sure and take it regularly for a time and obtain all of these wonderful benefits. Please speak to your druggist about this, so that he can tell others that need this help.—Adv.
