Entered at the North Platte, Nebraska
Postoffice as Second Class Matter.

FRIDAY, SEPTEMBER 30, 1920.

EDITORIAL.

The communication from Julius Pizer, which was printed in our last issue, has opened up a very important matter. North Platte will stop growing now until more homes and business houses are built. Hardly a day passes but we hear of someone who is leaving the city because he could not get a house or a room in which to do business. Our people are living in every available place and the limit has been reached. Our growth has been so rapid that our building program has not kept up and we find our selves with an abnormal number of people with restricted building and small chance of immediate relief. It is not the fault of anyone in particular and we cannot suggest a remedy but we believe we have the problem with us. Men cry for factories and new industries. In the name of common sense, what would we do with them? Every man in North Platte who wants to work has a job and we cannot take care of any more people until more houses are built. We will welcome other suggestions as to the solution of the problem.

We have in The Tribune office, a large map of the United States printed by the Department of the Interior and thus correct in shape and relative distances. Non-stop trips by airplanes are being made frequently between New York and Chicago. We placed a star at New York and another at Chicago. An equal distance directly west gives us another star at North Platte, Nebr. We then located another star an equal distance west of North Platte and it came at Salt Lake City and the last equal distance west of that was at San Francisco. This gives North Platte a natural advantage over Omaha, Denver or Cheyenne which cannot be denied. With the erection of the hangar and keeping on hand a supply of oil and gas suitable to airplane use no ship will pass us.

SATURDAY SPECIAL

On Saturday, Sept. 4th we will sell fancy carpet brooms at 48c each—not over 2 to a customer.

GAMBLE WITH SPRINGER.
All Four Stores.

Mrs. J. B. Redfield spent yesterday in Ogallala.

S. Howe left Wednesday for his home in Kansas City.

Miss Grace Croghan, of Omaha, is visiting her sister Mrs. Colley.

LOCATION OF NEW COURT HOUSE.

To the Editor of the Tribune:
I have been following the discussion of the plans for the new Court House in your paper and have heard a great deal about it in talking with people on the street and in other places. It seems to me that it would be better to put the Court House on the quarter block where the County Jail now stands and make a real park out of the block where the Court House now stands. It should be provided with seats for people who are visitors to North Platte from different parts of the County. We should have a place in this park for public meetings in the warm weather where ten thousand people from all over the county could attend and get the benefit. This would be a good place for political meetings, public celebrations, receptions to national guests and other meetings for the good of all the people. It would be a shame to destroy all of the fine trees on the west side of the block in order to place a building there, when the building could be located just across the street and we could have the trees for many years.

Other places have their Court House on a small piece of ground just like any other business block. That is what it is—a business house. There would be plenty of room on the quarter of a block where the jail now stands for a fine building and it would have as good a location as if it were just across the road.

I do not know what others may think but this looks to me like a good plan.

Very truly,
SANFORD HARTMAN

NO REASON FOR IT.

When North Platte Citizens Show Way
There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a North Platte citizen says:

Mrs. Anna Flood, 721 W. 10th St., says: "I have found Doan's Kidney Pills a most excellent remedy for kidney complaint. I have taken them several times during the past years when my kidneys were out of order. When my kidneys are not in good condition I have a great deal of backache and pain in my sides and I feel all out of sorts. If I take a few Doan's Kidney Pills they soon strengthen my kidneys and leave me feeling all right. Doan's are a household remedy in my home."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Flood had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Mrs. M. A. Wisemiller, of Sutherland was a visit in the city yesterday.

CONTINUE TO CAN.

The National Society for the Promotion of Thrift has sent us the following:

Washington, D. C., Aug. 10.—It will be wisdom on the part of housekeepers to can the usual amount of fruits and vegetables this year, even if part or all of the fruit must be canned without sugar, according to a statement issued by the United States Department of Agriculture.

From all present indications, sugar will be more abundant next winter when the fruit will be used on the table, the department says. There will apparently be an increased acreage of both cane and beet sugar this year in the United States, Cuba and in other countries in the Northern Hemisphere. The rise in the price of sugar has encouraged increased plantings of cane and beets.

In spite of a world shortage of sugar and a decrease of 400,000,000 pounds in domestic production, there has been used or hoarded during the current year in the United States 15 per cent more sugar than in former years. In fact, a greater supply of sugar than ever before has been handled in this country during the past few months, with net imports 25 per cent or over 1,000,000,000 pounds, greater than in any previous period. It is obvious, therefore, that there has been no actual sugar shortage here this year. The difficulties encountered have arisen from the inability of the consumer to secure his share of the supply. Unless enormously increased amounts have been consumed, the trouble must be laid to hoarding, and it is very evident that large quantities are being held for future use both by housewives and commercial concerns.

During the past 50 years the consumption of sugar in the United States has steadily increased, at an average annual rate of one pound a year, until in the last few years the average yearly per capita consumption for all purposes is between 85 and 90 pounds. This compares with a per capita consumption of 58.9 pounds in 1899. The increased consumption of sugar by the soft-drink, candy and ice cream industries during recent years has helped raise the total average, but to what extent is not known.—The Packer.

ENGAGED IN SPLENDID WORK

New York School Devoted to the Task of Making Cripples and Unfortunates Self-Supporting.

From his association with the late Rev. H. Boswell Bates, founder of the neighborhood house, George A. Merritt learned how little was being done to make cripples self-supporting and how common, almost universal, was the belief that owing to various afflictions these unhappy ones must always be a burden on others. This was not his belief, and so strong did he hold an opposite conviction that, with the aid of a few charitable persons whom he inspired with it, he founded the Path school at 60 West Twenty-Fifth street, New York, in order to teach crippled commercial and railroad telegraph and thus give to them that greatest boon, a means of livelihood. This school is still young, but it has already proved itself many times over. It trains legless, armless, and deformed persons, but especially the young who are thus afflicted, either in the course laid out by the school or in some other line most suitable to individual cases. It is free to all, non-sectarian, and it has already in its short life lifted nearly 50 poor creatures from a state of dependence, or even penury, to positions where by honest labor they earn from \$12 to \$18 per week and have the joy that comes from self-support.

"Isle of Artists."

An island in Lake Como is to be known as the "Isle of Artists." And thereby hangs a tale. The owner of the island, Sig. Caprint, was a great admirer of King Albert of Belgium, and in his will he left it to him with the wish that it might serve some noble purpose which Italy could share. King Albert, through his minister of arts and sciences, has handed over the property to the Italian government with the object of making the spot a restful retreat and center of activity for those who have devoted their lives to art. Under the Academy of Milan villas are to be built for artists and the place will be transformed into a little capital for promoting the fine and industrial arts in the Italian lakes district.—Chicago Daily News.

Why Ship is Feminine.

A ship is invariably spoken of as the feminine gender; this is traced to the ancient Greeks, who called all ships feminine names out of respect to Athene, goddess of the sea. Friday is believed to be an unlucky day by those who are superstitious. It is derived from the fact it was the day of Christ's crucifixion, as well as the one on which Adam and Eve ate the forbidden fruit. Few, perhaps, are aware, why a weather-cock is frequently attached to a church steeple. This is believed to remind people of Peter's denial of Christ. It is a common belief that peacock's feathers are unlucky. This is due to the tradition that the bird opened the gate of paradise to the serpent.

Want Ads

ORGANIZED 1887.

Mutual Building and Loan Association,

Of North Platte, Nebraska.

RESOURCES JUNE 30, 1920, \$1,329,175.53.

Installment Stock.

The installment stock of this association is issued in shares of \$200.00 each and may be subscribed for at any time upon the payment of 25 cents per share entry fee and a monthly payment of \$1.00. This stock earns dividends of eight per cent per annum, compounded semi-annually and matures in 128 months. This maturity is effected by adding to the \$128.00 paid by the investor, \$72.00 to cover the earned dividends for that period.

\$10.00 per month so invested will yield in 128 months \$2000.00.

\$10.00 per month so invested will yield in 256 months \$6000.00.

T. C. PATTERSON, President. BESSIE F. SALISBURY, Secretary.
