Mr. and Mrs. Sidney McFarland left Tuesday evening for Cheyenne.
Fred A. Skow, of Omaha, is visiting friends and relatives in the city.

NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work Flourishing in Small Towns Throughout Country.

More than 37,000 graduate nurses have been enrolled in the American Red Cross to date and its department of nursing is daily increasing this enrollment.
The department of nursing has been authorized to maintain an adequate reserve of nurses for the army and navy. It will continue to supply the needs of the United States Public Health Service to which it has assigned more than 1,000 nurses in the last year.

It will assist in establishing proper nursing service in foreign countries where the American Red Cross has organized hospitals, dispensaries and schools for nurses. Courses in home hygiene and care of the sick have been started for thousands of women who have never received any education in this direction. Rural nursing which was in its infancy a short while ago has been put ahead at least a decade through the work of the department of nursing and local Red Cross chapters.

Public health nursing has been extended to many rural communities and now flourishes actively in hundreds of small towns and counties. Nearly a thousand efficient nurses have already been assigned to this kind of work.

The department of nursing is uniting with other organizations in a year's campaign in recruiting nurses for training schools, in educating the general public as to standards of nursing education and in showing communities their responsibility toward schools of nursing. It will endeavor to meet all these needs as well as to continue the enrollment of dietitians who will be utilized as instructors in home dietetics, in developing nutritional clinics, and in supplying dietitians for the United States Public Health Service and the civilian hospitals.

The Nursing Service will continue to offer to women and young girls the opportunity of securing instruction in home hygiene and care of the sick in every community in the country. This instruction has not only laid the foundation for public health but in some places has given impetus to the establishment of hospitals and community school houses.

"As a community profits by the work of the nurse," says Miss Clara D. Noyes, director of the department of nursing, "it is logical that the community should be aroused to its responsibility. The American Red Cross stands ready to help in a general campaign of recruiting and must have the support, sympathy and understanding of the medical profession as well as the intelligent co-operation of the people at large."

HOME SERVICE FOR EVERYBODY IN NEED

Do you know what the present day Home Service of the American Red Cross is?

Many people do not know that, besides completing the work for ex-service men, especially the disabled, it provides the same neighborly service to families in general that it formerly gave families of soldiers, sailors and marines.

"Home Service covers a wide and varied field," says Frederick C. Munroe, general manager of the American Red Cross. "It gives aid to families in solving such problems as budget planning, marketing, tiding over times of financial stress, keeping children in school, helping crippled children, widowed and deserted mothers, children backward in school and children in conflict with the laws. It renders service to the homeless and transient, to the illiterate, to tenement dwellers, to the unemployed, and gives friendly assistance and advice to foreign speaking groups."

In addition to helping families in the solution of their own problems, Home Service helps in strengthening the weak spots in the social life of communities. It joins hands with others to make communities safer, healthier and happier.

Organizing action along lines in which the community is already interested is one of the objects of Home Service. It has established community meetings, patriotic celebrations, pageants and picnics. Rest rooms, recreation facilities, play supervisors and moving pictures have been provided. Through Home Service other agencies are influenced to bring about improved commercial amusements and better school facilities and to promote traveling libraries as well as to secure county agricultural and home demonstration agents.

If you need assistance at any time, go to the secretary of the nearest Red Cross chapter and describe the situation. Your confidence will be sacredly respected and every possible effort will be made to aid you.

American Red Cross Roll Call.

The Fourth Annual Roll Call of the American Red Cross will be held this year from Armistice Day, November 11, to Thanksgiving Day, November 25, inclusive. During this period the men and women of the United States will pay their annual dues and renew their membership.

Miss Florence Gough is taking a two weeks vacation from her duties at the Leader Mercantile Company. She expects to leave in a few days for Denver.

Listen, good friends, and you shall hear why some Cigarettes are so all-fired dear

SOME cigarettes are packed in pretty boxes that certainly don't grow on trees. Next, they're dolled up—and flavorings are sure getting expensive. And then, they're priced a bit high so they'll seem "exclusive." But read how Spur Cigarettes offer the highest possible quality at the lowest possible price:

If there are any finer tobaccos from the Orient and the good old U. S. A. than those selected for Spurs, they must be a secret that the world has never heard. And when we got these combined in Spur Cigarettes, what do you suppose was the result? Just the best taste and aroma that any cigarette could give, and Willie Doll-up or Freddie Flavoring hadn't a thing to do with it.

Spur is "class" all through—even to the smart "brown-and-silver" package, triple-wrapped, that keeps Spurs fresh and fragrant. Try out a package of Spurs. You'll say "made and priced for popularity."

You can hear it in our store

—the phonograph that is featured in Vaudeville's strangest act

Perhaps you've seen it—Signor Friscoe's "Magic" Xylophone Act.

It's the hit of vaudeville's "Big-Time."

Signor Friscoe's "magic" is an Official Laboratory Model of the New Edison. We have one exactly like it.

Signor Friscoe's instrument is an exact duplicate of the original Official Laboratory Model, which cost Mr. Edison three

million dollars to perfect. Our instrument is also an exact duplicate of this famous three million dollar original. We guarantee it to be able to give the same marvelous RE-CREATIONS of music, which Signor Friscoe's Official Laboratory Model gives in vaudeville.

Come in and test the astonishing realism of this instrument for yourself—in Mr. Edison's Realism Test.

The NEW EDISON

"The Phonograph with a Soul"

You've read how the New Edison has proved its perfect realism. Four thousand tests have been given, in which more than 50 different artists compared their art with its RE-CREATION by the New Edison. Leading newspapers conceded that there was no difference between the two.

Has any one suggested to you that these comparison tests are "faked"—that the artist imitates the New Edison?

Signor Friscoe's performance makes such an assertion positively ridiculous. Every week, 20,000 people see his hammers ripple over the xylophone keys. Suddenly he holds them aloft—still.

The rippling music continues.

Slowly, the gorgeous curtains of the back-drop part. The audience gasps. The New Edison stands revealed. It has taken up Signor Friscoe's performance, and is now RE-CREATING it alone. The effect of this extraordinary magic can rest upon only one fact: No one can distinguish any difference between Signor Friscoe's performance and its RE-CREATION by the New Edison. Signor Friscoe could not possibly imitate the New

Edison, because the xylophone can not be made to imitate any other instrument, so as to deceive its hearers.

Signor Friscoe's act is not an Edison enterprise. He has simply been clever enough to use the New Edison for what it is worth. Why don't you?

PRICES

The price of the New Edison has increased less than 15% since 1914. This includes the War Tax.

Mr. Edison has staved off price advances by personally absorbing more than half of the increased cost of manufacture.

Because of the exceptionally high quality of materials and workmanship demanded by the Edison Laboratories, and the continued scarcity of both, it may be necessary to advance prices. But rest assured that this will not occur, unless Mr. Edison is forced to it.

Our Budget Plan—the thrifty way of spending—will help you buy now. Let us tell you about it.
