SOCIAL WORKER NEEDED.

J. H. VanCleave and Dr. Claude Selby appeared as a committee from the Welfare Board asking the Council to employ someone to take the place of Miss Greer in looking after the social welfare of the city. They showed the need for continuing the work which has been begun and which promises to make North Platte a safer and healthier place in which to live. Council approved the request and action will be taken by the officials at once to supply the place.

Dodge Brothers make a car which stands up under constant use, and peculiarly fitted for business. Most of our large corporations have standardized on Dodge equipment, and local insurance, land and traveling men have bought Dodges for their extreme serviceability. Ability to get parts and service right here in North Platte also contribute to their large sale and usefulness. J. V. ROMIGH—Dealer.

In these days of high prices, Chandler car prices are most reasonable for the quality they represent. When you buy your family car, you will do well to find out that today you can buy a Chandler cheaper than many other formerly lower priced cars. Seven years making one model mean both a better and a cheaper car for you. J. V. ROMIGH—Dealer.

Keeping Water Cool.

The only way to keep water cool is to surround it with some material that is a bad conductor of heat, or in other words, does not pass on the heat too rapidly. The poorest conductor of heat is a vacuum or space from which the air has been excluded; hence, a thermos or vacuum flask makes the best container for cold water. Other bad conductors of heat are wood, leather, felt, horn, bone; containers made of or covered with these materials will keep liquids cooler than those made of metal or glass.

THOSE WHO COME ONCE

Always come back, especially when they desire something extra fine in the way of food, service and surroundings. We only have to induce people to come here once. They come again of their own accord. Suppose you test our service today and learn why this restaurant is so popular.

Remarkable Success of these Talented Physicians in the Treatment of Chronic Disease

EXAMINATION AND CONSULTATION FREE.

The diagnostician of the United Doctors, licensed by the state of Nebraska, for the treatment of chronic of men, women and children, offer to all who call on this visit, consultation, examination and advise free. They have a system and method of treatments that are sure and certain in their results.

These doctors are experts in the treatment of chronic disease of the blood, liver, stomach, intestines, heart, kidneys or bladder, rheumatism, sciatica, dropsy, leg ulcers, weak lungs and those afflicted with long standing deep seated, chronic disease, that have baffled the skill of other physicians, should not fail to call.

According to their system no more operations for appendicitis, gall stones, gonorrhea, piles, etc., as all cases accepted will be treated without operation or hypodermic injection. If you have kidney or bladder troubles bring a 4-ounce bottle of your urine for chemical analysis and microscopic examination.

Worn-out and run-down men and women, no matter what your ailment may be, no matter what you have been told, or the experience you have had with other physicians, settle it forever in your mind. If your case is incurable they will tell you so. Consult them upon this visit. It costs you nothing for examination.

Remember, this free offer is for this visit only.

Married ladies must come with their husbands and minors with their parents.

WHITES TO ABSORB MAORIS?

That Fate, Rather Than Extinction, Said to Be Assured to New Zealand Tribe.

The ingenious explanation that they wouldn't have eaten neighbors had beef, mutton or pork been more abundant on the early New Zealand market stamps the native Maoris as a race with working brains, and their physique have long been praised. It is not surprising, therefore, that, as a correspondent records, these aboriginals are among the few in modern times who, instead of promptly vanishing, will doubtless be absorbed into the white man's family.

Fifty thousand pure-bred Maoris still remain, half of whom are practically civilized. Many have attained to high political position. There are four Maori members in the house of representatives, two in the legislative council and one is an important minister in the executive council.

Themselves Polynesians of remote East Indian blood, these natives, be it added, are not strictly aboriginals. They are thought to have "displaced" a large tribe of some 500 years ago a savory stock of Melaneans or Papuans.

AMERICAN RED CROSS TO GIVE RURAL HELP

Program for Public Health and Community Welfare is Now Well Under Way.

Rural communities and towns of less than 5,000 population benefit in a very large part by the public health and community welfare work of the American Red Cross. Almost all of the 3,600 Red Cross chapters have some rural sections in their territory. Therefore the Red Cross Rural Service.

Briefly, the purpose of Rural Service is to assist people to get out of life more health, wealth and happiness. In this purpose public health instruction and general educational progress of both children and adults play a big part.

Recreation is found to be one of the biggest needs in rural life. There is lack of sufficient play-life for the children and social life for the adults. Picnics, pageants, debating clubs, baseball leagues, community singing and other social events which bring the people of surrounding communities together have been organized and carried on under the guidance of Red Cross rural workers to great advantage. In many instances solving recreational problems and getting people together proves to be the awakening of the community to other conditions which may be improved by united action.

As a result of community organization, townships in which there had been neither plans nor interest in community progress have been organized to work together with the unified purpose of bringing their community up to the most enlightened standards. Lecture and musical entertainment courses have been started as a result of community meetings, as well as circulating libraries, Red Cross schools of instruction in Home Nursing, Care of the Sick and First Aid. In the larger towns the need for restaurants and public comfort stations is being met. Playgrounds for the children have been established and recreational activities worked out for the year.

In order that there may be concerted effort in carrying on the programs of the various welfare agencies in the rural districts, Red Cross Rural Service helps the organizations already on the ground. The main object of the service is to lend a hand everywhere and take the lead only where necessary.

JUNIOR RED CROSS ACTIVE IN EUROPE

Garden seeds for Polish orphans, milk for anaemic Greek babies, carpenters' tools for Czechoslovakian cripples—these are only a few of the gifts that young Americans are sending to the war-crushed children of the Old World.

Through the Junior Red Cross the boys and girls of the United States are giving a fresh start in life to little war orphans scattered all over Europe. They have set up orphans' homes in France, school colonies in Belgium and Montenegro, and day schools in Albania.

They are sending dozens of young Syrians, Montenegrins, and Albanians to American colleges in Constantinople and Beirut, and maintaining more than a hundred orphans of French soldiers at colleges and trade schools. In orphanages and farm schools up and down the peninsula of Italy there are nearly 500 wards of American Juniors.

Last winter a thousand French children from the devastated regions were sent by the Junior Red Cross to spend the cold months in warmer parts of France. At the same time five thousand little Belgians were having a hot lunch every day at Junior Red Cross school canteens.

American school children have already raised something like a million dollars for these enterprises, and they are still hard at work.

In China, through campaigns of education, the Junior Red Cross is helping to combat widely prevalent blindness and cholera.

RED CROSS RELIEF IN CENTRAL EUROPE

But for timely assistance of the American Red Cross during the last year, a large proportion of the 20,000,000 population of the Balkan States might have starved or perished from disease or exposure. Six million dollars worth of food, clothing and medical supplies have been sent to the Balkans—Roumania, Bulgaria, Albania, Montenegro, Serbia, Bosnia and Greece—since the beginning of Red Cross relief operations in Central Europe, while millions of dollars worth of food alone has been sent to the needy in these states.

The money expended by the Red Cross in this stricken portion of Europe has been used to set up hospitals, orphanages, dispensaries, mobile medical units and to help in the general reconstruction of devastated areas. American tractors and other farming implements have been sent to the agricultural regions where aid has been given in plowing the land.

By the last of this year probably all American Red Cross agencies administering relief in Central Europe will have withdrawn. By that time, it is believed, the people will have approached a normal state of living and will be able through their own agencies which the Red Cross has helped set up to provide for themselves.

MORE MILK FROM SAME FEED.

The dairy cow must be kept in good health to give a full supply of milk. Decreased milk production indicates low vitality because of a lack of necessary minerals in the feed. Increasing the feed does not effect the result.

The daily use of

CAREYIZED STOCK TONIC BLOCK

is most effective in such cases. It acts as a general tonic and bloodbuilder, and with improved digestion and power to assimilate food, a greater flow of milk naturally follows.
