**OBSERVING THE SABBATH.**

To The Tribune:  
We speak with pride of our city's growth and prosperity; but what can we say in regard to our enduring development? The Nation, the City, the individual that reveres and reverences the Creator are blest in the service. Those of us who wish and want to be Sabbath observers and who are endeavoring to bring up our children to fear God, and in this respect to keep the fourth commandment "Remember the Sabbath day to keep it holy" are sorry to see golf and baseball played on the Sabbath day in our city, although we are enthusiastic over the other six days of the week. Let us consider and not sow the wind, and reap the whirlwind, for as righteousness exalteth a nation so only can a city be exalted.

Respectfully yours,  
J. S. TWINEM.

**RADIOLITE CONTEST.**

Dixon & Son have a novel display in their store window. It consists of a number of Radiolite watches and boxes, some of which may contain watches. The patrons are invited to register their guess as to the number of watches in the window, counting in the boxes. The contest closes those in sight and those which may be Thursday, Sept. 16th, the winner to receive a radiolite watch.

**COMMUNITY CHORUS MEETS.**

The meeting of the Community Chorus at the Central School Auditorium Thursday evening was not well attended. Mrs. Shriver handed in her resignation as Director. Then things looked dark. But the Chorus promptly refused to consider the resignation and appointed a Committee to get action on the membership. Further announcements will be made next week.

**NEW RECRUITING ORDERS.**

Today the local recruiting office received orders to enlist men for the Fifth Baking Company, stationed in the Hawaiian Islands. Applicants for this company do not have to be professional bakers for they will be taught the trade while serving in the army.

**GRACE TEMPLE LAID AWAY.**

The funeral service for little Grace Temple, the youngest daughter of Mr. and Mrs. C. F. Temple, was held at the family residence Sunday afternoon. Rev. Hess conducted the service and gave an impressive talk to the members of the family and many friends who were present. Miss Esther Antonides sang two beautiful songs that eased the sorrow of those present. Following the service a large number of friends went to the cemetery.

**CURTIS DEFEATED SUNDAY.**

The Independents again showed their metal by defeating the Curtis team by a score of fourteen to seven. Everyone got in some good hits as our boys used Rauch, Husband and Langford in the box with Sandall behind the bat and Curtis used Wacholtz and Smith. A fair sized crowd was in attendance.

**Combines Ease of Operation with Good Work**

It's genuine satisfaction to drive the John Deere Corn Binder round after round and see the standing corn transformed into well-shaped, easily-handled bundles because the hard work is all taken out.

cause it is easy on the horses. The Quick-Turn Tongue Truck takes off all neck weight, and makes it just as easy to turn at the ends as if the horses were hitched to a wagon.

Besides, the truck takes off side draft and prevents sluing because the axle of the truck is flexibly mounted—the wheels hold to uneven ground constantly.

The power carrier does away entirely with the hard work—you don't have to dump the bundle carrier and return to position hundreds of times during the day.

The John Deere works successfully in all kinds of corn fields. The wide throat; with flexible throat springs; holds the corn into the conveyor chains. The bottom conveyor chains operate close to the butts; carrying the corn back in a vertical position all of the way.

On the John Deere you press the foot trip lever and the power carrier does the rest—it delivers the bundles free of the path of the horses, and practically parallel to the standing corn. The horses don't have to tramp over and on the bundles. Because the carrier is always in receiving position, no bundles are scattered between the windrows.

The three packers, one working above the needle and two below insure well-formed bundles. The three discharge arms discharge the bundles onto the power carrier. No chance of the discharging bundle mixing with the bundle being made.
