ARABIAN EMPIRE NOT LIKELY

As Travelers Point Out, System and Organization Are Foreign to the Semitic Mind.

"History is against the probability of the creation of an Arabian empire. The Semitic mind does not lean toward system or organization," said Col. Thomas E. Lawrence recently.

"The Semites are represented by very little art, architecture, philosophy. But we find an amazing fertility among the Semites in the creation of creeds and religions. Three of these creeds—Judaism, Christianity and Mohammedanism—have become great world movements. The broken fragments of countless other religions which have failed are found today on the fringes of the desert.

"The desert seems to produce only one idea—the universality of God. We, who have gone out to discover the meaning of the desert have found only emptiness—nothing but sand, wind, soil and empty space. The Bedouins leave behind them every extraneous comfort and go to live in the desert, in the very arms of starvation, that they may be free. The desert exacts a price for its secret. It makes the Bedouin entirely useless to their fellow men. There has never been a Bedouin prophet. On the other hand, there has never been a Semitic prophet who has not, before preaching his message, gone into the desert and caught from the desert dwellers a reflection of their belief. The idea of the absolute worthlessness of the present world is a pure desert conception, at the root of every Semitic religion, which must be filtered through the seen of a non-nomad prophet before it can be accepted by a settled people.—Asia Magazine.

He Had the General Idea.

Rousy Johnson had never attained to any "book learning," but managed to absorb considerable of the general idea during one winter when the district school teachers boarded with him. During the winter the teacher often corrected the Johnson children in their grammar, and Rousy was proud of his offsprings' education.

After the teacher left Rousy elected to keep up the good work. At the supper table one evening he asked Ted, the nine-year-old boy, a question, and received the answer: "Uh-huh." Rousy judged this was a grammatical error. "What do you mean by answering me that a way?" he demanded. "Uh-huh isn't no word. If you mean yep, say yep, and don't grunt like a pig!"

AMERICANS ABROAD IN RED CROSS WORK

United States Citizens Far Away Enthusiastic Members of the "Fourteenth" Division.

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country—sons and daughters of the Stars and Stripes residing at the far corners of the earth.

These people compose the Insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the island of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported 30,808 paid up members.

The main object of this division is to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patriotic, treasure their membership in the Red Cross as the outward expression of their citizenship. It is another tie to the homeland and to each other. There are chapters of this division in Argentina, Bolivia, Brazil, Canal zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Ecuador, England, France, Guam, Guatemala, Haiti, Hawaii, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippines, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuela and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent Home Service in their respective communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to the relief of disaster and disease victims.

The division is now establishing service clubs in foreign ports for the benefit of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part in the great Peace Time program of the American Red Cross.

RED CROSS ASSISTS DISABLED VETERANS

The American Red Cross is carrying on a wide program of service for the disabled World War veterans receiving treatment in United States Public Health hospitals, and those being trained through agencies of the Federal Board for Vocational Education.

In each of the Public Health Service hospitals Red Cross workers devote their time to the general welfare of the service men from the day they enter the receiving ward until they are discharged. After the soldier's discharge the Red Cross continues its friendly service through the Home Service Section in his own community.

The Red Cross maintains a convalescent home at all of the hospitals, where patients can amuse themselves after they are well enough to be up and around. Parties and picture shows in the wards are also furnished, with occasional excursions when convalescence comes.

Great service has been rendered by the Red Cross in mental cases in identifying those who have appeared in state hospitals for the insane, and helping them secure compensation due from the Bureau of War Risk Insurance.

In the Federal Board's various district offices the Red Cross worker, acting with the Home Service Section, makes necessary loans to the men, arranges suitable living conditions, helps collect evidence and supply facts to the Board, assists in "appealing cases" and settles various personal difficulties for the men. The workers also follow up and aid all men who discontinue training.

The Red Cross agents find men "lost" to the Board, help clear up delayed cases and aid the college counselors in their friendly work with the men. Many Red Cross chapters have set up recreation facilities, and in some instances living clubs, so these victims of war may have attractive surroundings and the fun which must go with effective school work.

To the American Red Cross Institute for the Blind near Baltimore, Md., more than half of all the Americans blinded in the World War have come for training. The Institute, through the Red Cross, long ago conducted an exhaustive industrial survey to determine the vocations for which blind men could be fitted. As a result it is putting forth well trained men equipped to meet the social, civic and economic requirements of their respective communities.

Aid for Spanish Red Cross.

The Iberian chapter of the American Red Cross, composed of Americans resident in Spain, has just contributed \$480 to a fund being raised by the Spanish Red Cross and the League of Red Cross Societies for the purpose of fighting malaria.

Healthful Blood Pressure.

Whatever interferes with the easy passage of the blood through the veins and arteries of the body will induce what is known as high blood pressure. High blood pressure is sometimes present under thirty, but is usually found in those beyond forty.

When there is high blood pressure there is usually evident some hardening of the arteries, that is the arteries become like tubes, instead of elastic aids in the propulsion of the blood through the body. The blood that is properly filtered by healthful kidney action, carries no hardening deposit to stiffen artery walls. Spinal adjusting that restores healthful action of the kidneys is invariably effective in reducing blood pressure and restoring the normal resilience of artery walls.
