

SALE OF HOGS.

On Saturday, Oct. 23 at Lexington, in the Sale Pavilion, we will sell as classy an offering of Poland Chinas as will go through any sale ring this year.

We have studied the hog business from a practical farmers standpoint for 20 years and have spared no effort possible in developing that type.

The Judge at the County Fair said I had a distinct large type with uniformity, smoothness and quality not found in many herds.

We appreciated the compliment most because all our winners and 27 of the 28 head shown by us were of our own breeding.

From our herd of 200 head we will select 15 fall and 15 spring boar pigs including the winners. We will also include 10 sows with litters and 10 open fall gilts, and 10 stock shoats. Come, buy them at your own price. For further particulars send for a catalog to

"Thine Is the Glory"

This painting, which hangs in National Headquarters of the American Red Cross, Washington, depicts the homage of America's fighting men to American womanhood as mobilized for service in the World War by this organization. It is the collaborative scientific and art creation of Major Joseph Gray Kitchell, late of the General Staff, U. S. A., and F. Luis Mora, of the New York School of Art. The face of the central figure is a composite of the features of a thousand Red Cross workers selected for the purpose.

DOUGHBOY HAS A GRIEVANCE

Why in the World Don't Frenchmen Give Proper Pronunciation to Their Absurd Words?

Take the city of Troyes, favorably known throughout the A. E. F. as a practically M. P.-less burg, writes Tip Bliss in the American Legion Weekly. Naturally, any human being would pronounce it to rhyme with "noise," and go on his way rejoicing in the knowledge of a good deed well performed.

Not so the frisky prof. He calls it "Twa," though why and wherefore le bon Dieu alone knows.

But if you want to get even with the f. p., try him out with a regular word with plenty of "w's" and "h's" and "th's" in it. "Whether" is the cat's fur, as the army expression almost has it. Tackle him with "whether" and watch him gargle and stammer and sizzle and finally turn up his toes and pass away while somewhere in his insides are still resounding the last despairing notes of his infernal interpretation of a good, Christian word into "vay-zair-r-re."

"Vay-zair-r-re!" Shade of Babel! Now, as regards the matter of spelling. One of the Frenchman's pet monstrosities in "Kiss-kn-say." Does he spell it that way? Ouija answers, no. He goes to work and unburdens himself of vowels and sibilants and things until he has gotten rid of "Qu'est-ce que c'est!"

What does it mean? It means: "What is this that this is?" Which is a fine healthy way of mauling. "Hub?"

Real Neighborliness.

An interesting experiment in neighborliness has been carried on for nearly a year in a part of Toledo which is populated almost exclusively by Polish immigrants and their descendants. The Polish Business Men's club of the district conceived the idea that the needy Polish families in the community should be taken care of in a neighborly way, rather than by charity organizations. The latter were requested not to extend aid in the district, but to notify the club, so that it might meet all emergencies. This is not done from the club treasury, however. An investigation is made to determine whether the need is for money, supplies or work, and the other residents of the block, including the tradesmen, are then informed that their neighbors need their assistance, which, the club reports, is always forthcoming.

Immunity From Whooping Cough.

Dr. T. Luzzati of Rome was called to three different houses, in each of which a child had begun to cough. In each case he suspected that it might be whooping cough; therefore, as a precaution, he vaccinated all the brothers and sisters with an anti-whooping-serum. Ten days later his suspicion was confirmed by the typical whoop, but in no case did one of the other children catch the disease, though no attempt at isolation was made.

In reporting this to Policlinica (Rome) Doctor Luzzati says he has found no benefit from vaccination once the disease has become pronounced.
