## WAITING FOR US TO SET THE TABLE

A table twenty-four miles long is plainly an extension table and that is just the length that would seat all of the orphans now being fed by the Near East Relief. This table is set in sections all over the hills of Asia Minor, Syria, Armenia and in Northern Persia. It is not in one piece. The Turks, who still keep the Armenians in a state of terror, do not allow it.

But there the table is, seated on both sides with orphans—Syrian and

Assyrian, Greek and Armenian, Jew and Christian—all rescued from the fear of the Turk and under the care of American men and women.

Most of the children are cared for in 229 American supported orphanages. The first ceremony in receiving these starved, almost naked children, is to clean them up. They are not only emaciated, but dirty with sores and vermin—60 hospitals and over 6,000 beds are kept full of the little sufferers.

But the children keep changing. Last year they were all thin and pitiful; now it is the newcomers who are thin. The orphans who have been from six months to a year in American care are well fed and well clothed.

Best of all for a new Near East which surely must come out of all this distress, every child old enough is being taught a trade which will make him self supporting.

They are a thrifty lot, these little parentless exiles. From their scant store of bread they always carry a portion in a small bag about their necks—they fear the day of another killing, another drive into the desert.

They hoard the shoes sent from America until snow flies—they remember their barefoot pain in the snows of last spring.

They cling to their new found friends. Every day other little waifs find a place in the orphanages and are told of the generous people of the United States. Soon the entrances will be crowded with children frozen out from their temporary summer quarters.

Then the table of the Near East Relief, must be extended—many, many new leaves will be needed, and America is asked to set the table.

## Healthful Kidneys A Winter Necessity

The kidneys control the action of the skin and are the heat regulators of the body. During the season of the year when there are quick changes from the warmth of day to the chill of night, or the body must adapt itself to a change from the extreme of outdoor cold to indoor comfort, the kidney sufferer is in constant danger.

Kidney weakness and inefficiency in adapting the body to sudden

changes, is apt to cause lung congestion or pneumonia. Kidney weakness is due to pressure upon spinal nerves at the spine. By chiropractic spinal adjusting this pressure of hard bone upon soft nerve tissue is lifted, and the nervous energy flows freely once more. After adjusting the kidney vigor comes back to normal and health follows as a matter of course.

## Harem Victim Tells Story

Stolen from her home on the night before her wedding and imprisoned for five years in a Turkish harem, Aghavni Millian, a beautiful nineteen-year-old Armenian girl from Billis, has at last been discovered by her lover and through the assistance of the Near East Relief forcibly taken from her master and brought to one of the American Rescue Homes in Constantinople. Here she will stay until arrangements can be made for her marriage and her return to her old home.

"My story—it is like hundreds of others," Aghavni said simply. "I was stolen from my home on the night that the massacres first began in Billis. It was the night before I was to have been married. I was just folding my wedding veil away when the Turkish soldiers broke into the house. They carried me off. I— They took me

up to Constantinople to the house of the man"— She stopped and put one hand over her eyes, a hand that bore the tell-tale tattoo of her Turkish master.

"But what does my story matter?" she exclaimed. "I am only one of so many. It is my people and their future that matters. Somehow we must rebuild our nation and show to the Turks who tried to beat out our life and to the whole world that, despite what we have suffered, Armenia is still unconquerable."

Aghavni Millian is, as she says, only one of many. It is estimated that one hundred thousand girls are still held captive in Turkish harems. The Near East Relief, America's official agent in Armenia, is making this work of rescue one of the most important features of its program, and it is to them and the support they receive from the American people that Aghavni's unfortunate sisters, still captive, must look for their release.

## Power

Red Crown gasoline is brim-full of smashing, heavyweight power. Every drop is a lusty slugger—no love taps. Doesn't get tired and lie down when you're on a hill, or stall in a jam of city traffic.

Over the fast turnpikes and through heavy going, Red Crown gasoline carries you along at train-making speed or at a leisurely, loafing gait—without a hitch. Its uniform power-content makes it dependable at all times under all conditions of travel.

Use Red Crown products regularly, for permanent satisfaction. You can obtain the gasoline and that standard motor oil—Polarine—at Red Crown service stations and authorized garages.

Economize on oil by using Polarine. It is made in four grades, differing in body but not in quality. These grades are

Polarine Polarine Heavy  
Polarine Medium Heavy Polarine Extra Heavy

For winter use the Polarine and Polarine Medium Heavy grades are recommended.
