

### For Figuring Where Minutes Count

When a customer is waiting for the total of her bill, figuring must be done in a hurry; yet if it isn't right it means a loss that can never be made good.

A small Burroughs Adding Machine, right on the counter, gives the total of any number of items in a few seconds—quicker than pencil figuring—and those totals are right 100% of the time. Preventing mistakes means saving money.

The same machine will handle figure work of all kinds. It is a visible model—visible writing, printing and visible totals, and a small machine which can easily be carried wherever it is needed. A Burroughs salesman will be glad to show you this machine, and how you can use it either on the counter or in the office.

### BETTER HIGHWAYS

LINCOLN HIGHWAY IS WONDER  
Ocean-to-Ocean Road Is No Longer an Unrealized Dream—Specifications Not Decided.

Seven years ago the idea of a trans-continental highway connecting New York with San Francisco, improved throughout its length and forming a backbone for a great national system of arterial roads, was only a dream in the minds of a few. Today the accomplishment of this great arterial route stretching from ocean to ocean is assured.

The Lincoln highway breathes the twentieth century. In years to come it will be adorned, as were the Roman roads, with stately, landmarks, homes, hotels—a panorama of the achievements of man. It will be the path of advancement, a golden chain linking the Atlantic to the Pacific.

The motor truck is in its infancy and highway freight transportation as an adjunct to the railroad is only just beginning. But the Lincoln Highway association feels that it is well within its province to act as a clearing house for the best thought in the United States concerning the probable requirements of main arterial American highways in the next 20 years.

What will be the specifications for this wonder road? That has not yet been decided. The association realizes that it is undertaking a difficult problem, but it believes that it will have, in solving it, not only the interest and support of the American public, but the co-operation of the engineers and highway commissioners, and also the best technical experts the country affords.

Some of the finest concrete roads of the country are to be found in Michigan. These have a standard thickness at the sides of six and a half inches. About the best stretch of highway we have at present is the Lincoln highway from New York to Philadelphia. It is 96 miles long, and every day there passes over it an average of 2,000 tons. This road is eight inches deep at its center. This is the thickest surfacing in the United States today.

Whether the show road of the world will be of this thickness or deeper is under consideration. There is some

### GOT REPORT THAT COUNTED

Coffee Dealer a Little Too Enthusiastic in His Praise of Goods He Had Condemned.

"Have you any of Blank & Co.'s coffee?" the stranger asked.

"Plenty of it, sir! How much would you like?" the dealer responded briskly.

"Do your customers generally like this coffee—I would want only something really good," the customer observed cautiously.

"Never had a more popular brand—it is fine—use it regularly on my own table," the dealer assured him.

"Well, I am glad to hear you speak so well of it now. You wrote me a while back that the goods were so unsatisfactory that you would have to return them unless you were given a further special discount. I'm Blank, you know. Good day!"

### Cause for Transfer.

Mincepin received the information that he was being transferred to another government department with rather bad grace.

"What's the cause?" he blustered. "Is it because I occasionally fall off to sleep?"

"It's because you snore, and that awakens the minister," came the reply.—La Balonette (Paris).

### EMPEROR FRIEND OF LOWLY

Napoleon III Declared to Have Had Genuine Regard for the Humble of His Subjects.

The friendly feeling of Napoleon III for the toilers is dwelt upon by Agnes Carey in her "An Empress in Exile," in the Century magazine, and she gives as her authority Empress Eugenie, wife of the last of the emperors. "Whatever his failings toward her had been," the author says, "she professed a warm admiration of his love of hard work, his pluck and his great kindness of heart and thoughtfulness for every one. The emperor genuinely loved the poor and humble among his subjects, with no thought of policy. He was too good and generous for his people's understanding. Had he been tyrannical and made use of them and trampled them down like some other sovereigns, they would have behaved better toward him, she (Eugenie) said.

"Napoleon was a dreamer and spent much of his time to the serious thinking out of schemes for the benefit of his people, and all mankind. His life's ambition was to better their lot. He had great magnetism, especially with the working classes. The empress charmed every stranger, but the emperor was really more personally and deeply loved by his entourage than was his consort."

Stretch of Concrete Road in Michigan.

thought of making it ten and a half inches at the sides and 12 inches at the middle, for it must be permanent. If the added advantage of this thickness overbalances the additional cost of construction, then the plans will call for this depth. It may be made even thicker than this. No one knows until the engineers have expressed their plans. The width must also be carefully thought out.

The association's plans do not stop with the construction of the road itself.

It has long been apparent that ultimately there must develop along America's main routes of heavy passenger and freight transportation, a new and distinctive type of accommodations catering particularly to such traffic and situated perhaps in the open country. Such accommodations, removed from the traffic and noise and necessarily higher prices of the congested centers, would provide for the tired and dusty tourists, or the drivers of freight-transport vehicles, convenient night stops where every effort would be made to cater to this particular type of patronage.

In conjunction with such accommodations arrangements would be provided for those tourists or travelers desiring to camp out. Free camp sites are even now being provided.—By Fred Gilman Jopp in Popular Science Monthly.

### Stagnation Prevented.

With a perfect highway system there can be no stagnation of transportation at any time. Normal needs promptly and properly met will prevent perplexing and costly emergencies.

### Vital to Progress.

Improvement of public highways, in addition to airways, railways and waterways, as avenues of convenience is vital to our progress and prosperity.

### Highways Cost More.

The building of highways cost \$2,200 a mile more today than it did in 1916.

### Poor Roads Uncertain.

Poor roads cause hauling by truck to be much more expensive and uncertain.

## Women of Middle Age

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change in her life without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, smothering spells, fainting spells, nervous troubles and irregularities are symptoms that should have prompt attention. These two letters prove what a successful remedy Lydia E. Pinkham's Vegetable Compound is for women at this time of life.

### These Two Women Helped During Change of Life.

Taunton, Mass.—"I could not eat or sleep for six months, had fainting spells and could not walk without help for three months, caused by female trouble. My cousin, who was a doctor, told me to take Lydia E. Pinkham's Vegetable Compound and it helped me greatly. Then during the Change of Life I used the same remedy. I am seventy years old now and am able to do my own housework and walk one mile to church every Sunday morning and evening. I am recommending the Vegetable Compound to my friends having the same troubles as I had. Your remedy is the best on earth. I cannot find words to express my gratitude for it."—Mrs. SUSAN C. STAPLES, 157 B School St., Taunton, Mass.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 743 N. 26th St., Philadelphia, Pa.
