

Millions for a New Stomach

One of the greatest American millionaires said to his physician, "A million dollars, Doctor, spot cash and no grumbling, for a new stomach," and then the sick man groaned and turned away. All his wealth could not make him happy or contented, for happiness largely depends upon digestion. Without health where does happiness come in? After all the stomach plays a great part in everyday life. Without a healthy stomach and good digestion our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. Prevent disease by putting the house in order and strengthening the system against the germs of disease.

Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood diseases and their prevention, and he discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that could be easily prepared at the drug store (liquid or tablets). This he called Dr. Pierce's Golden Medical Discovery. This Discovery gives no false stimulation because it contains no alcohol or any narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. It gives to the blood the food elements the tissues require. For over fifty years it has enjoyed the confidence of the American public. Try it now!

Eatonic Works Magic

"I have taken only two boxes of Eatonic and feel like a new man. It has done me more good than anything else," writes C. O. Frappier.

Eatonic is the modern remedy for acid stomach, bloating, food repeating and indigestion. It quickly takes up and carries out the acidity and gas and enables the stomach to digest the food naturally. That means not only relief from pain and discomfort but you get the full strength from the food you eat. Big box only costs a trifle with your druggist's guarantee.

Thirty Running Sores

Remember, I stand back of every box. Every druggist guarantees to refund the purchase price (90 cents) if Peterson's Ointment doesn't do all I claim. I guarantee it for eczema, old sores, running sores, salt rheum, ulcers, sore nipples, broken breasts, itching skin diseases, blind, bleeding and itching piles as well as for chafing, burns, scalds, cuts, bruises and sunburn.

"I had 30 running sores on my leg for 11 years, was in three different hospitals. Amputation was advised. Skin grafting was tried. I was cured by using Peterson's Ointment."—Mrs. F. E. Root, 287 Michigan street, Buffalo, N. Y. Mail orders filled by Peterson Ointment Co., Buffalo, N. Y.

Uncle Sam: The Poor Old Rich Fellow

WASHINGTON.—The nation will face a continuation of the annual tax bill of \$4,000,000,000 for at least three years if congress adopts recommendations drafted by treasury officials and laid before Secretary Houston for approval. Mr. Houston, it was stated, probably will include such recommendations in the form of an analysis of the government's financial condition in his annual report to congress.

The analysis will show, and accompanying recommendations will suggest, it was said, that a three year program for tax revision is required in order to meet maturing government obligations and cover current federal expenses and that approx-

imately \$8,000,000,000 in Victory notes, war saving securities, and treasury certificates of indebtedness will be due for payment within the next three years, treasury figures show.

Retention of the present aggregate levy of taxes, or maintenance of the annual revenue of the government at about \$4,000,000,000, then is held to be unavoidable on the face of average expenditures estimated for the period. Recommendations to be made by Mr. Houston, it was understood, will propose abolishment of the excess profits taxes in their entirety and the substitution thereof of a graduated income tax of a substantially deeper cut than under present revenue laws. It was believed the new income taxes would apply only to incomes above \$5,000 annually and that provision would be made for a graduated increase even on the additional tax as the amount of income grows larger.

The secretary is expected to advise congress that the strictest economy in federal appropriations is necessary if the program outlined on the basis of \$4,000,000,000 tax bill is to be accomplished.

New Administration to Tackle Budget

WASHINGTON.—With the government likely to spend \$4,000,000,000 or more annually for years to come, the working out of an effective budget system will be one of the first tasks of the Harding administration. The bill establishing a budget system may be passed in advance of the inauguration of Senator Harding as president next March.

The Good-McCormick budget bill is pending before the senate, after having been passed by both houses last spring, vetoed by President Wilson and re-passed by the house. As passed a second time by the house, a provision which the president objected to because he thought it encroached upon constitutional powers of the president with respect to the removal of officers appointed by him, was eliminated.

In case the bill is passed during the winter session in advance of March 4, there is a likelihood of the organization of a budget bureau before Senator Harding takes office as president. Under the bill the secretary of the treasury is made the director of the bureau while an assistant director is provided to be appointed by the president at a salary of \$10,000 a year. A general accounting office also is created headed by a controller general and assistant controller general appointed by the president.

at salaries of \$10,000 and \$7,500 respectively.

The new administration is expected to get the budget bureau in working order so that estimates may be submitted under the new plan to congress in December, 1921, for appropriations for the fiscal year beginning July 1, 1922.

Already the house has adopted a change in rules that was intended to be supplemental to the budget bill. This change centers in the hands of the appropriations committee the authority to report appropriations heretofore scattered among the committees on agriculture, foreign affairs, Indian affairs, military affairs, naval affairs, postoffices and postroads, and rivers and harbors. One large committee of thirty-five members will do the work which has been divided among eight committees.

Ten Thousand Have Lost Liberty Bonds

MORE than 10,000 owners of Liberty bonds and Victory notes have lost their bonds either through theft, through destruction by burning, or through some form of carelessness. The last official figures showed 7,563 persons having lost their bonds, of whom 6,088 were holders of coupon bonds. These figures are up to the close of the last fiscal year.

For those who have lost their coupon bonds there is little relief. For those who have lost registered bonds there is every probability of relief. Government officials say probably 50,000,000 coupon bonds still are in the hands of purchasers.

The tales of those who had lost

their coupon bonds are most pitiable in many instances. Poor women who have struggled and saved to purchase government securities, either through carelessness or a variety of unfortunate circumstances suddenly find themselves minus the bonds. They endeavor to recover them, fail, and then present their plea to the government. Of the thousands who have pleaded for the substitution of securities for coupon bonds, only a negligible percentage have produced sufficient proof of loss to permit the government to relieve them.

This condition probably will be brought to the attention of the coming congress with a hope that some measure of relief may be found for the owners of bonds as well as protection for the government.

The treasury officials again call attention to their pleading that coupon bonds be exchanged for the registered bonds. Almost every advantage is given the holder of registered bonds. Almost every disadvantage accrues to the holder of coupon bonds. And yet the people will not respond. Any bank will handle the matter.

Heigh Ho! 100 Women and Musical Satire

THE first theater productions company ever planned, organized and managed by women, backed by a founders' association of 100 women in official life and from business and professional circles in Washington, including Miss Mary Anderson of Chicago, chief of the woman's bureau of the department of labor; Mrs. Helen H. Gardner, civil service commissioner, and Mrs. Clara Sears Taylor, rent commissioner District of Columbia, recently launched its first venture, "Heigh Ho," a musical satire.

The officers of the new organization, the Washington Theater Productions, Inc., Mrs. Glenn A. Smith Tinnin, Miss Katherine S. Brown, and Mrs. Mary Holland Kinkaid, are well known in the Middle West.

Mrs. Tinnin was born and reared in Chicago; Miss Brown made Chicago her headquarters while acting as western producer for eastern theatrical managers, and Mrs. Kinkaid was a member of the staff of the Milwaukee Sentinel and of the Inter Ocean.

The ambition of the new organization is to build in Washington an immense theater housing three auditoriums, a repertory theater, a children's

theater, concert hall, all fully equipped. Plans for the building have been drawn, but without waiting for the completion of the edifice the founders already are at work on productions, leading off with "Heigh Ho," which will play in Baltimore and Richmond, and reach Chicago before the end of the season.

The author of the book and lyrics, Eugene Lockhart, will appear in the cast. This includes Bradford Allen, who originated the character of Bert in the London production of "The Better 'Ole," Louis Cassavant, Thomas Conkey, and Miss Fern Doubleday. Deems Taylor, who made the orchestrations and contributed part of the score, serves as musical director.

ROAD BUILDING

FUNDS FOR PUBLIC HIGHWAYS

Sum of \$97,000,000 Will Be Divided Among States in Proportion to Population.

"The last apportionment of federal funds to the state in road construction under the existing federal-aid act became available July 1," said Mr. McDonald, chief of the bureau of public roads.

"This is the largest apportionment yet certified under the Federal aid act, amounting to \$100,000,000, three-quarters of which is derived from the appropriation of 1919 and \$25,000,000 from the original appropriation of 1916. A deduction of \$3,000,000, or 3 per cent of the funds, will be made to provide for the expense of administering the federal aid act by the Department of Agriculture. The balance of \$97,000,000 will be divided among the states in proportion to their population, area, and mileage of post roads.

"Under the law the states are required to enter into formal agreements with the secretary of agriculture for the construction upon which this money is to be used before July 1, 1922. Any money which is not taken up before that time will be reapportioned among all the states in the same manner in which the original apportionments are made. All previous apportionments have been taken up in the time allotted, and it is not likely that the states will fail to absorb this last apportionment. To do so, however, will mean that the states must survey, plan, and let contracts for at least \$200,000,000 worth of federal aid road construction in the next two years.

"If the states continue to pay more than 50 per cent of the cost, as they have in the past, the cost of the roads constructed with this last apportion-

Good Roads Mean Greater Rural Comfort and Prosperity.

ment may reach \$250,000,000. In other words, it will be necessary to plan for construction at the rate of at least \$100,000,000 and probably more per year. Some appreciation of what that means may be gleaned from the fact that in 1915 the expenditure for all roads in the United States, constructed under state supervision, was only \$80,000,000.

"Since 1915, however, state highway departments have been greatly expanded, and efficient machinery has been developed which will undoubtedly be able to handle the greater volume of work.

"The states have had four years in which to prepare for the expenditure of the large funds which now become available. They expect to be able to handle them. What is of greater concern to them at this time is the condition which may result if federal appropriations are permitted to lapse. The highway departments should know at least a year in advance what funds are to be available in order that plans may be made for future construction. Unless, therefore, further federal action is taken in the coming year, the states will be left in doubt as to the future policy of the government, and the amount of money they must be prepared to expend. Such a contingency would involve a serious setback to the progress of road construction, and should be avoided by early congressional action."

POOR ROADS ARE EXPENSIVE

Farmers Cannot Haul Produce to Market When Prices Are High on Account of Highways.

It is a well-established fact that market prices for even staple crops vary considerably throughout the year. Where bad roads prevail, farmers are frequently unable to avail themselves of favorable prices. It is common for farmers to find that they cannot haul their produce to market when prices are highest, because the roads are impassable.

Sold everywhere.—Adv.

Belgian Cats Are Overworked.

During luncheon an expert attending the international finance conference at Brussels, Belgium, recently was surprised to see the restaurant cat march up and present him with a mouse. The mouse, seeing a chance for life, scrambled up his trouser leg. The expert said he quite understood that the cats, which are rare, were tired of mice, who swarm in millions, and were willing to give them to strangers, but why could not they kill them first?

Another visitor complained that, when he asked the hotel elevator boy to bring up the cat to kill a few mice in his bedroom, he was told that the cat's time was fully booked up and that it could not be spared for the second floor.—From the Continental Edition of the London Mail.

Dirty San Francisco.

San Francisco has some of the dirtiest streets in the United States. If not in the world, and what makes this condition more inexcusable is the fact that it should be an extremely easy city to keep clean and healthful, says the San Francisco News Letter. In the first place, we do not have to contend with the volumes of smoke and soot coming from hundreds of factories such as the eastern cities are cursed with; in the second place, we could devise a way of using the ocean water to wash streets and sidewalks with (salt water is a mild disinfectant); and thirdly, we are blessed with an equable climate thus making street cleaning an easy matter every day in the year.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends. Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Remember This.

There are many stories told against Irishmen of ripe and full age, but not so many about them when they are young. Still, here is a proof that they are Irishmen even before they are breeched.

It was a classroom in a village school in Ireland and the teacher was giving a lesson on salt.

"Now," she said at the conclusion of her rather long and inclusive lecture, "I want some one to give me a good definition of salt."

"Shure, teacher," said Mickey, a bright, blue-eyed youngster. "It's the stuff which makes potatoes taste nasty when you boll them and don't put any in."
