A WOMAN'S BACK

The Advice of of This North Platte Woman is of Certain Value

Many a woman's back has many aches and pains.

Ofttimes 'tis the kidney's fault.

That's why Doan's Kidney Pills are so effective. Ask your neighbor.

Many North Platte women know this.

Read what one has to say about it: Mrs. M. E. Wood, 208 E. 8th St., says: "I always have a word of praise for Doan's Kidney Pills. They certainly have done me a real deal of good. I had a very severe attack of kidney complaint and suffered terribly for awhile. My back hurt so I couldn't get around at all. A neighbor told me how Doan's Kidney Pills had cured her of such an attack and I took three boxes. It was not long before they relieved me. I cannot praise Doan's Kidney Pills too highly after what they have done for me."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wood had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Harvester Company Brands Story False

DURING the past month, reports have come to us that at farmers' meetings charges have been made, sometimes directly and sometimes indirectly, that this Company has adopted a policy of refusing to supply repair parts for old machines in order to compel the purchase of new ones. This statement is absolutely false. Such a policy has never been considered by this Company nor suggested to it.

Ordinarily we ignore such reports, because we have learned that any large company, no matter how fair and high principled, is subject at all times to unjust criticism. The facts are this Company has always recognized the importance of repair service and has used every effort to make IHC service the best. We believe we can truthfully say that the repair service furnished wherever this Company's goods are sold is equal if not superior to that furnished on any manufactured line.

We call attention to the fact that machinery "Fix-up Weeks," instead of being something new and originated by the farmers in 1921, as some seem to think, were really an outgrowth of the movement started by manufacturers and dealers' associations in connection with the Council of National Defense as a war conservation measure. Perhaps no other agency has done so much to promote "National Repair Weeks" as this Company.

The farmer needs machines which will be efficient and economical. If his old machines can be repaired so as to render efficient and economical service, he would be foolish to purchase new ones. Whether the farmer utilizes and repairs his old machines or buys new ones is a question for him to determine. But in making his decision, we give to every farmer who owns any IHC machines the assurance that a full stock of repair parts will always be provided by this Company.

Today, our repair stocks on the territory available for the farmers are 21 per cent greater than ever before at this time of the year. An average of a quarter million pounds of repairs are shipped from IHC factories for every working day in the year. Thirty million dollars' worth of repair parts are now ready, as insurance for the farmer when he needs this service.

In every International Harvester Works manufacturing orders call for repair parts first and even when furnishing them has meant cutting down production of new machines for which we had orders, repairs have always had preference.

At every one of our 91 branch houses trained men are on duty to see that all orders are filled and shipped promptly. Thousands of dealers scattered everywhere with an assortment of repairs in stock are always ready and willing to render every assistance.

This service which this Company has rendered through the years to those who have purchased its machines has been a matter of great pride to the Company, and is the foundation of the cordial good-will existing between it and its customers.

We feel it is due the Company and those who have purchased its machines that we give the widest publicity to the fact that this service of repairs will be maintained and improved, and that any charges to the contrary are untrue.
